James Wilson got one year in the Modoc county jail for selling whisky to Indians at Alturas. China Sam is locked up on the same charge, both having been caught red-handed. They do in Alturas what they fail to do in Lakeview—catch these fellows occasionally.

They are shipping turtles, frogs and snakes from Klamath Falls to the San Francisco markets. The Falls is not as slow as the turtle, nor as "wiggly" as the snake, but is as lively as a frog. A few railroads and other enterprises in contemplation will make Klamath's metropolis hard to catch.

Attacks of bilious colic may be prevented in the same way. For sale by Lee Beall, druggist.

Lesh and Will Holbrook are arranging to take a bunch of 2500 head of sheep from Albert Dent, on shares. Miss Clark, a young woman with some negro blood in her veins, is to be the woman principal of the great Tuskegee Institute, which shows that color is not necessarily a bar to success, in man or woman.

C. H. Jones, wholesale dispenser of vitality goods, W. F. Slocumb, salesman for Melius, Dräschler Co., of Sacramento, and L. M. Bates of Kansas City, traveling for the Peet Soap Company, arrived from the West Tuesday evening. The gentlemen are each on a mission of mercy. Bailey & Massingill have purchased from J. E. Bernard & Son, one-half of the 70-foot front lot on Water street, between the Bernard hardware establishment and Arzner Bros. blacksmith shop. The two firms have co-operated and let a contract to Striplin Bros. to build for them a one-story brick warehouse to be 70 x 100 in dimensions. The interests of Bailey and Massingill and J. E. Bernard & Son have both grown to such proportions that more room is needed by each firm, and they propose to own their own building for warehouse purposes. Arrangements are now being made to manufacture the brick to be used in the building, and work of construction will begin in about six weeks. They are in need of a few more men. Any one desiring work should call on Bailey & Massingill at once.

"Chink Ross" is dead. Chink was a useful and intelligent canine, and the property of George Ross. The faithful animal took the place of a horse and used to draw George and his wagon for miles about Lakeview. Chink would not take first prize at a dog show for his beauty, but he knew just what town dog his master had a grievance against, and upon meeting that dog a fight was sure to ensue. Besides, he showed his intelligence in many other ways which made him a great favorite with his master. George took him out gunning one day last week, and in the vicinity of the hot springs in Heryford's field he started a rabbit. He fell into the deepest spring, and when taken out was about done for. His young master came to town hurriedly for assistance, and during his absence poor Chink revived sufficiently to drag himself into town to die. It may look foolish to dwell upon such an insignificant matter as a "dog's death," but those who like a good dog will appreciate the fact that a dog is his master's most faithful friend. The intelligent dog will stand by his master when all humanity turns from him. Such a dog was Chink, and he had a decent funeral, which he deserved.
