

HOW TO GET YOUR HOME

The Laws of the Government Under Which Every Citizen Can Secure a Home.

There are over 40,000,000 acres of the best Government lands in America located in the extremely fertile regions of Minnesota, North Dakota, Montana, Northern Idaho, Washington, and Oregon, and open for occupancy by actual settlers. The laws of the United States, or persons who have declared their intention to become such, can obtain lands as follows:

HOMESTEADS

Any person who is the head of a family, or who has arrived at the age of twenty-one years, and is a citizen of the United States or, has filed his declaration of intention to become such, and who is not the proprietor of more than 160 acres of land in any State or Territory, is entitled to enter one quarter section (160 acres,) or less quantity of unappropriated public land, under the homestead laws. The applicant must make affidavit, that he is entitled to the privileges of the homestead act, and that the entry is made for his exclusive use and benefit, and for actual settlement and cultivation, and must pay the legal fee and that part of the commissions required as follows: Fee for 160 acres, \$10; commission, \$4 to \$12; fee for eighty acres, \$5; commission, \$2 to \$6. Within six months from the date of entry, the settler must take up his residence upon the land, and reside thereupon and cultivate the same for five years continuously. At the expiration of this period, or within two years thereafter, proof of residence and cultivation must be established by four witnesses. The proof of settlement with the certificate of the Register of the land office is forwarded to the General Land Office at Washington, from which patent is issued. Final proof can not be made until the expiration of five years from date of entry, and must be made within seven years. The government recognizes no sale of a homestead claim. After the expiration of 14 months from date of entry the law allows the homesteader to secure title to the tract, if so desired, by paying for it in cash and making proof of settlement, residence, and cultivation for that period. The law allows only one homestead privilege to any one person.

SOLDIERS' HOMESTEADS

A soldier, having served in the army or navy during the War of the Rebellion for over ninety days, can obtain 160 acres of any of the public lands by filing (himself or by an attorney) a declaratory statement, and, within six months thereafter, filing his affidavit and application, commencing settlement and cultivation, and continuing the same five years, less the time he served in the army or navy—but, such time in no case to exceed four years. His widow can take advantage of the above. In case of his death in the army, or discharge therefrom on account of wounds or disability incurred in the line of duty, the term of enlistment is deducted. In case of death of the soldier, his widow, if unmarried, or in case of her death or marriage, then his minor orphan children, by a guardian duly appointed and officially accredited at the Department of the Interior, shall be entitled to all the benefits given to soldiers under the homestead laws.

An unmarried woman, of age, can take the benefit of the homestead law. If she marries before she has acquired title, and continues her residence on her claim, she can proceed to prove up at the proper time, the same as if she had remained single, but husband and wife cannot secure separate tracts by maintaining separate residence at the same time. All the sons and daughters of a family, who are of age, are entitled to take up land under the United States land laws.

THE DESERT LAND ACT

In some portions of the Far West there are considerable areas of arid land which with irrigation become very productive. In many of such localities water is abundant and convenient, and irrigating ditches are inexpensive. It pays to irrigate, as it insures a certain crop every year and an increased yield. The following act of Congress designates how one-half section (320 acres) of such can be obtained.

UNDER DESERT MANAGEMENT

Citizens of the United States, or persons who have declared their intention to become such, and who are also resident citizens of the State or territory in which the land sought is situated, may file a declaration, under oath, with the Register and Receiver of the land district in which any desert land is situated, that he intends to re-

claim a tract of desert land, not exceeding 320 acres, by conducting water upon the same, within four years. At the time of filing this declaration, a fee of 25 cents for each acre of land proposed to be so reclaimed must be paid. At the time of making the declaration, the land taken up under this act must be particularly described if surveyed, or, if unsurveyed, must be described as nearly as possible. The party shall also file a map of said land, which shall exhibit a plan showing the mode of contemplated irrigation and which plan shall be sufficient to thoroughly irrigate and reclaim said land, and prepare it to raise ordinary agricultural crops, and also show the source of the water to be used for irrigation land reclamation. At any time within four years, upon making satisfactory proof to the Receiver of the reclamation of said land, and the expenditure thereon for improvements of \$1 an acre each year for three years and proof of the cultivation of one-eighth of the land, and upon the payment of the additional sum of 1 dollar per acre, a patent shall be issued. A claimant must also file with the Register during each of said three years proof by the affidavits of two or more credible witnesses can make the required proof of reclamation, cultivation, and expenditure to the aggregate extent of \$3 per acre. All lands, exclusive of timber and mineral lands, which will not, without irrigation, produce some agricultural crops, are deemed desert lands. Residence on the land is not required.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors have pronounced it a local disease, and prescribed to it remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

A Severe Test.

"You have taken a severe cold," said the old family doctor. "and it seems to have settled in your throat." "Yes, doctor. You see I can hardly speak," said the patient, vivacious, bright-eyed young woman. "Can you stand heroic treatment, do you think?" asked the doctor. "Try me." "Are you sure?" "Yes, anything you like, medicine, mustard plasters, electricity—anything," said she in a breath. "And you want to get back your voice?" "Yes." "It's heroic treatment, mind you." "All right. What is it?" "You mustn't talk for two days."—Tit-Bits.

A Remarkable Record.

Chamberlain's Cough Remedy has a remarkable record. It has been in use for over thirty years, during which time many million bottles have been sold and used. It has long been the standard and main reliance in the treatment of croup in thousands of homes, yet during all this time no case has ever been reported to the manufacturers in which it failed to effect a cure. When given as soon as the child becomes hoarse or even as soon as the croupy cough appears, it will prevent the attack. It is pleasant to take, many children like it. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by Lee Beall, druggist.
