LAKEVIEW, OREGON, NOV. 27, 1902.

A "Don't Give Up Your Seat" Club is the latest organization in Portland, and it gives promise of having a very large membership within the next few days. Its organizers and adherents have experienced considerable trouble, it seems, in retaining their seats on the street cars while returning to their homes in the evenings. They claim that if they are fortunate in securing decent seats a troupe of good-looking women invariably put in an appearance and look longingly in their direction. The gallant act is the only thing remaining to be done, and before they fully realize what has transpired, the weary men are hanging on to the straps while the fair ladies are occupying their seats in sweet contentment. It is said that this sort of thing has gone on long enough, and that an immediate warfare is to be declared against the practice. It is the intention, they say, to proceed in a rational manner, to bring about the reform, and the best way which has suggested itself was to form an organization for mutual protection.

According to a prominent doctor, apples are excellent health preservatives. If places were ready for the children in the morning to eat when appetite demands, they will prove a turning point for many petty ailments. The nervous system, always calling for phosphorus, is quieted by a full fruit diet. Apples relieve the nausea of seasickness and are a help to those who are trying to break themselves of the tobacco habit. A good, ripe, raw apple is completely digested in eighty-five minutes. This easy digestion favors longevity, the phosphorus renews the nervous matter in the brain.

Terry McGovern to a reporter for a New York paper. "You see, it's this way. I was born, understand, in the Eighth Ward in Brooklyn. Everybody knows me, and I stand axes with Boss McLaughlin, Pat Sheehan and Bill Devery. They'll stand for me. I can look after the poor people in my district. The tariff? Fads away. I'm going to look after the boys. I'll spring me canvass soon. It will be Terry McGovern for Alderman, Ninth Assembly District. Platform on the square. That's all."

A convention of medical men, in Iowa have decided that "kissing" is an unsanitary exercise, whatever other consideration the act may possess to commend it to humankind. A group of the photographs of these men would be an interesting collection. Probably the face of any one of them would stop a clock or cause a Halloween jack-o'-lantern take to the woods.

Census experts figure out that it costs fifteen and one-half cents a head to count the people of the United States and classify them as to race and nativity. The cost does not end there, however, as the experts have a good deal of juggling to do with the returns and every juggle costs money.

Every town or city of any consequence in California is at work getting up advertising matter to send East, and in various other ways busy with the movement to settle up their country.

Southern California towns report lack of house room for the rush of winter residents, tourists and settlers.

**The Best Remedy for Croup**  
From the *Albionian*, Ken., Daily Globe.  
This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as live syrup and toul, but some modern mothers say that Chamberlain's Cough Remedy is better, and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale at Beall's Drug Store.

**SWINE BREEDING**

**Hogs For Quick Returns.**  
It has always been my experience that there is a decided advantage with hogs over all other stock kept on the farm—the quick returns if good management is given, writes Mrs. M. A. Sparkman of Chester county, Pa., to American Agriculturist. As with all stock, it is essential that a good breed be had. By having well bred animals a quick growth and early maturity can be obtained. If a sow farrows in early spring, say April, late enough not to endanger losses from cold, in nine months the pigs, with good treatment, can be ready for market. By this time another lot of pigs can be growing. Thus we can sell two lots of pigs in a year from the same sow. This gives a quick return and at this year's prices a good one on the money invested. No other stock will answer as well. The value of the hog to the farmer cannot be questioned.

**A Handy Hoghouse.**  
The following plan was originally given in the Ohio Farmer in answer to a request for a plan of a hoghouse with

two good sized pens, a driveway that may be utilized for another pen in case of need and storage room for corn above the pens.  
Fig. 1 is the floor plan. B is a brick arch with kettle set in for cooking feed and heating water at killing time. A is a cistern, which is supplied with water from the eaves of the building; E, driveway; C C C, pens; T T T, troughs. D D D shows the doors and W W the windows. The two compartments next to the cistern are bins for meal and middlings. The dimensions of the pens varied, according to the number of hogs one may wish to keep.

Fig. 2 shows a section of the middle bents. C C C shows spaces where corn

can be stored. Make the posts out of 2 by 6 joists doubled, putting in two center bents only. Use 2 by 4 nailing strips. Plates are formed of a 2 by 6 and a 2 by 8 joist put together. Rafters, 2 by 4; sill, 8 by 8 timbers.

**Breeding Sows.**  
For next year's litters select sows of good milking qualities. Much depends on the mother, and an abundance of milk is what pigs require. Give the sow no feed for twenty-four hours after farrowing, but after possible trouble from garget has been avoided she should be fed liberally.

**Exposition Motto.**  
Nail over the entrance to the International Live Stock exposition this motto for all who bring animals to read and heed: "The biggest possible piece of meat in the smallest possible package." If that is not your ideal, take some of your best animals to the show and see how the judges will turn you down! You saw enough at the show to keep you thinking for a year. You heard enough, if you had ears, to keep you thinking for another year.—Joseph E. Wing in *Breeder's Gazette*.

**CHAMBERLAIN'S PILE REMEDY**  
Helena, Mont., Oct. 4, 1902.  
Dr. C.A. Ferrin,  
Helena, Mont.  
I wish to thank you for my relief. I was suffering agonies from piles and was taking morphine to relieve me, when, on the advice of a friend, I procured a bottle of your Ferrin Pile specific and took a tablespoonful at night and another in the morning. At half past twelve, noon, my wife gave me another tablespoonful, when my pain all stopped. In two days I was able to attend my regular business entirely relieved. It was simply wonderful.

**AN ALL ABIDING FAITH.**  
The Illinois Central Railroad Company has an all abiding faith in the future of the Great Northwest. A short time ago, this was manifested by the establishment, in Seattle, of an agency to take care of their interests there. The latest effort is to put on a splendidly equipped new train service between St. Paul and Chicago. The new trains will be running Sunday November 2nd. They will use their own rails between Chicago and Albert Lea, Minn., and the Minneapolis & St. Louis Ry. track from Albert Lea to Minneapolis and St. Paul, running into the Union Depot at St. Paul which is the same that is used by all lines in that city.

The train is to be known as "The Chicago, St. Paul and Minneapolis Limited" and will consist of sleeping car, buffet library car and reclining chair car through without change between Chicago and Minneapolis and St. Paul. Dining car service will also be maintained, supper being served out of Chicago and breakfast into Chicago. Trains will leave St. Paul at 7:10 p. m. and arrive in Chicago 9:30 a. m. Leave Chicago at 6:10 p. m. and arrive at St. Paul 8:30 a. m. making close connection at St. Paul with all western lines. Tickets can be purchased via this line, in connection with all western lines, at all stations.
