It will probably be surprising to people in the East to learn that Lake county is so large that it takes four days for mail to go from one town in the county to another. One of the new papers at Silver Lake, which is issued on Thursday, does not reach Lakeview until Monday night, therefore consuming four days in transit. The distance is 100 miles, and New York City is 3000 miles from Portland, still it requires the same amount of time for mail to travel this distance as it does from Portland to New York.
