LAKEVIEW, OREGON, MAY 7, 1903.

If there are any people in Lake county who have a desire to own a timber claim, don't put it off until tomorrow: now is the accepted time, if you would make a selection of value. People from the east are locating as fast as they can, and large syndicates are laying scrip on every acre they can. It is discouraging to residents of the county, some of whom have lived here most of their lives, to discover before they are aware of it, that some fellow who has never been west of the Missouri river, has traveled over 2,000 miles by rail, and staged it for 175 miles over mountains and bad roads to come to Lake County to locate the identical timber claim the old resident has had in mind for many years. This is happening every day. The old settler has either to hunt a claim farther back in the timber or let the chance of securing a claim slip by forever. Some of the old residents don't seem to realize that the timber will soon all be gobbled up. However, they will wake up some fine morning to find the timber all taken, then will the said old resident wake up from a dream, and the vigorous kicking that he will administer to himself will be extremely painful to see. But then it will have to be done.

Moral—don't delay until tomorrow what you can do today, it is dangerous.

It is probable that the vote in the First District for Congressman will be light. The rival of Mr. Hermann in the late convention cannot be expected to "get out and rustle" very energetically, and the district is so overwhelmingly Republican that many Republicans will think there is no danger of his defeat and so will not take the trouble to vote. At least this is the Democratic theory regarding the situation, and it appears rather plausible. On the other hand, however, it is not likely that a very full Democratic vote will be cast either.—Telegram.

A representative Lane county democrat called at our office yesterday, says the Eugene Register, and stated that he would support Hermann for congress. Said he, "Hermann can do more for this district than any other man." Then he said, "I know democrats from one end of this district to the other who will vote for Hermann. Many of them are relatives of mine and I speak authoritatively." This is the condition confronting the democrats in this district.

Queen Alexandra of England is the latest to join in the war against "race suicide." The queen, it seems, has set the pace by riding through the streets of London holding little Prince Henry of Wales in her lap, and now the society leaders are following suit and parading the streets with any old sort of a baby they can get their hands on. The poodle lap dog has been given a black eye.

General Baldwin must have been "loaded" when he said he liked Filipino soldiers better than white soldiers because it didn't matter how many of them were killed. He was alluding to the native scouts in the American army.

If the big guns on our warships are going to prove failures we might put a charge of dynamite in J. Pierpont Morgan and give it a jolt. The explosion would undoubtedly create a panic among the nations of the earth.

The army and navy need instruction in talking. Expressions of opinions by officers in time of peace are sometimes more destructive to the service than the deadly chances of war.

It is barely possible that children may yet become fashionable. At any rate there is a chance that the baby may once more take the place of the poodle dog in the family carriage.

Reason and unreason are the influences that make or mar our fortunes. One upbuilds and the other destroys; one creates our happiness and prosperity and the other brings us misery and misfortunes.

A Baltimore girl's skin is said to be turning to fish scales, according to the Evansville (Ind.) Courier. Of course this is not a fish story, but simply an editorial fabrication.

Wool Sales.

The first of the spring wool was sold in Red Bluff Monday evening, the clip being those of the Cone Ranch Company, which, it is reported, brought 16 1/2 cents per pound, and that of the Cone & Ward Company is reported to have brought 16 cent per pound says the Redding Searchlight.

To Leo L. McCoy belongs the highest price for his wool, says the Red Bluff Sentinel. He was paid 18 5/8 cents for about 30,000 pounds by Jacob Rosenberg & Sons represented here by R. C. Rosenberg, and it is no wonder the latter sells "black leaf". As intimated yesterday nearly all of the wool was sold by night. T. S. Swain received 17 1/2 cents for his clip. Thomas Smith and Gorham King for Cone & Kimball Co. made the heaviest purchases and secured from 1200 to 1500 bags. The only large clip remaining unsold is that of Willard Bros.

Reduced Rates From The East

Commencing February 15th and continuing until April 30th there will be low rates in effect from the East via the Illinois Central R. R., to all Washington, Oregon and Idaho points. If any of your friends or relatives in the East are coming West while these rates are in effect, give us their name and address, and we will make it our business to see that they are given the best possible service. We operate through personally conducted excursion cars, and in fact give you the benefit of the latest conveniences known to modern railroading. We have 15 different routes between the East and the West, and are in position to give you the benefit of the best combinations. Write us and we will give you full particulars. B. H. The most unique newspaper in the way it receives its news, has been launched by the Los Angeles Times. The new paper is published at Santa Catalina Island and is called The Wireless. Dispatches are sent from Los Angeles to White's Point by the regulation telegraph and from there by a new system of wireless telegraphy (not Marconi's) across a neck of the ocean to Alhvon. It is a daily, and the first issue was a 3 column 4 page paper. It is the only newspaper in the world to receive its news by wireless telegraph. The Examiner is in receipt of late copies.

Whose Ad.?

Printers' Ink uses a great many advertising blotters—in fact, uses no other. They come in as fast as wanted, and very nice and handy they are.

Whose advertisements are on these blotters?

Ah, that is a thing the Little Schoolmaster never observed, or, if he did, he never remembered and does not now remember. But he likes the blotters.—Printers' Ink.

This criticism is never applicable to advertising in your local paper.
