Last summer he bought a band of Colorado rangers at a cost of \$27.50 a head, took them home, fed them until fat, partially broke them and put them on sale in a bunch. An Eastern man came along and took the outfit at \$80 each, the cost at that time aggregating about \$50. This left a margin of \$30 a head or around \$750 a car. The horses gained 200 pounds apiece in the feeding process, the heaviest weighing 1400 pounds when sold.
