

### Fish From All Waters of the Earth.

INTERESTING EXHIBITS WILL AROUND IN THE FORESTRY, FISH AND GAME BUILDING AT THE WORLD'S FAIR.

The Forestry, Fish and Game building stands west of the French National reservation, 850 feet west of Skinner road and 100 feet south of Forsythe Avenue. The building is on a terrace five feet high, and is reached by broad stretches of ornate stairs on either side. The structure is 300 feet by 600 feet, and was designed by E. L. Masqueray, Chief of Design of the Exposition. The cornice line is 58 feet high and the apex of the gables is 74 feet from the ground. There are no towering features. The long facades are broken by gables on the corners and in the centers of the long fronts. The gables are flanked by large flag staffs with spreading boughs, which serve to elevate the roof line.

As in the palaces of Agriculture and Horticulture which are not included in the fan-shaped central picture, color will be applied in the decoration of the Forestry, Fish and Game building.

The building is admirably adapted for the purpose for which it is intended. Light is admitted by large windows on all sides, and monitor lights vary the large roof area. Posts and trusses are so arranged that they perform their functions without obstructing the view. The central nave is 85 feet wide, entirely free of posts. Four smaller aisles two on either side, are 50 feet wide.

The fish tanks are constructed on the east side of the building. These vary in length from 6 to 14 feet. Within the building west of the aquariums is a pool 25 feet wide by 50 feet long, crossed by a rustic bridge. Big fish will swim in the crystal water in the pool, and their movements may be observed from the bridge.

West of the pool are four ponds 20 by 50 feet. The banks of these are bordered with masses of rock, stretches of sand and gravel, and aquatic plants giving them the appearance of natural bodies of water. Wire netting will surround and cover two of the ponds, making a suitable home for aquatic birds. The two remaining ponds will be used for a display of fish. Still further west is a circular marine basin 40 feet in diameter. This will be filled with sea water and in it will be shown many of the interesting salt-water fish.

#### Reduced Summer Excursion Rate

The Denver & Rio Grande, popularly known as the "Scenic Line of the World," has announced greatly reduced round-trip rates from Pacific Coast points for the benefit of teachers who will spend their vacation in the East, and of delegates to all the prominent Conventions—N. E. A., at Boston; A. O. U. W., at St. Paul; B. P. O. E., at Baltimore; Woodmen of America, at Indianapolis; Eagles, at New York; Mystic Shrine at Saratoga Springs; K. of P. at Louisville, and T. P. A. at Indianapolis.

Tickets at the reduced rates will be based upon one fare for the round trip, but will be sold only on certain days. These tickets will carry stop-over privileges on the going trip, giving passengers an opportunity to visit Salt Lake City, Glenwood Springs, Colorado Springs and Denver; and will be good to return any time within ninety (90) days. Passengers going via the Denver & Rio Grande are given the privilege of returning via a different route.

For the rate to the point you wish to go, and for dates of sale and other particulars, as well as for illustrated pamphlets, write  
W. C. McBride, General Agent,  
124 Third St., Portland, Ore.

#### Has Another Paper.

Alfred Holman, who for some time has been field editor of the Oregonian, and last fall visited Lakeview, and wrote up the country, has acquired the Sacramento-Record-Union. It is claimed for Mr. Holman that he is one of the brainiest newspaper men of the North Pacific Coast. He formerly owned the San Jose Mercury, and was at one time managing editor of the Seattle Post-Intelligencer.

**Old Fort Klamath.**  
All of the lands of the old Fort Klamath abandoned military post, with the exception of 80 acres, being within the limits of the Klamath Indian reservation, were made a part thereof. These 80 acres bordering Wood river on the west and outside the reservation lines, were appraised at \$10 an acre last week by R. A. Emmitt, N. Langell and E. I. Applegate, appointed by the government some time ago for such purpose, says the Express. The land will likely be offered for sale soon to the highest bidder. The same land was appraised seven or eight years ago when the hard times period was on at \$5 an acre. There will be a buyer this time, and the highest bid will likely be in the neighborhood of \$20 an acre.

**Special Round Trip Rates.**  
Between June 4th and August 26th The Illinois-Central will sell round trip tickets from Oregon and Washington points, to Chicago, Cairo, Memphis, and New Orleans at Greatly Reduced Rates. Tickets good for three months. Going limit ten days. Returning limit ten days after starting west. Stop over privileges either way, west of the Missouri River.

Sale dates are arranged to be convenient to delegates to conventions of National Educational Association at Boston; Eiks at Baltimore; Woodmen at Indianapolis; Eagles at New York; Shriners at Saratoga; Knights of Pythias at Louisville and Commercial Travellers at Indianapolis.

You can take your choice of sixteen different routes. Write us. We will cheerfully give any detailed information you want.

**"I've Lost Ten Pounds"**  
A man says, "Look at this." And he overlaps his coat to show how loose it is. There are some people who can lose fat to advantage, but the loss of flesh is one of the accepted evidences of failing health. As flesh-making processes begin in the stomach, so naturally when there is loss of flesh we look first to the stomach for the cause. And the cause is generally found to be disease of the stomach and digestive and nutritive tracts, resulting in loss of nutrition and consequent physical weakness.

Doctor Pierce's Golden Medical Discovery restores the lost flesh by curing diseases of the stomach and other organs of digestion and nutrition and enabling the perfect digestion and assimilation of food from which flesh and strength are made.

"My wife was for five years troubled with indigestion of stomach and bowels, bloating and severe pain at times during the entire five years," writes Mr. J. Milton Unger, of McConnellsburg, Pa. "Her heart was affected, and she took a purgative every few days but only received temporary relief. She got very poor in flesh and I bought one bottle of Dr. Pierce's Golden Medical Discovery from our druggist and after taking it she said she felt like a new woman. She no more troubles with stomach and bowels, and has no pain nor bloating. Has gained fifteen pounds in weight."  
Dr. Pierce's Pleasant Pellets cure constipation and biliousness.

**Peculiar and Pertinent.**  
A grave digger in Holland claims to have buried 80,000 people.  
In Russia people must marry before 80 or not at all, and may marry only five times.  
Berlin, Germany, local trains now have special compartments for passengers with dogs.  
It is said that where one boy smoked occasionally ten years ago 500 smoke regularly today.  
The natives of India never allow a fakir—of whom there are 3,000,000 who live by begging—to starve.  
Red haired people, it is stated, are less liable to become bald than those with hair of any other color.

The demand of the British government that the two new Cunarders it so heavily subsidizes shall maintain a speed averaging 25 knots an hour for a season, has to this date prevented the letting of the contract. To have two vessels costing about \$10,000,000 thrown back upon them would be a great hardship for any one firm of builders. Twenty-three and a half knots is the record for a single voyage.

It is stated that iron is gradually displacing steel for shipbuilding purposes in England. The prices of iron plates are quoted as \$1.22 per ton higher than steel. Experience has shown that iron is less subject to corrosion from the action of salt water and the atmosphere than steel, and consequently the life of an iron ship is longer than that of a steel ship. Manufacturers are trying to produce lighter iron of greater tensile strength.

**Baker's Dozen.**  
The expression "baker's dozen," which is in point of fact 13, has a history. For a baker in the olden times to give short weight in bread exposed him to considerable penalties, and thus the custom arose of adding an extra loaf to the dozen as compensation for any possible deficiencies in the rest of the batch. The extra article was originally a safeguard to avert the chance of a heavy fine.

**Why Popcorn Pops.**  
The scientific reason for the popping of corn has been investigated by Professor Kraemer of Philadelphia, who finds that the endosperm is more or less translucent and horny, and its cells contain closely arranged polygonal starch grains having a central papilled area. The degree of the expansion of these cells depends upon the relative amount of water and air in the grain.
