

# LOOKING TO OREGON

**Easterners Want the Yellow Pine of Southeastern Oregon--Will Rush Railroad This Way**

A Salem correspondent of the Oregonian under date of Aug. 14th, says: Francis G. Burke, of Minneapolis, Minn., was in Salem today on his return from an extended visit to Klamath and Lake Counties. Mr. Burke is a prominent attorney in Minneapolis, and has been in this state looking after private interests, and incidentally gathering information for parties who may be interested in railroad building in South Eastern Oregon.

Mr. Burke expresses the opinion that it will not be many years before a railroad will be built across Eastern Oregon, and says that the business that now awaits a railroad would make the enterprise profitable from the start. The timber resources alone, lying undeveloped along the Eastern slope of the Cascade Mountains, will furnish a large amount of freight business as soon as a means of transportation will permit lumbermen to build mills.

The Eastern demand for lumber is growing stronger every year, and especially for the yellow pine found in Southern Oregon. Western yellow pine, which closely resembles the pine of the Middle Western States, is fast gaining a place in the markets of the East, much to the concern of lumbermen of Minnesota, Wisconsin and other lumber-producing states in that part of the Union.

But it is not in lumber alone that Mr. Burke sees the future wealth of South Eastern Oregon. He believes that the people of that section have not comprehended the possibility of agriculture in what many call arid land, and that people of other parts of the state have no proper conception of the vast wealth that lies in the soil of Klamath and Lake Counties. Large areas of land that are supposed to be nonproductive without irrigation will produce good crops if cultivated, says Mr. Burke. Still larger areas of land "as fertile as that in the Valley of the Nile, await only the aid of irrigation, when they will produce enormous crops."

"The people of Klamath and Lake Counties have not tried to see what their land will do," continued Mr. Burke. "They have been making plenty of money without cultivating the soil, and have not dug down in the ground to see whether artesian wells can be made to supply water with which to make their land vastly more productive. They have been making money by letting their cattle eat the grass that grows on the ranges, cutting only enough to winter their stock. Having no need to try what cultivation will do, they have not entered upon irrigation and cultivation, except in a few localities."

Speaking again of railroads, Mr. Burke said that a railroad across Eastern Oregon should have been built from Snake River, Southern Oregon, through Klamath and Lake Counties, instead of along the Columbia River. That the road along the Columbia is an ultimate necessity, he conceded, but said that if the Union Pacific had been building the road, it would have reached Southern Oregon first. He thinks the National outlet for the traffic of that section of the state is a direct line eastward, and that such a road will be built.

Has Sold a Pile of Chamberlain's Cough Remedy.  
I have sold Chamberlain's Cough Remedy for more than twenty years and it has given entire satisfaction. I have sold a pile of it and can recommend it highly.—JAMES McELHUSKY, Linton, Iowa. You will find this remedy a good friend when troubled with a cough or cold. It always affords quick relief and is pleasant to take. For sale by Lee Beall.

A rich manufacturer of hamburger cheese who recently died in New York left an only daughter eight million dollars. This young lady has a license to turn up her nose, whether she marries a title or not.

**To Cure a Cold in One Day.**

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25 c. 50 ly

The latest fad in the way of a cure for dyspepsia is bread made of sea water instead of fresh water. A Philadelphia baker makes a specialty of this bread, and the dyspeptics who use it declare that it aids them. The baker gets his sea water from Atlantic City.

**Bucklen's Arnica Salve.**

Has world-wide fame for marvellous cures. It surpasses any other salve, lotion, ointment or balm for cuts, Corns, Burns, Boils, Sores, Felons, Ulcers, Tetter Salt Rheum, Fever Sores, Chapped Hands, Skin Eruptions; inallible for Piles. Cure guaranteed. Only 25c at Lee Beall's Druggist.

The Ontario court of appeals has confirmed the decision of the lower court than an Eddyite father who failed to provide medicine and medical treatment for his six year old son, who died of diphtheria, is guilty of manslaughter. This was under a law which requires that the father must furnish the "necessaries of life."

**What is Life?**

In the last analysis nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in Constipation, Headache or Liver trouble. Dr. King's New Life Pills quickly readjusts this. It's gentle, yet thorough. Only 25c at Lee Beall's Drug Store.

Macaroni wheat seed was first imported in 1901. The following facts are attested by South Dakota farmers: Its yield is 60 to 120 per cent greater than that of blue stem and Fife wheat; in quality it is better than the Italian; and the demand for it is greater than the supply; its bread is more nutritious, and, to many, more palatable, than ordinary bread.

**Fearful Odds Against Him.**

Bedridden, alone and destitute. Such in brief, was the condition of an old soldier by name of J. J. Havens, Versailles, Ohio. For years he was troubled with Kidney disease and neither doctors nor medicines gave him relief. At length he tried Electric Bitters. It put him on his feet in short order and now he testifies. "I'm on the road to complete recovery." Best on earth for Liver and Kidney troubles and all forms of Stomach and Bowel Complaints. Only 50c. Guaranteed by Lee Beall, Druggist.

That diphtheria may live in packed clothing almost indefinitely is shown by an incident which occurred in an Ohio village. A child died of diphtheria and its mother packed its dresses and toys in a chest. The mother died fifteen years afterwards and her daughter and grand-daughter, who opened and handled the contents of the chest, were duly taken ill of diphtheria, although there had recently been no case in the village.

**Emergency Medicines.**

It is a great convenience to have at hand reliable remedies for use in cases of accident and for slight injuries and ailments. A good liniment and one that is fast becoming a favorite if not a household necessity is Chamberlain's Pain Balm. By applying it promptly to a cut, bruise or burn it allays the pain and causes the injury to heal in about one-third the time usually required, and as it is an antiseptic it prevents any danger of blood poisoning. When Pain Balm is kept at hand a sprain may be treated before inflammation sets in, which insures a quick recovery. For sale by Lee Beall.

Bears the Signature of *Wm. D. Little*

**Canal Treaty Rejected.**  
Official information was received in Washington, Monday, that the Columbian Senate had unanimously rejected the Hay-Herrin canal treaty. This means more delay in providing the waterway the Pacific Coast so earnestly desires. It is a blow, and a hard one, too, to the Columbians who have invested in real estate on the supposition that the treaty would be ratified. The non-success of the treaty would seem to vindicate the advocates of the Nicaragua scheme. The Panama Canal proposition has served its purpose in postponing for three or four years any actual work upon a canal. The negotiations that have been pending so long between the United States and Columbia, must now be transferred to Nicaragua and Costa Rica.

**Bucks For Sale.**

I have 30 head of 2 to 4 year old bucks for sale. Price \$5 if sold soon. S. T. COLVIN.

There is a larger percentage of blind people in Russia than in any other European country. Two out of every one thousand of the population are sightless.

**THE BUGLER'S CHEST**

Is well expanded. He uses his lungs to their fullest capacity. People in ordinary do not use much over half their lung power. The unused lung surface becomes inert, and offers a prepared ground for the attack of the germs of consumption. There is no need to warn people of the danger of consumption, but warning is constantly needed not to neglect the first symptoms of diseased lungs. Dr. Pierce's Golden Medical Discovery cures obstinate coughs, bronchitis, bleeding lungs, and other conditions which, if neglected or unskillfully treated, find a fatal termination in consumption. It is entirely free from opiates and narcotics.

"About three years ago I was taken with a bad cough, vomiting and spitting blood," writes Mr. D. J. Robinson, of Spring Garden, W. Va. "I tried many remedies; nothing seemed to help me till I commenced using Dr. Pierce's Golden Medical Discovery. After using ten bottles and four vials of his 'Pleasant Pellets,' I commenced to improve. My case seemed to be almost hopeless one. Doctors pronounced it ulcer of the lungs. I was sick nearly two years—part of the time bedridden. Was given up to die by all I thought it would be impossible for me to live over night at one time. I haven't spit any blood now for more than twelve months, and worked on the farm all last summer. It was Dr. Pierce's medicines that cured me."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach. The "Medical Adviser," in paper covers, is sent free on receipt of 21 one-cent stamps to pay for mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.
