Wonder how many have broken their New Year resolution already.

Clyde Pleasants was up from Willow Ranch Monday with a load of apples.

T. S. Handlay is running the city electric light plant while P. A. Stanley is away.

Virgil Conn, the Paisley merchant was transacting business in Lakeview first of the week.

Wm. Dalgleish and W. B. Routson, of Adel were transacting business in Lakeview first of the week.

Born—At the S. J. Prose place north of Lakeview, to the wife of B. F. Branch on New Year day, a boy.

Jack Robinson is busy at the Court house copying the records preparatory to making a set of abstract books.

Start off the New Year right and list your property for sale with the Lake County Examiner real estate agency.

W. H. Gilham of Adel was doing business with a goat in one of the Lakeview secret societies one day last week.

Monday night was the coldest of this winter. The government thermometer at this office registered 3 above zero.

F. O. Bunting started for Portland first of the week, to attend the meeting of the National Livestock Association.

Throw away your old heaters and go to Bernards' and get a new one—it will save you enough wood to pay for itself. 1-4t

J. W. Westlake fell and broke the two bones in his right wrist on New Years Eve, while walking on the frosty side walk.

The stores observed the Sunday closing order last Sunday, which they agreed to do until the spring trade commences.

Atty. Jas. A. Boggs boarded the Southern Stage Wednesday morning for San Francisco, where he goes on some land business.

The W. O. W., and Circle treated themselves to a party one night last week. Stocks and other games were played until a late hour, after which a lunch was served in the banquet room.

Wm. Holder, editor of the Paisley Post, and S. M. Bailey, editor of the Silver Lake Oregonian were visitors in Lakeview Tuesday.

L. A. Carricker one day last week, near his place on the west side of the lake, succeeded in killing five wild cats with the aid of his dogs.

George C. Turner was summoned home from Reno last week by the serious illness of his aged mother. We understand that her condition is still critical, says the Cedarville Record.

People are coming in from all parts of the country to prove up on their timber land. They are meeting with good but cool weather. The best that possibly could be expected this time of year.

Quoting from The Examiner the Portland Telegram says: "New Pine Creek is said to be the smallest town in Oregon or California that is lighted with electricity. How about Salem?"

The following people were yesterday proving up on their timber land: J. O. Storey, Tacoma, J. W. Sloot and Chas. Malley, Portland, A. D. Campbell, Tenino, Wash., and M. Fay Mills, Bly.

Medford Mail: Arthur Smith, of Lake county, Oregon, is in the valley upon a visit to his parents, Mr. and Mrs. W. M. Smith. The gentleman expects to leave soon for British Columbia where he will locate.

J. C. Dodson came over from Adel and spent Sunday and Monday in Lakeview. While here he completed the purchase of the Boyd ranch in South Warner from Mrs. Edwards Gray. Consideration \$3,000.

A new set of registration books have been opened by County Clerk Manning and forwarded to every precinct in the county. Every voter must register if he expects to vote at the coming elections in June and November.

While sawing wood last Saturday Charley Wendell sawed the end of his thumb off, just leaving the end hanging by a strip of skin. Dr. Steiner sewed it back on, and the injured member is rapidly growing back, much to the gratification of Charley.

Horace F. Jones, special inspector for the Interior Department arrived from Lakeview Tuesday, and has been kept busy examining the timber claimants who make proof here. He will leave Monday for Prineville, where he will make his headquarters. —Silver Lake Oregonian.

Cedarville Record: We understand that Messrs. J. M. Thompson of Alturas and W. Sherlock of Lakeview, with others, have engaged in the slaughtering business at Reno, and will slaughter stock for the market. They are now handling a large band of lambs belonging to George Turner, of this place.

A couple of dogs and as many boys jumped up a jack rabbit in the court yard Saturday, and the way the snow flew for a few seconds was quite amusing to several spectators. The rabbit made a B line for a small opening under the fence, which the dogs thought plenty big enough for them until their heads came in contact with a board. The rabbit didn't stop to laugh at the dogs, but it was plain to see that he was amused.

## ANOTHER USE FOR SAGE

Sage Brush is Found to Contain Tannic Acid Which Will Tan Hides Like Tan Bark.

Nothing is lost in the economy of nature, but some things get misplaced occasionally and one of these is our artemesia, says the Reno Gazette. Nevada's state shrub, the hardy sagebrush, has never been adjudged of worth otherwise than an adornment of the landscape and browse of a mediocre sort.

But the day is dawning for this omnipresent plant. It promises in time to be so eagerly sought for that nothing but the limitless quantity and rapidity of production will prevent its utter extermination.

This plant draws from Nevada's arid but rich soil tannic acid in abundance. The proportion of this chemical is as great in the sagebrush as it is in the much sought for oak bark of California, which is gathered in such quantity that forestware demolished, for the bark cannot be obtained without destroying the tree.

Judge Wren was among the first and possibly was the first to arrive at the knowledge of this property possessed by our artemesia, but his experiments have never gone far enough to demonstrate the practical worth of the plant as a source of the acid.

A correspondent of Secretary Ingalls, whose letter follows, has made a number of experiments and is convinced that the extraction of tannic acid from the sage will become an industry in this vicinity.

After extract plants have been erected, tanneries will follow and leather shoe factories, for Nevada, being a stock growing country, has all the raw material at hand and here in Reno is the cheapest and best power to be obtained, another and most important factor in the building of a great industry here.

If the people of Reno, through their chamber of commerce were to look thoroughly into this matter, it might result in inestimable benefit to the city and state.

Following is the letter above referred to:

"I have tried one experiment with sage brush and find that it is a strong tanner. Enclosed find sample which was tanned in thirty-six days, but owing to the difference in strength of liquor and the way I had to work it out, it is a poor sample.

"I have two different ways in working the next lot, which I am sure will be a good test. I will send a sample in a few days.

"I received a letter from parties in the east a few days ago saying that leather was down and that they would not build at present, so I am in the dark as to what they will do.

"I am sure an extract tannery will pay and will do all in my power to work sagebrush into tanning material. My next sample will be larger.

"F. S. AUSTIN, Beneola, Cal.  
"December 13."

Alex Davis, foreman for J. W. Howard, started Monday with a band of 680 head of beef cattle for Gazelle, from which place they will be shipped to San Francisco. Mr. Howard has already delivered about 1600 head and now has over 800 left. These will be taken out later in the season.—Klamath Republican.

Miss Onnie Keating was the maiden name of the young lady who is now Mrs. T. R. Curry, of Martinez, says the Point Richmond Record. Mr. Curry is a young business man of Martinez and a brother of our S. R. Curry. Miss Keating is a sister of Mrs. J. E. McGarvey, and resided for a time in Lakeview. The Examiner wishes the couple a joyful married life.
