The Sliver Lake Oragonian says that the Chewaucan Land and Cattle Company of Paisley have leased from the Klamath Indians, all of the summer pasture in the Sican valley and the larger part of the summer range at the head of Buck and Bridge Creeks.

H. S. Adelstein has sufficiently recovered from his serious attack of erysipelas to be out on the street. He expects to return to his home in San Francisco accompanied by his wife Friday, Andy Hammersly, who had charge of the Ayres & Whitworth stock during Mr. Adelsteins' illness, will be retained in charge the remainder of the winter,

M. A. Phelps, the piano tuner and instructor in vocal and instrumental music, recently from Ashland, arrived in the city last evening and will remain here this winter says the Express. He is organizing a class in music and already has a number of apt pupils enrolled. Mr. Phelps is accompanied by a friend, Jack Mortimer, of Pennsylvania, who will visit here a few weeks.

' Fred Broadwell, the artistic painter and decorator, finished for Whorton & Smith, a club room in calsomine and fresco work. Beautiful borders in colors add much to the smoothe green walls and white celling. Whorton & Smith have also added some handsome colored electric light globes and fancy brass electric wall brackets which makes their resort a pleasant place to visit.

The State of Oregon has for sale some 25,000 acres of school land, mostly in Eastern Oregon. land consists of the 16th and 36th sections in each township, where not already sold. With the exception of land which shall bereafter be surveyed, all this school land is offered at the uniform price of \$2.50 per acre. Land hereafter surveyed will be sold to the highest bidder, but no bid of less than \$2.50 per acre will be accepted.

F. H. Mills, deputy district attorney, spent three days at Yainax Agency last week taking evidence against suspects to the crime of setlives of two Indian boys lost in the flames says the Express. No evidence was secured pointing to anyone committing such a crime. It is beyond a doubt a fact that the boys met death at their own bands in an attempt to burn themselves out.

Dave Cleland and Daniel Boone, residents of Plush, have been spending several days in Lakeview. They claim that drunkenness and carousing has become unbearable in their town, and that something must be done to stop it. Their families are constantly subject to insult, and posable injury at the hands of drunken ruffians. A warrant was sworn out In Justice Bayley's court Monday, and Tuesday sheriff Dunlap went to already out on ball awaiting the heretofore tried and now pending. action of the circuit court for the same ffense.

Dr. R. E. L. Steiner and W. A. Massingill visited Adel last week, and from there went to Ft. Bidwell to investigate the copper mine dispretty good to them and as a result located several claims. The specimens of ore from there are almost identical to that of Butte, Montana, in the famous mine owned by Senator Clark. The only question now, is the extent of this rich discovery. Should it prove extensive no time will be lost in bringing capital to take hold of it. A tunnel has already been run in 25 feet and the copper is much richer than the rock that was assayed.

A prize is offered for four or five years in succession by Miss Loftus, to be given for some work that is tobe named in the future.

The Bi-monthly test will be given the 15th of this month throughout the school. Every pupil take warming and try and do better this time.

It is hoped that the pupils in Miss Sands' room gave a good program Friday afternoon, although no newsreporters were present from the Angelsophian society.

Some of the boys and girls in the Prof's room, that have been communicating in the hall, have been misrepresented by some of the older people of Lakeview.

The Primary room in charge of Miss Hall has now 63 pupils. It will be impossible to receive any more pupils in the beginning class, so that all parents that have not already entered their children, that are of school age, will have to keep them out until next year. At the beginning of the school year the principal asked all parents to start their children that would be old enough to attend school during the year, at the beginning of the term, but quite as number failed to do so and started them in the middle of the term: Several have been received so far but from this date others will be returned, as it will not be possible to make a new class for each new pupil entered, and it is of little advantage to start a pupil when school is half completed. Pupils will be received in all other grades but the first.
