

Scalp Bounty Law.

William Parker, deputy stock inspector for Baker county, in speaking of the stock business in his county said: "The repeal of the scalp bounty law has worked a great hardship upon the stockraisers of this part of Oregon. The coyotes have already increased perceptibly and are becoming very bold. I noticed the other day 37 of them in one field, and they have killed 19 pigs and innumerable chickens that I know of upon one ranch alone. If something is not done these pests will soon overrun the whole country. In the opinion of myself and other stockmen the repeal of the bounty act was a mistake."

"I start out in a few days to make a detailed inspection of the flocks and herds in Baker county. I expect to find the most of them in healthy condition all through the county. The mild weather up to the present time has lengthened out the fall pasturage and I believe there is now a plentiful supply of hay to carry all stock through the winter in good shape."

Congratulations.

Mr. John H. Cullom, Editor of the Garland, Texas, News, has written a letter of congratulations to the manufacturers of Chamberlain's Cough Remedy as follows: "Sixteen years ago when our first child was a baby he was subject to croupy spells and we would be very uneasy about him. We began using Chamberlain's Cough Remedy in 1887, and finding it such a reliable remedy for colds and croup, we have never been without it in the house since that time. We have five children and have given it to all of them with good results. One good feature of this remedy is that it is not disagreeable to take and our babies really like it. Another is that it is not dangerous, and there is no risk from giving an overdose. I congratulate you upon the success of your remedy. For sale by Lee Beall."

A Houston, Tex., judge last week sentenced a colored man to the penitentiary for one thousand years. The prisoner will find many things changed when his term of servitude expires. The judge, jury, prosecuting attorney and witnesses will probably all be dead, and it is quite likely that his offense may be forgotten by the time he is discharged. If he has no opposition, and keeps a good prison record, it is said that a parole may be granted him at the expiration of four or five hundred years—which is something he can always look forward to. Considering the nature of the man's crime, it was humane and merciful on the judge's part not to give him a life sentence.

How's This?

We offer One Hundred Dollars Reward for any case of Cararrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & Co., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him. WEST & TRIFAX, Wholesale Druggists, Toledo, O. WARDING, KINMAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists. Hall's Family Pills are the best.

Oliver Jenkins, a resident of Cleveland, thinks he has solved the crowded car problem and asked the local street railway to make a thorough test of his improved vehicle. Jenkins has worked on the theory that one person sitting occupies as much floor space as three persons standing. The main feature of his invention is the side walls rising perpendicularly from the floor instead of out under the seats. Jenkins claims this will make room for 300 persons in his car. He would add four rows of straps for passengers.

Wonderful Nerve.

Is displayed by many a man enduring pains of accidental Cuts, Wounds, Bruises, Burns, Scalds, Sore feet or stiff joints. But there's no need for it. Bucklen's Arnica Salve will kill the pain and cure the trouble. It's the best Salve on earth for Piles, too. 25c. at Lee Beall's, Druggists.

Mrs. Elizabeth McIntire of White Rock, Pa., over 80 years old, has just completed a quilt containing 1775 pieces. Every stitch in the quilt was made by herself. Among the patches which were put into the coverlet were pieces of the wedding gowns of Mrs. McIntire's great-grandmother, grandmother and mother, besides her own. The oldest bit of silk used is said to have been in the McIntire family for 114 years.

"The Transplanting of a Lily" is a charming story in the January issue of Farm Life. "Some Mississippi Frogs" is a quaint story of Southern life on the farm in the New Year's number that will interest both the old and young. The Examiner has made arrangements whereby both Farm Life and The Examiner can be secured one year for \$2, our regular yearly subscription price. Send in your subscription to-day.

John Fox, Jr., the author, tells this story on himself. He went to a creek near a house in the mountains of Kentucky, and washed his face. He dried it on a coffee sack, and combed his hair with his own comb, as he stood before a piece of broken mirror. The mountaineer's boy watched the stranger make his toilet at the conclusion of which he said: "Say, mister, you're a good deal of trouble to yourself, ain't ye?"

A deal of confusion exists as to the proper way to pronounce the name Goelet. Even in New York one may hear "Go-let," "Goo-lay," "Go-lay," "Jo-lay" and other attempts. By affecting a combination of the two words "go" and "let," with the accent on the latter, the proper pronunciation may be attained. The founder of the American family was Huguenot refugee, who came to the new world in 1640. He spelled his name "Goelette."

"How Grandma Saw Lincoln," a most interesting story, never before published, based on a real incident in the life of the immortal Lincoln, will appear in the February number of Farm Life. This delightful narrative will charm every reader and the only way to enjoy it is to subscribe for Farm Life early so that you can secure the February number. This is only one of the many good features of this splendid magazine for farm folks. We are certain that every reader of The Examiner will be greatly pleased to read Farm Life for a year and those who have not already subscribed may yet secure this magazine and The Examiner for only \$2. Subscribe to-day.

The Deadly Trail

Of disease is often the trail marked by a woman's gown. A recent investigation showed a horde of microbes, including those of influenza, consumption and a dozen other varieties, gathered in the trail of a woman's dress.

The microbe is everywhere, but its prey are the weak and feeble people whose blood is "poor" and digestion "weak." Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition and purifies the blood.

It strengthens the body by increased nutrition to resist or throw off disease.

Please accept my thanks for the good Dr. Pierce's Golden Medical Discovery has done for me. writes Mrs. N. Chesley of Cleveland, Cuyahoga Co., Ohio. "I was troubled for over a year with what the doctor pronounced indigestion. I had nervous headaches, an unpleasant taste in my mouth in the morning, and my blood was very poor. I tried different medicines but to no avail. My parents insisted on my taking Dr. Pierce's Golden Medical Discovery. I did so, and now on the fourth bottle, and feel stronger than I have for ten years. I cannot speak too highly in its favor."

Dr. Pierce's Pleasant Pellets are easy and pleasant to take. A most effective laxative. They do not get the pill habit.

FACTS IN FEW LINES

The shooting of firecrackers is not American; it is Chinese. One factory has marketed 60,000 electrical firecrackers this season. There are 22,400 more females than males in Cornwall, England. The Johannesburg Public library is now open on Sunday afternoons. The Cathedral of Notre Dame in Paris is now lighted by electricity. Three times as much freight passed the "Soo" last year as passed through the Suez canal. It is estimated that the population of British Somaliland is about 250,000. Its area is about 68,000 square miles. Atlantic City possesses a police motor car which is used solely for the conveyance of intoxicated prisoners. During the last three years twenty-two millionaires have died in England. Their average age was seventy-five years. Within five years wages for all classes of mechanical occupations have increased from 20 to 25 per cent in Hamilton, Canada. Two Russian papers asked their readers to name the ten greatest men, and in both cases Tolstoi came out at the top of the poll. The largest tree in the world lies broken and petrified at the end of a defile in northwestern Nevada. It is said to be 600 feet long. It is stated that on Jan. 1, 1903, there were 1,124 bituminous coal mines in operation in Pennsylvania as compared with 948 on Dec. 31, 1900. There are more than 17,000 machine tending operatives in Lowell, Mass., caring for \$38,000 spindles and earning over \$500,000 a month in wages. Wages of the working people of the United Kingdom, according to official statistics, showed a decrease of \$7,920,000 last year compared with the preceding year. It is claimed by Boston that it makes the finest quality of Egyptian cigarettes, produces the choicest Italian macaroni and has altogether the best brand of the fishman in politics. The English post office gives 20 per cent better speed in delivering parcels than the private carriers and at a cost of 6 cents for a pound, 8 cents for two pounds and 24 cents for eleven pounds. French drivers and firemen and even French fuel will be imported for the trial in England of the De Glehn giant locomotive engine which is being built in France for the Great Western railway. Two submarines made a sham attack on the French squadron at La Rochelle recently in the evening, and so smartly were they handled that it is said in actual warfare the whole division would have been annihilated. Becquerel has shown that radium emits cathode rays moving at a velocity of over 120,000 miles a second. A particle traveling with this velocity and starting from the earth would reach the moon in two seconds. A man in Cincinnati applied to the courts for an injunction to restrain the tongues of the gossips of the neighborhood. He learned from judicial sources that there are some things beyond the control of the highest human power. Russell square, London, beloved of readers of "Vanity Fair," seems to be fast disappearing. Half of the east side has been torn down to make room for a mammoth hotel, and now the west side is beginning to yield to blocks of flats. High license went into effect in New York city May 1, and as a result 718 hotel and saloon keepers went out of business. Under the new law licenses were advanced from \$900 to \$900 in Brooklyn and from \$800 to \$1,200 in Manhattan and the Bronx. Since the introduction of the Bertillon system in France 20,000 persons who have committed crimes and who were concealing their identity have by means of the system been identified and brought to justice, and among all these not one mistake is known to have been made. The restriction of emigration from the continent to London is now agitated as an urgent public question. The census of the metropolis shows 38,147 Russians, 27,427 Germans, 13,429 Poles, 11,264 French and 10,889 Italians. New York city can digest that number of foreigners every year. The number of theological students in Germany has diminished gradually from 4,267 in 1839 to 2,149, or less than half, although the population has doubled since 1839. The insufficiency in the number of candidates for the ministry is discussed as a matter of exceeding gravity by German theologians. The town of White Pigeon, Mich., claims to be run as cheaply as any town in this country. Last year it cost the 800 inhabitants \$1,325 for expenses. The health department spent \$2.25 in addition to the health officer's salary of \$20. The police department appropriation was 50 cents, the fire department \$60. It will be a surprise to many to know that the authoress of that well known hymn, "Safe In the Arms of Jesus," is still alive. Mrs. Van Alstyne, the lady in question, has just entered upon her eighty-fifth year. In her day she is said to have produced no fewer than 2,000 hymns, many of which have secured worldwide recognition.
