### AN AUTOMOBILE FOR LAKEVIEW.

The Burns Times-Herald says that the local business men of that city have organized a local stock company with a capital of \$4,000 for the purpose of buying and equipping an automobile to be put on the road between Burns and Prineville. The shares are placed at \$10 each and nearly every citizen has taken stock. The plan is devised to encourage the proposed line of automobiles to be put on by the Columbia Southern railway.

Should this line prove successful, a line from Prineville or Bend to Lakeview would no doubt be profitable, as the roads are excellent all the year around. Also a line from Lakeview to Klamath Falls and another one to Madeline would without doubt be good paying enterprises and be the means of bringing our mails from 24 to 48 hours earlier.

A. H. Hammersly of Lakeview, is already negotiating for an automobile for a pleasure and business vehicle. It is one of the buckboard types with high wheels calculated for mountain roads. The machine is not an expensive one, \$450 being the price. It has only 4-horse power, but is guaranteed to a speed of 30 miles an hour over ordinary roads, and is equipped with an extra gear for climbing steep grades. Andy says it will be here as soon as spring opens.
