LAKEVIEW, OREGON, MARCH 10, 1904.

**VALEDICTORY.**

It is with a feeling of deep regret that we announce that The Examiner today is issued for the last time under the present management. With this issue the undersigned steps down from the tripod after a continuous association with The Examiner for the past 18 years, having started in as devil, and becoming editor and proprietor 11 years ago.

During that time we have made many warm friends, as is evidenced by the prosperous and healthy appearance of the paper, of which we are justly proud. We have also made a number of warm enemies, and of this too, we are proud, for without enemies, our friends would be lake-warm.

Our successor, C. O. Metzker, late editor of the Chewaucan Post, has built up a reputation as a newspaper man and we bespeak for him unbounded success.

Our reason for stepping out of the newspaper business is best known to ourselves. It is not because we do not like the business nor that it is not a good investment but far from it. The continual strain for so long a time and close association with printer's ink has had its effect, and health, of course, is more desirable than any thing,—hence our reason.

We thank our many kind friends for their constant and liberal patronage during our long association with The Examiner. No plans for the future have been made and if fate would be kind with us, we could wish for nothing better than to cast our lot among our many friends of Lakeview and Lake County.

Farewell,

A. Y. BEACH.

**Another New Telephone Line.**

Captain Oliver C. Applegate informs the Klamath Falls Express that the Department of the Interior has granted right of way to L. Hessig for a telephone line across the reservation. The telephone poles have been set from Fort Klamath to the Agency, but further work was postponed until the right of way was secured. Work will be resumed on the line as soon as the weather will permit, and the Agency and Fort people may expect communication with the outside world by the first of June. The line will eventually be extended to Crater Lake National Park and a branch from the Agency to Silver Lake, making connection with the lines to Prineville and elsewhere northward, and southward to Lakeview.

**NEWS NOTES FROM PAISLEY.**

PAISLEY, March 8.—We are almost afloat here. The residences of S. S. Banister, E. C. Stiekel and W. Y. Miller have been surrounded with water and several others are threatened, unless the jam of drift logs can be removed from the head-gates above town. About forty feet of the bridge across the Chewaucan river here in town went out last night. At one time during the flood Geo. Conn's store was in danger, but fortunately for the building the log jam turned part of the water from the channel. Numerous small bridges near here are said to be out, and deep cuts across the road make travel almost impossible.

Anxiety is yet at the highest pitch concerning the strange disappearance of J. C. Conn of Silver Lake. George Conn has gone to Silver Lake to assist in the investigation. The deepest mystery surrounds the case.

A horse was stolen from the Chas. Innes ranch in Summer Lake, and from all appearances the party came from the north, and after taking the horse—which was a fine saddle animal—proceeded on south until near Paisley when he took an easterly course and was tracked toward Alkali.

It has been suggested here that the party who took the horse is in some way connected with the disappearance of Mr. Conn, but at this time sufficient evidence to connect the two incidents is unattainable.

Mrs. Jack Partin of Summer Lake has been in town several days, having come down for medical treatment.

Z. G. Harris and wife and Mrs. C. W. Withers of Summer Lake were in town a few days ago. They were initiated into the W. O. W. Lodge.

Mrs. Jim Harper is yet very sick.

The stages arrive here a little late, but the drivers should be complimented for getting the mails here at all.

**STATE LAND WILL BE ASSESSED.**

Clerk G. G. Brown, of the State Land Board, at Salem, is receiving numerous requests from County Assessors for lists of lands that have been deeded by the state in the respective counties during the past year. The 1904 assessment is made as of March 1, and all property in private ownership at that time is assessable. Many persons who purchase land from the state do not record their deeds and thereby conceal the fact that they own the land.

Whenever requested to do so the Clerk of the Land Board sends a list of lands deeded and by this means Assessors are enabled to place upon the tax rolls a great many tracts of land that would otherwise be omitted. A charge of 19 cents for each tract of land is made by the clerk, for preparing the list. One county secured a list of 36 tracts of land deeded in the past year. The cost was \$3.60, but the county will realize a great many times that amount in taxes.

Last Fall the State Land Board made an order requiring that in all cases where only a small balance of the purchase price remained unpaid and is due, or where all has been paid but no deed taken, the purchasers must complete their payments and take deeds. Under this order the number of deeds issued in the past year was unusually large and a number of tracts of land that have for all practical purposes been in private ownership for several years, but have escaped taxation because the legal title remained in the state, are now subject to taxation.

Some of the Assessors, even in counties where the state is selling considerable land, do not ask for the lists of deeds, but each year more of these lists are asked for and sent out.
