

### A General Complaint.

A farmer from down the valley came rushing into town the other day and without waiting to hitch his horse, hastened into a doctor's sanctum and nervously explained that he was seriously afflicted with a disease the nature of which he could not account for. The doctor felt of the poor man's pulse, looked at his tongue and took his temperature, all of which showed the man to be in normal health. He asked the man's symptoms and was astonished when he was told that he suffered no pain but that a peculiar breaking out on the back gave him much annoyance, and further that he believed that the disease was contagious, as several more were known to be afflicted the same way. The man was then asked to remove his clothing, which he did, and after a brief examination the doctor explained that there was nothing serious the matter, and that it was a general complaint about the town also; that it was simply the moss sprouting, caused by the continued wet weather.

The Lake County Examiner has changed hands, A. Y. Beach disposing of it to C. O. Metzger. Mr. Beach has been at the helm of the Examiner for a number of years and we regret to see him drop out of the newspaper field, and wish him success in whatever he may cast his lot. Mr. Metzger is a young man of exceptional abilities, a good writer and we believe a good, clean all around newspaper man. His efficiency as a printer was demonstrated when he ran the Paisley Post in which every advertisement was a neat piece of job work. We extend the hand of fellowship and wish him success.—Cedarville Record.

A. F. Tonningson arrived here from the desert in the vicinity of Catlow valley where he has been since December. Mr. Tonningson says his sheep are in good condition and the prospects for a favorable year for the sheep are good. Grass is starting on the desert and a few warm days would make the range good. Asmus is not one of the Lake county sheep men that was caught in Harney county with his sheep and had them assessed there. His sheep have been in Lake county for two months, only having been across the line a short time in the early winter. He says all the sheep he has seen on the desert look well.

E. M. Brattain met with a painful accident one night last week that almost laid him up. He was climbing over the manger in his barn, and it being dark fell on a pitchfork, running one of the tines in his leg above the knee, severing one of the arteries. Eldon says if anybody tries to pull his leg they will hear something drop.

F. O. Bunting came in from his Drews valley stock farm Saturday. Frank reports lots of snow and water in Drews valley, the snow being nearly a foot deep. Frank says they are preparing to milk their cows on horseback when the snow goes off as the water will be too deep to wade.

A stock company has been organized in Silver Lake, says the Silver Lake Organian, for the purpose of constructing a town hall 31x71 feet to cost \$1200. There are 120 shares at \$10 a share. As soon as half of the money has been subscribed work will commence. Already \$500 has been raised.

A teacher has been employed to teach the school in the Johnson district in Chewaucan valley, south of Paisley, but the roads are in such a bad condition that the teacher being a lady, could not be on hand to begin the school last Monday as was intended.
