### Use Printer's Ink.

It is about time for candidates to get their names in print. Use printer's ink if you expect good results from the convention's choice. If a man depends on his own tongue to relate his good qualities, voters will think he is immodest; if he depends upon his friends to tell the voters of his merits, his friends may be busy with their own affairs and have little time to devote to other people, and you may not be satisfied with the result; if he depends upon his home paper to put forward his interests he is sure that the words have been said, and to all the voters, for he has it in black and white. But don't expect too much voluntary assistance from the newspaper, whose space is the proprietor's only source of revenue, and from which he must delve a few dollars with which to pay his printers. Printers, type foundry, paper houses and ink dealers are queer fellows; they will furnish you ink, paper, type and do your work, but not because they love the publisher.

An attorney of Chicago named Wilson has brought suit to prevent the construction of the Panama canal. He declares that in asking for an injunction he is representing no one but himself. This is a remarkable case where one man can be so seriously injured as to undertake to block the work of a nation, even after nearly a hundred years of negotiations. What will puzzle the people of the United States is, if Mr. Wilson's actions are purely personal who he had to represent him nearly a hundred years ago. It is too bad, indeed, that the eighty million people of the United States should be so stubborn as to oppose Mr. Wilson's interests in a matter like building the Panama canal. Poor man, he ought to go some place where the people would not bother him.

The trial and conviction of Senator Burton of Kansas for accepting bribes and using the influence of his office for the benefit of swindlers and to the detriment of the government marks the beginning of the downfall of treacherous high officials who may be seeking to use the honor attached to a United States Senator for a breastwork to protect them from the law.

The coal barons of the east have become very munificent, having been touched by the wretchedness of the poor consumers, and on the first of April lowered the price of coal within the reach of all. The wailings of cold, hungry women and children through the winter months have just reached the ears of the coal dealers. The price will be raised again on September 1st.

Wall Street rich men are up against Andrew Carnegie, the millionaire philanthropist in their attempt to defeat Roosevelt with money. Carnegie says he will put up a million dollars in defense of the common people's interests against Wall Street's conspiracy to defeat Roosevelt.

Wm. B. Hearst will give \$1,500,000 to be elected president. Bid up Willie, that is not enough. That is less than four bits a vote.

California democrats are conferring with Oregon democrats for a Hearst combination in the Pacific Coast States. Oregon democrats realize that to boom Hearst would rob Governor Chamberlain of second place on the National ticket, a place which the governor has been widely spoken of to fill by Oregonians. It would be out of the question for California and Oregon to capture both places. Any how, the whole thing is only a matter of formality; just to fill up the demoreat ticket. Hearst can't be elected, even if he gets the nomination.

### Robbed the Grave.

A startling incident, is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at Beall's Drug Store.
