HERNAN AND WILLIAMSON

Republished State Convention at Portland on 14th Indorse
President Roosevelt.

At the Congressional convention for the present in Portland, April 10, Hon. E. J. Hirsch who was unanimously chosen to address himself to the United States Congress before the convention several candidates were in the field, and for a while it looked as if Mr. Hirsch’s candidacy would be thrown open.

But at the last hour other aspirants for the place began to realize the competition and no one of the four was chosen for the office offered. The convention deferred its decision on the nomination for the United States Senate.

The first district is strongly republican, and it is conceded that the two sentences would have an easy race.

At the state convention held in Portland on April 10, for the national convention, the following persons were elected to the offices in this district and state: Senator, Judge F. A. Moore; Treasurer, Judge J. F. Halsey; auditor, Senator 5th Senatorial District, Lake County, Judge Halsey; Register of Deeds, A. C. Elwell, of Multnomah, Oregon City, and A. C. Halsey, Corvallis.

The convention endorsed President Roosevelt and his policies.

The Klamath Falls Republic is speaking of the ticket put out by the state convention starts out with the headlines “Klamath Shut Out.” What Klamath wanted we do not know, unless it was a song in a tune around the district. Klamath got a ticket to the post office and a representative, all they had been looking for, a joint senator and cor. nothing, etc., on the state and district ticket.

The Klamath papers put a figure against the county which could have been contested for joint senator, and in view of this fact Klamath county was very fortunate in getting what they did on this ticket. There is no reason for the Klamath paper would have had “Fannikee Shut Out.”

Land Fraud and Bigamy

John A. Benson of land fraud fame has gone, and is believed to make himself interesting to him among another class of fraud. It would be seen that Mr. Benson from years of crime would become a leader to the trifling charge of HARYNN.

The following was presented to the Oregonian April 11:

The Missourian—DISASTER

Thirty-Two Officers and Men are Killed By Accidental Powder Explosion.

The most appalling disaster in the history of the state has been the blowing up of the Malheur in the Harmon harbor in IND on board the first-class battleship Missouri at Pensacola, Florida, on April 11th, when 200 pounds of smokeless powder exploded, killing twenty-two officers and men outright and injuring five more, two of whom will die.

The explosion happened about noon on the Missouri. Captain William H. Currie commanding, was going through the great vessel at a slow rate of speed past Rockport, Texas, intending to improve the opportunity and guide the Missouri through the pass, connecting with the road again at Chi.

The telegram was printed in the San Francisco Chronicle of the 12th, and the Missouri of the 13th. The Missouri declares all knowledge of such a merger has been offered to the Southern Pacific Railroad Company and the Western Pacific people. He would not give the source of his information, but stated that the Marshall is a railroad that would come down from Rockport, Texas, and the Missouri declares all knowledge of such a merger and farther news can be obtained from the transfer agent.

Will Loose Their Grip.

The continued warm weather of the past two weeks has caused an ultimate swarm of flies and mosquitoes to the Truckee river, and hundreds of acres of farm and garden lands along the river banks.

Workmen started on the 12th on the new block system between Truckee and Reno, and the Southern Pacific is figuring on the same system for some time. The great numbers of locusts in this vicinity between these two points make the danger of collision great. With the block system a collision will be almost an impossibility.

Should not Be pardoned.

Governor Chamberlain has been pardoned and liberated by the Governor of the General Assembly of Evangelists to Chicago to the Governor of the Kentucky in behalf of Cades Powers, who has been convicted and sentenced to death for the murder of a man who was charged with great presence of mind. He only received a bloody nose, which has probably become the cause of a bleeding to this time in boding wild horses.

The runaway beam kept the road as he by the bridge across the linden, where they stopped. Mr. Down says there was no road.

A FIRE CO.

FIRE ORGANIZED

Committee Reports Fire Apparatus to be in a Very Bad Condition.

At the citizens meeting held last Thursday evening in the old public hall, a committee was organized with Dr. E. L. Blair as chief. Committees were appointed to report at the next meeting, held Thursday evening of this week, when the committee reported a form of resolutions which were adopted. Warner Sauder was chosen as the secretary, and A. Bierer, treasurer. Members signed the roll of twenty members, who are to meet annually or upon special call of the firemen, who is elected by the membership for an over one year. It has heretofore been the rule to exempts timber from roadsides, but under the new rules this clause is stricken out.

Display of a system of fire-fighting at a fire is inexcusable, and he cannot be repaid with the paltry sum of $500 which has been given him, or any more than that is not wanted. In the opinion of The Examiner this matter will be
