

**A Good Suggestion**

One of the best suggestions made lately in the interests of honesty in public affairs is the proposition of the Federal land office at Washington, to provide its agents when sent out on inspecting tours with kodaks with which to take photographs of improvements alleged to have been made on homesteads, timber and stone entries and different kinds of land taken by settlers—and others. Many contested cases could be easily settled by the pictures of "improvements" which are claimed to be sufficient within the law. In fact, it would be a good idea to incorporate this requirement in the final proof submitted by land claimants. A photograph would be an unanswerable witness in many of the cases where other testimony is contradictory and insufficient.—Salem Statesman.

The stockmen who have held their beef over and now have them in good shape, are surely to be congratulated. Walter Sherlock, the Modoc and Lake county sheep man, who arrived here from San Francisco Wednesday, says that good steers were bringing 10c per pound in San Francisco, lambs, 15c, while mutton was steady at 12c.

If you haven't seen the model of the patent gate at this office, call in and inspect it.

**A Thoughtful Man**

M. M. Austin of Winchester, Indiana, knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c, at Beall's Drug Store.

**Harris Wool for Living**

The Umatilla Indians are more industrious than a great many tribes of Western Indians. While the avocations of those who do not till the soil on the reservation or indulge in any particular pursuits are similar in nature to our Plate Indians, their energy is more apparent. As soon as spring comes the Umatilla Indians of a roving nature slip out for the foothills in the vicinity of the winter sheep ranges, where the squaws pick wool from the dead sheep and from the brush where locks of wool have been pulled from the traveling sheep, while the men hunt for game and provide the food. When they get enough to fatten their ponies they go to the towns where they dispose of the wool at about 8 cents a pound. They sometimes pack the wool 100 to 150 miles on their ponies to market.

Wm. Harvey says he wants to send men to the legislature who will restore the varmint bounty to kill off the coyotes. George Cunn says the coyotes kill the rabbits that eat the alfalfa, and he doesn't want any bounty. So there you are.—Post.

**Best Cough Medicine for Children**

When you buy a cough medicine for small children you want one in which you can place implicit confidence. You want one that is unquestionably harmless. You want one that is pleasant to take. Chamberlain's Cough Remedy meets all of these conditions. There is nothing so good for the coughs and colds incident to childhood. It is also a certain preventive and cure for croup, and there is no danger whatever from whooping cough when it is given. It has been used in many epidemics of the disease with perfect success. For sale by Lee Beall.

It is said that distance lends enchantment to the view, but the theory falls down when applied to a man's view of pay day.—Ex. [We read the above item over a dozen times to catch the point; and finally concluded that it meant the other man.]

It is just a common cold, people say there's no danger in that. Admitting their statement, when there are *uncommon* colds, colds which are dangerous; for many a fatal sickness begins with a cold. If we could tell the common cold from the uncommon we could feel quite safe. But we can't. The uncommon variety is rarely recognized until it has fastened its hold on the lungs, and there are symptoms of consumption.

At the first symptoms the careful person will heed the warning by taking a mild laxative; some vegetable pill that will not disturb the system or cause griping. About the best is Dr. Pierce's Pleasant Pellets. If the cold starts with a cough, and it persists then some local treatment for this condition should be taken. A well-known alternative extract, which has been highly recommended by thousands of users, is Dr. Pierce's Golden Medical Discovery. This tonic compound is composed of an extract of roots and herbs and has a soothing effect upon the mucous membrane, allays the irritation and at the same time works in the proper and reasonable way, at the seat of the trouble—the stagnated or poisoned blood.

It contains no alcohol to shiver up the blood corpuscles, but makes pure rich red blood.

Dr. Pierce's 100-page illustrated book, "The Common Sense Medical Adviser," is sent free in paper covers on receipt of one-cent stamp to pay cost of postage only. For 31 stamps the cloth bound volume will be sent, 100c postage. It was formerly sold for \$1.50 per copy. Address Dr. R. V. Pierce, Buffalo, N. Y.

To take effect, Tuesday, Apr. 1, 1905.
