Again Cleveland proclaimed himself "out of politics" before the convention assembled.

The essential trouble with Russia's military plans is that the Japanese refuse to live up to them.

It is said that the Russians are hurrying balloons to Port Arthur. That seems to be their only means of escape.

"Pilgrim's Progress" is to be dramatized and the playwright is said to be studying where to work in the ballet.

It may be observed that the man with whiskers 11 feet long who will be on exhibit at the St. Louis fair isn't noted for anything else.

The immigrant who lands in New York is surprised to find how hard it is to get advice and assistance on any subject except that of how to vote.

Senator John H. Mitchell is expected to return to Oregon some time this month. The indorsement of Mitchell's policy by Oregon republicans insures the Senator a warm reception.

Bryan was declared "out of politics" by many great democratic politicians before the convention convened, but he seemed to have quite a following.

The Gresham Gazette says that cord wood sells there for \$2.50 per cord, and vegetables are proportionately cheap, as compared with Portland prices.

There is nothing that more conclusively demonstrates the enterprise of a town than a display of advertising—in the home paper—by the local merchants.

Kentucky will not respond gracefully when it comes to attending the St. Louis Fair. When \$5 is charged for four drinks of whiskey Kentucky will stay at home.

Portland's poultry market is clamoring for chickens, more chickens. This valley ought to supply them. There is money in chickens. We ought to raise thousands, where we now raise dozens.—Gresham Gazette.

A Pennsylvania minister states that after a search of a year he has at last found "an ideal woman." Of course he is going to marry her. The fact that every lover marries his ideal woman is what keeps the game going.

Probably the most speedy murder trial ever held in the state was that of Frank Guglielmo, of Portland, who killed his sweetheart three weeks ago and was on Thursday convicted of murder in the first degree.

Frost Did Much Damage.

In some parts of Eastern Oregon the recent frosts did considerable damage, more in the northern counties than in Lake. In the Columbia River counties the frost was not so damaging as the hot winds and grasshoppers. Lake county has been very fortunate in escaping the frost and pests that have shortened the farm products of many Eastern Oregon counties. Below is the report of the weather and crop bulletin issued on the 5th of July for a few counties where the most damage was done by frost:

Joseph, Wallowa county.—The freezes of 22d and 23d did but very little damage; it has been quite warm for the past few days and very hot to-day; a good rain would be very beneficial; cheat hay is being cut; clover and alfalfa will be ready in a few days; gardens are growing rapidly.

La Grande, Union county.—Weather very warm the fore part of the week, ending with a shower and cooler weather; a good many farmers cutting frozen wheat for hay; the freeze of last week damaged some fruit and nearly all potatoes are killed to the ground; timothy hay not so good as it promised.

Cove, Union county.—Shower Friday night was of much benefit to late grain; more rain needed; frost of last week did much damage to advanced wheat, though some fields appear to have escaped; considerable will be cut for hay next week.

Erwin, Baker county.—Fore part of week very warm, with north winds; Thursday and Friday cloudy, with light showers on the foothills; the freeze last week did more damage than was at first supposed; it killed all the blossom on the alfalfa, also on the wheat and rye; the gardens were all cut down to the ground; plums and prunes were frozen so hard that they have nearly all dropped off.

ONE OF DR. CUPID'S PRESCRIPTIONS.

That Love sometimes cures disease is a fact that has recently been called to the attention of the public by a prominent physician and college professor. In some nervous diseases of women, such as hysteria, this physician gives instances where women were put in a pleasant frame of mind, were made happy by falling in love, and in consequence were cured of their nervous troubles—the weak, nervous system toned and stimulated by little Dr. Cupid—became strong and vigorous, almost without their knowledge. Many a woman is nervous and irritable, feels dragged down and worn out, for no reason that she can think of. She may be ever so much in love, but Dr. Cupid fails to cure her. In ninety-nine per cent. of these cases it is the womanly organism which requires attention; the weak back, dizzy spells and black circles about the eyes, are only symptoms. Go to the source of the trouble and correct the irregularities, the drains on the womanly system and the other symptoms disappear. So sure of it is the World's Dispensary Medical Association, proprietors of Dr. Pierce's Favorite Prescription, that they offer a \$500 reward for women who cannot be cured of leucorrhea, female weakness, prolapsus, or falling of the womb. All they ask is a fair and reasonable trial of their means of cure. Dr. Pierce's Pleasant Pellets clear the complexion and sweeten the breath, they cleanse and regulate the stomach, liver and bowels and produce permanent benefit and do not react on the system. One is a gentle laxative.
