LOWER EXPORT PRICES.

Our Democratic friends appear to be worried over the fact that our manufacturers sometimes meet for eign competitors on their own ground by cutting prices. There is no denying that this is sometimes done, and there is no apology to offer for doing it. Sometime it is for one reason, sometimes for another. Here are a few given to the industrial commission:

"Cash payments and large purchases in the foreign trade, whereas the domestic trade is based on credits and small purchases.

"The drawback or rebate of the Tariff on imported raw material of goods manufactured for export.

"To overcome the Tariff of other countries.

"To secure new markets.

"To hold a market against new competitors.

"To clear out surplus stock or to prevent a shutdown and increased cost of production, and keep mills running and men employed.

"To get rid of samples and out of date goods.

"Because the expense of selling and advertising is less abroad than at home."

Absolutely no one is injured, and many are benefited. First, the workman is benefited, because he has more employment. If we export \$500,000,000 worth of manufactured goods, no matter what the selling price, the laborer gets about \$450,500,000 of it. He gets it in the direct manufacture, in the transportation, in the making of tools and machinery, the clerical work—in every process, coming and going, first, last and all the time. The farmer benefits because he sells more of his products right at home at profitable prices. The manufacturer benefits, because he disposes of his surplus stock and gains or retains a new foreign market. The Tariff has nothing to do with it except that both Democratic and Republican Tariff laws have provided for a rebate of 99 per cent. of the duty on materials imported which enter into manufactures for export.

Just why the Democrats and Free Traders object to our manufacturers building up a foreign trade it is hard to guess, unless they object to the American workingman being constantly employed and well paid. They will hardly win votes for their candidate on this issue.

BE CANDID.

In reasoning with yourself as to how you should vote at the approaching presidential election, the Lake County voter should give himself a candid answer to this question. "Does protection rob me?" Let the man who has wool and mutton to sell answer that question to himself candidly. Let the man who is now getting fifty dollars per month for labor, who, when wool was free of duty, received thirty dollars for the

same work answer that question candidly. Let every voter in Lake County answer candidly, "can I say that I am robbed by protection," while prices of all labor, and all products of labor in Lake County are known to be better, and much better than they were while wool was admitted free? The price of wool effects the interests of every laborer, farmer and merchant in Lake County. If you don't look out for your own interests who will look out for you? X. X. X.

An Excellent Proposition.

This week we have added to our long list of valuable properties for sale, one of the best ranches in Goose Lake valley. The ranch contains 365 acres of fine land, 250 under cultivation partly in grain and the rest in timothy. Abundant crops are produced, and all the uncultivated land can be put under water from Lassen Creek, which runs through the middle of the farm. There is absolutely no limit to the water. The land is fine for alfalfa, borders on Goose Lake, and is all under fence. On the ranch, most beautifully located near a good orchard and large berry patch where grows all kinds of fruit, and in a beautiful grove of shade trees is a 12-room dwelling, 36 x 18, 20 feet high, with large L kitchen worth \$3,000; a good barn, wagon shed, granary, chicken house, work shop, and all convenient outbuildings. All kinds of garden stuff grows abundantly, no frost. Best sheltered place for stock in winter in Goose Lake valley, very little snow. Close to summer range. Stream abounds with fish.
