Of all the live stock at Rosemount, Judge Parker probably takes the greatest pride in his red poll cattle, which have won many prizes at the country fairs in New York state, and there is no surer way to start him talking than to ask him for information concerning them. They are his hobby, and he will discourse on them by the hour. Judge Parker is a thorough and careful farmer, and although he has lived in Albany each winter during his term of office as chief judge of the state of New York, he has returned to Rosemount each Friday night and remained until Monday morning.

COMPOUND INTEREST

The trouble with most advertisers is that they expect immediate returns of large proportions. One prominent advertiser illustrates the principle of advertising in this way:

"The money expended for advertising is the same as if placed at interest. The profits from the advertising are virtually the interest on the investment."

"The sum spent for advertising are properly chargeable to capital account because the resulting good will is something that has value, which, if the advertising has been properly done, can usually be sold for the face value of the investment."

"The rate of interest is determined by the skill with which the investment is made."

"Just as the quickest way to increase invested wealth is by compounding the interest, just so the quickest way to realize results from advertising is to compound the returns."—Advertising Experience.

Advertisers get good returns on the amount invested in our columns. We reach the people.
