A New Kind of Tax.

The taxing of fat is a fiscal expedient which is new. A town in Sweden, it is announced, has introduced a municipal tax on stoutness, which appears to be graduated according to the most approved modern principles of public finance. Any one weighing less than 135 pounds goes free, an exemption which would scarcely apply to any able-bodied man. The great bulk of active taxpayers would be included in the second division, which consists of persons scaling between 135 and 200 pounds; they pay \$3.12 yearly. As for the 200 pounders, their bulk is rated at \$6 up to 270 pounds. Above that point every additional twenty pounds costs the proprietor of flesh another \$6.

Tips About Your Timepiece.

A watch should be wound up every day at the same hour. Avoid putting it on a marble slab or on anything excessively cold, as the sudden change of temperature, contracting the metal, may sometimes cause the mainspring to break. The cold coagulates the oil, and the pivots and wheels, working less freely, affect the regularity of the time-keeper. In laying aside a watch be sure that it rests on its case. If suspended the action of the balance may cause oscillation, which will interfere with its going. To keep your watch clean take care that the case fits closely and see that your pockets are free from fluff which is so often given off by cotton, cloth or calico linings.

The building at Liberty, Mo., familiarly known as "the old Mormon jail," has been torn down. The structure was Liberty's jail during the Mormon war in Missouri many years ago, and a lot of Mormon prisoners were confined in it at that time. Many members of the Mormon sect have visited Liberty within recent years to see the prison in which their brethren languished during the "prosecution."
