49-15

WEEKLY WEATHER REPORT.

Below we give a report of the weather as recorded by the Government weather bureau station at The Examiner Office. This report is changed each week, and if our readers wish to keep a yearly record of weather conditions for future reference, cut out the report along the black line and paste it in a scrap book one week after another. This record will be taken on Tuesday to end each week and begin on Wednesday for the next week.

Government Weather Bureau Station at Lakeview, Oregon,
C. O. METZGER, Local Observer.

Week ending Tuesday, Dec. 6, 1904.

Lakeview Public School Notes

Marie and Lena McShane dropped their work in the fourth grade, and have gone to Paisley. We are always sorry to lose our best workers.

Lawrence Tracy enrolled in Miss Fleming's division, of the sixth grade for work. Miss Fleming always extends a hearty welcome to boys who are anxious to improve.

Geo. Ross is developing quite a talent for pen drawing; one of his recent productions has been nicely framed and adorn the walls of the principal's room. It is indeed a very creditable pen drawing.

Ida McElcom is back again in her accustomed place, after the absence of nearly a week, while nursing a sore throat.

Gussie Metzker is on the sick list this week, we hope to see her back again in a few days.

The eighth grade are reading Irving's Sketch Book and are beginning to do some very creditable work in English.

Lottie Chandler was absent Monday A. M., because she slept too late such over indulgence makes our record look bad.

Eva Clark, of the fifth grade, has quit this school and, we understand, has gone to Prineville.

THE WORLD OWES ME A LIVING.

We owe everything to the world, but the world does not owe us anything, unless we are able to make the world our debtor by being intelligent, and helping some one else to see the right way, and to be upright and honest.

We can improve ourselves while making the world our debtor, by being honest, truthful, upright and energetic.

The world needs more intelligent, industrious, honest, energetic and truthful men and women to make it better.

We can make the world better and intelligent, and ourselves more worthy men and women, by learning truth and goodness.

We should be industrious, so we can earn an honest living and not depend on some one else for it.

We should pay out debts, so people will trust us, and not be afraid to sell to us on credit.

By doing all this we can make the world our debtor, but not before.

AN EIGHTH GRADE PUPIL.
