

Money for Counties.

State Treasurer Moore yesterday received the sum of \$64,562.24 from the government, this being the required 5 per cent of the sales of government lands within the state of Oregon during the year ending June 30th, 1904. This money will be divided among the several counties in the state in proportion to the size of the state.

The Poor Sweet Thing.

"How can you tell when there is any gold in this funny looking stone?" asked the dear girl who was being shown around the mine by an official. "Why, we smelt it," he replied.

Holding the stone to her pretty little nose, she remarked very innocently: "Why, I smelt it too, but I don't smell anything about it to why, what are you laughing at?"

Arrest It! \$50 Reward.

Would Make Example of Him.

A special correspondent to the Oregonian at Long Creek, Grant county states that owing to the inability of the law to check stock rustling in Grant county, stockraisers there are seriously considering the revival of the rope and rifle method. Grant county papers, however, intimate that an example should be made of the correspondent who is trying to disgrace their county.

The walls of the Forestry Building at the Lewis and Clark Centennial are now in place, and workmen are busy putting on the roof. The building has proved interesting beyond all expectations to nearly visitors at the fair grounds.

California at the Exposition.

Portland, Dec. 12th, Governor Pardee of California, in his capacity of Commissioner of the Lewis and Clark Exposition, has addressed a letter to all the members of the coming legislature advising an appropriation for a California Building at the Lewis and Clark Centennial. The last legislature appropriated \$20,000 for an exhibit at the Fair, but this was known to be only preliminary. A suitable state building would necessitate a further appropriation of \$65,000 to 75,000, and all the legislators so far heard from have favored such an appropriation.

California is wide-awake to the fact that excellent results may be obtained from an extensive exhibit at the Exposition and every effort is being made to install a creditable display.

The readers of this paper will be pleased to learn that there is at least one dread-disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

UNPROFITABLE FEEDING

Intelligent stock raisers know that a certain amount of feed is necessary to keep an animal alive. They might feed that amount as long as it lives, and it would never gain a pound.

There is no profit in that kind of feeding. The kind that pays is the kind that builds flesh rapidly. If it takes twenty pounds of food each day to keep a sheep alive, twenty-five pounds a day will make it gain flesh. It's the extra five that brings the profit. The first five pounds amounts to nothing, nor does the second or third or fourth five pounds.

It's the same way with advertising. You have to do a certain amount to overcome the resistance of the public.

You have to do a certain amount of advertising to make them wake up to the fact that you are in business at all. You have to pay a certain amount to keep your advertising alive. What you pay above that amount brings profit.

Some advertisers fail because they do not use enough space. They use barely enough or sometimes not quite enough to make the advertising self-sustaining. A little bit more would make it profitable. It is better to advertise a little too much than not quite enough.—Charles Austin Bates.

Some of our advertisers could enlarge their space with profit.
