A new paper started in Portland has N. Waldo Taylor for foreman and C. M. Smythe for "devil."

The Examiner has far the largest subscription list of any newspaper in Southeastern Oregon, therefore its columns are more valuable to the advertiser.

If there are no special reasons why people should trade with you, it is likely they will trade somewhere else. If there are such special reasons, buyers can find it out only as you advertise the facts.

Japan declares to the powers she will follow Russia into China should she enter neutral territory with a military force. This must provoke interference by other nations the result of which cannot be foreseen.

Charley Arthur, one of Lake county's prosperous young sheep men, arrived here from his sheep camps on the desert first of the week, to look into the wool market with a view to selling.

Spain, since the loss of her colonies has turned her attention to improvements in home conditions, and in eight years we read of greater advancement along these lines than in fifty years immediately preceding her war with the United States.

Dave Edler was in from the desert first of the week, and contracted his wool to Bailey & Massingill. Mr. Edler will shear about 120,000 pounds next spring, he being one of the heaviest woolgrowers in the county. The price was 16 1/2 cents.

Japan now intimates that, when she has driven Russia out of Manchuria, she will assert and maintain a strong influence of her own. The further extension of the power and influence of all military experiments is to be asserted.

J. T. Flook came over from Rock Creek, arriving here Tuesday. He came to town to sell his wool. Mr. Flook tells us that the prospect now for a good crop of wool is excellent, but he says scab prevails in many lands and if a couple of months hard winter comes lots of wool will be lost. There is nothing to be done only to wait.

The Klamath Falls Express sent up a pitiful howl last week because the Republican had the largest subscription list and secured the county printing. The Express is a good paper, but it is tiresome to see any one "chew the rag" when they are defeated in a race.

The Coos Bay Harbor publishes a picture of the light house on Cape Arago. The light house stands upon a rock upon which the ship Baltimore went to pieces 50 years ago. The Harbor says the rock is gradually crumbling away, and a new light house will have to be built soon.

"Tuffy" Storkmann met with quite an accident on the streets of Lakeview last Sunday while exercising a race horse. The horse became unmanageable and ran from the Bernard store to the Barnes blacksmith shop, where "Tuffy" was thrown against the side of the building, receiving painful injuries. Upon examination it was found that one of his ribs was broken.

Among those who have received the highest award—the Grand Prize—at St. Louis World's Fair, was the A. J. Tower Co., the makers of the FISH BRAND SLICKERS. Many of our readers who went to the Fair, will recall their fine exhibit in which waterproof garments were shown adopted to so many uses that almost every department of the world's work was suggested. The Grand Prize was a deserved tribute to one of the oldest manufacturing concerns in the country.

Frank Hutchins, foreman on the XL horse ranch, was in town last Thursday and made this office a very pleasant call. Mr. Hutchins informed us that he had been feeding about 100 head of mares up till the recent thaw out, when the horses failed to come to their feed, finding plenty on the range. He says the horses, both those he has been feeding and those that wintered on the range, are as fat as they were in the summer. There will be considerable hay left over on the horse ranch.

Railroad Tyranny.

The raising of railroad freight rates on apples from Oregon to Calif., points from 31 cents to 71 cents in order to compel the purchase of California supply of this fruit in other and more distant States, thus giving the railroads the benefit of a long haul, is but one of multiplied thousands of the tyrannical acts of railroads, destructive to communities.

Happily the country is now watching with deep interest and in perfect confidence, the battle between the President and these oppressors of the people, the issue of which is certain to teach railroads they exist as servants of the people, and not their masters.

Senator Mitchell Makes Formal Denial.

In the senate chamber, on Jan. 17, Senator Mitchell of Oregon made formal denial of all charges made against him in Oregon land fraud cases.

He denied that he had ever conspired with Binger Hermann unlawfully to order lands of the United States to patent, or that he had ever received at any time from convict Puter \$2,000 for any purpose.
