"A Li: Nailed."

The Cedarville Record heads an article thus. The article appearing under the above heading was the one published in The Examiner a couple of weeks ago about some boys at Midwell having a good time with a wild steer, a buggy and Charley Greig. The Record quotes the article as published in The Examiner and adds the following:

"We have made inquiries regarding the above and find that it is a pure and simple. No such disgraceful occurrence took place there. It is through such lies as the above that Modoc is advertised to the outside world and created for it the undeserved reputation of being a wild and woolly west. For shame, Bro. Detaker, you should correct the slanderous article in your next issue."

Well, Bro. Stanley, we will apologize. We never tasted John Wall's whiskey, but have known that gentleman for these long years and we like him. His whiskey is no doubt as good as any. We know, Bro. Stanley, as well as you do, that all whiskey is good, but some is better than other, and if John's whiskey is the better kind we are sorry that we said it was the kind drank in Idaho, where saloon men compel whiskey drinkers to inject three drops of their goods into a rabbit, and if the rabbit can't lick a bull dog they do not buy it.

Economy in Interests of Panama Canal.

We cannot refrain from emphasizing our satisfaction at a determination towards economy displayed by the appropriation committee in the Federal House of representatives. We believe that behind this resolute purpose, is a desire to keep always in reach ample funds for use in any emergency that may arise to impede the progress towards completion of our great national enterprise, the Panama Canal.

Though we witness with pleasure every act on the part of the government in the interest of home enterprise our special pride is in the expectation that undreamed of benefits will accrue to the people of the Pacific Coast in the completion of that means of transportation between our two seaboard.

CASNOW & Co.

For five years the university of Buffalo has been devoting much time to investigation and experimentation relating to cancer. As a fibrose cancer is found to be parasitic, and in type, infectious. It has been translated and reproduced in the bodies of animals and cured by use of serum prepared in the laboratory. Scientists are hopeful now of producing a serum that will certainly cure this disease in the human body.

Bank clearances in all the cities of the United States for the week ending Jan. 12th, show an increase of 28.2 per cent over those of corresponding date of last year, as shown by Bradstreet's. Thus it is made clear, the country, on the whole is prosperous, and very prosperous. Any condition showing the contrary is local and may be corrected.
