

Wasco Local Option Fight.

In the circuit court for Wasco county, which convened February 13, the local option law adopted at the last election will be tested. At the November election the three Hood River precincts gave a majority for prohibition, hence the sale of liquor in the City of Hood River is prohibited by law, but not in practice. Since January 1, when the law went into effect, three saloons there have been running, and as a result the three proprietors, Chas. Howard, S. F. Fouts and John Morrison have been arrested and placed under bonds of \$150 each to answer before the circuit court, direct information having been filed by the district attorney.

The three saloon men have employed able counsel and will make a test of the law on constitutional grounds. The case will no doubt go to the supreme court for final adjudication, whichever way it is decided.—Blue Mountain Eagle.

being removed from the papers in Russia, the papers openly demand for peace. The incompetency of the commanders, and the wholesale plundering in the supply departments, are assigned as reasons why the war cannot longer continue the imperialist campaign.

Will Consider Peace Terms.

The Chicago Daily News prints the following under date of Feb. 13. Tsarskoe-Selo.—In spite of all denials, it is certain that the peace movement is gaining ground. I am informed by an absolutely reliable authority here that the court and the Grand Dukes secretly favor peace, but that no one is willing to take the odium of a public declaration. There will be no active operations in Manchuria until after March, by which time the zemsky zabor (people's assembly) will have met and taken the responsibility of declaring for peace.

After many interviews in St. Petersburg and with intimates of the court here, I can affirm that, though Russia will not accept direct mediation for the termination of the war, there is a probability that it will gladly consider an American proposal of conditions of peace upon which negotiations might be begun.

All eyes are turned toward the coming meeting of the people's assembly. The reforms that are being elaborated by the Committee of Ministers are commanding meager attention, because it is generally felt that its action will be superseded by the zemsky zabor.

Deafness Cannot be Cured

by local application as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous services.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

HOW BONNER WON SUCCESS

The career of Robert Bonner, the veteran publisher, furnishes a signal illustration of the value of persistent and sagacious advertising. When he began the publication of the paper whose phenomenal success brought him fame and fortune, he did not wait for the people to find out, slowly and gradually, the interesting features of his journal.

He forced his enterprise upon public attention by a systematic lavishness of expenditure for advertising which at that time was without precedent or parallel. Whole pages of daily newspapers were secured at high prices to blazon forth the merits of his undertaking.

From one end of the country to the other the names of Bonner and his Ledger were made familiar to the people by constant repetition.

Conservative publishers, jogging along in the ruts of old routine, prophesied bankruptcy and ruin for this unconventional innovator, but Bonner kept on spending a large share of his receipts in buying publicity, and those receipts increased with startling rapidity.

Every dollar disbursed in this way brought in more dollars until croakers were confounded and pessimists in this particular branch of business silenced by his tremendous success.

The lesson is one that is as well worth heeding today as it was forty years ago.—Philadelphia Bulletin.
