A Good Move.

At the stock owner's meeting Saturday evening a resolution was passed asking the Board of Supervisors to make an appropriation to defray expenses of a committee of three to attend the opening of Nevada's great irrigation canal. A congressional committee appointed to make a tour of the west will be in attendance and the committee from this county will endeavor to induce them to visit Modoc. Mr. Langille urged this matter, saying that if Modoc county secured money for irrigation purposes we must ask for it, and keep on asking. The Board of Supervisors in session this week set aside the sum of \$500 to defray expenses of the committee from this county and assist in entertaining the Congressional committee while here. The committee appointed by the Stock Association consists of Hon. Peter Peterson, Geo. H. Bayley and Col. Thompson of this paper. We believe the money will be well expended, especially if the Congressional

al Committee can be induced to visit us. If they cannot, then only a small portion will be used.—Alturas Plaindealer.

Ground Broken for New Road.

With much pomp and ceremony, and in the presence of many hundred people, assembled from all sections of Jackson county and Southern Oregon, the first dirt in the grading of the Medford & Crater Lake railroad was turned on April 4th, at the junction of the new line with the Southern Pacific, three-quarters of a mile from the Medford depot. Mrs. A. A. Davis turned the first shovelful and addresses were made by many prominent Oregon men. Prominent Southern Pacific officials were also present, among them being W. E. Coman, general freight and passenger agent.

Every business house in Medford closed its doors during the afternoon. The band marched to the "Junction" at 1:30, and the ceremony opened with an address by Holbrook Withington, attorney for the company.
