The Astoria Republican either doubted a statement in The Examiner regarding the result of a fishing trip made some weeks ago by Rev. Snyder and the Examiner man, and refers to the incident thus: "The Editor of The Examiner and another preacher went fishing and say they caught several fish that would weigh 8 pounds." Rev. Snyder was responsible for the item published in The Examiner. He said all the fish he caught would weigh 8 pounds.

Mrs. A. Bieber, Mrs. S. O. Cressler and Mrs. E. E. Rinehart visited The Examiner office yesterday.

The Bulletin has information, the source of which cannot now be given, indicating that active construction of the Columbia Southern railroad toward Bend will be begun within 90 days. Definite official announcement will probably be made within the coming two weeks.—Bend Bulletin.

The Alturas Plaindealer came out last week in regular form. Since the fire which destroyed the Plaindealer office, Mr. Thompson has printed his paper on the job press. Last week the New Era and Republican let him use their type and presses to get out his paper. His new plant will soon be set up when the Plaindealer will come out in shape.

Frank Guglielmo, the Italian who murdered his sweetheart, Freda Guaschia in Portland in June of last year, was hanged at the Penitentiary last Friday, May 5, at 12:45 o'clock. Dr. F. E. Smith of Salem, formerly of Lakeview, and Dr. B. H. Earle of Astoria pronounced the man dead 12 minutes after the drop. The body was turned over to friends and taken to Portland for burial.

The Alturas Republican tells of a Mr. Bowers of Lakeview, who recently lost \$15 by coming in contact with a sharper of Reno just before starting for Lakeview. The fellow put up a pitiful hard-luck story to Mr. Bowers, so says the Republican, and stated that he was in distress and needed money. He offered to pawn a \$1000 check, and when Mr. Bowers took out his purse, the sharper snatched the purse and ran.

This week we received a letter from the Oregon Information Bureau which the secretary, Mr. Geo. G. Berrell, stated that in The Examiner of April 27th, there is some valuable information, and asks for all the extra copies we have. Fortunately we printed several extra copies of this issue, and have sent them to the Information Bureau. Mr. Berrell says there are a number of persons looking to Southeastern Oregon for land on which to settle. He also asked us to send a copy to a man in New York who has written the Bureau for information about Lake county.

Want More Railroads in the State

Representatives of the transportation committee of the Chamber of Commerce and of the other interests now working for the interior development of the state by the construction of railroads through the sections now without adequate means of transportation, met yesterday afternoon in the office of J. N. Teal, the legal representative of the movement, for discussion of ways and means.

It is not desired by the fathers of the movement at this time to make any statement in regard to the work being done other than to say that plans are being considered, and from present indications it may be predicted that definite arrangements will be made in a short time which may lead to the early construction of the longed for road.—Oregonian.

A Sure Cure

Base ball fever is breaking out among our boys and there are several very bad cases. A big wood pile and a good backsaw is a good remedy for it but no sure cure has ever been discovered," says the Odenville Record. (You send your base ball team to Lakeview for the ball tournament to be held here on the Fourth of July, and let our Lakeview team get a crack at them, and if this doesn't cure them, they are incurable.)

The Equitable Life

If every officer now connected with the Equitable Life were to die tonight, the company would go on just the same, paying every dollar of its outstanding contracts, having over \$80,000,000 surplus to divide among the policy-holders as the contracts mature. Mudspashes cannot penetrate the impregnable armor of "the strongest in the world."—Portland Oregonian.
