LAKEVIEW, OREGON, JUNE 15, 1905.

The greatest maxim writer of France has said: "If we had no faults, we should not take so much pleasure in noticing the faults of other people." This by comparison we learn to judge. Nature prompts one to see most prominently characteristics of others as compared with our own. It is the grasping for the unpossessed that stirs ambition and creates a desire to acquire that known to exist. We realize we have faults, this creates the intuition to compare and in comparison, faults of others are brought into prominence only in mental conjecture. However, the thoughts may be framed in language frequently with no intention to criticize, yet mental capacity being contracted naturally falls in all comprehension, misconstrues the maxim and takes offense. No one is infallible and we should remember that we easily forget our faults when they are known only to ourselves.

The temporary forest reserve in Lake county is liable to be made permanent any day now, as the president has his working gloves on. Our people should profit by the experience of Modoc county with forest reserves, and endeavor to have the reserve thrown open to settlement. Senator Fulton fought the creation of forest reserves throughout the state, and will help us out if he is asked to do so. They are a menace to the development of the county. A man can't go fishing and picket his horse or haul a load of wood or poles without first obtaining a permit from the government, calling the forest ranger and going through a lot of red tape that will cool his ardor for fishing or hunting before he gets his permit.

The Cedarville Record and the Alturas Plaindealer, both the same week, used the expression "mum as an oyster," in referring to The Examiner's attitude toward smallpox. Is that a common expression down in Modoc? or have the editors of those papers been drinking too much oyster cocktails?

The Regardale Record says "lies are more loved than the smallpox." When that paper stated that the disease was "conveyed from Lakeview," it exemplified the above assertion by disseminating the former and keeping the latter to itself.

A. S. Lowell of Pendleton is in line for appointment to the district judgeship in Oregon. Assistant Attorney General Robb, who was sent to Oregon to investigate candidates for appointment to this position, is said to favor Lowell.

Judge Webster is known to have been favorably spoken of by Senator Fulton for District Judge for Oregon. Judge Webster also made a good impression on assistant Attorney General Robb.

Authoritative statements are made that the western Pacific Railroad Co., will be running trains from San Francisco to Salt Lake City over its new road in two years.

Henry has discovered that even greater land frauds have been perpetrated California and Washington than in Oregon.

Bigelow, the defaulting banker is sentenced to 10 years in the pen. His defaultations amounted to over \$100,000,000.

In an interview at Salem the other day, United States Senator Chas. W. Fulton said: "I have been trying to get the press of the state to appreciate the danger to the forest reserve policy of the government, but it has seemed a difficult thing to have them arrive at a realization of what it means to the state. I fought the proposition in congress last year and shall continue to do so long as I am in the senate from Oregon. As the matter stands now, one-fifth of the lands in the state of Oregon are tied up so that they will do no good to the state nor permit of development. I consider the action of the government as an outrage, and that the people of Oregon should protest energetically against it must soon be evident to them."

The Lakeview Development League seems to be a "hummer." Among other things developed is the smallpox, and now the fact is developed that the women there want to organize a brass band. Next!—Cedarville Record. (A well-broken out case of prosperity.)

The government inspectors are at work in North Dakota searching for fraudulent land claimants. Two have been arrested on a charge of having defrauded the United States out of 18,000 acres of homestead lands.

The latest dispatches indicate that Roosevelt will succeed in arranging for peace between the Japs and Russians. Both countries have accepted his offer of good will.

Norway has rebelled, and announced its purpose to secede from the rule of Sweden. Prince Arthur is urged for ruler of the new government of Norway.

Norman Williams will be hanged at The Dalles July 21.

Equitable Strife ended.

NEW YORK, June 8.—Paul Morton, who retires from the Secretaryship of the Navy on July 1, was today elected chairman of the board of directors of the Equitable Life Assurance Society. His election marks the first and most important step in the reorganization of the society, and was followed by the tender of the resignation of President James W. Alexander, Vice-President James H. Hyde, Second Vice-President Gage E. Tarbell, Third Vice-President George T. Wilson and Fourth Vice-President William H. McIntyre.

The new chairman, to quote Senator Depew, did not consent to take office until he had received positive assurances that he would have a "free hand as to measures and men."

Mr. Hyde "divested" himself of the majority control, but as made clear in his letter to the board, retains a substantial interest in the society.—Oregonian.

Myrtle Creek Hotel Holocaust.

A dreadful holocaust occurred early this morning, at Myrtle Creek, 151 miles north of Ashland, in Douglas county when the Dement Hotel burned to the ground, and Miss Hattie Dement, daughter of the proprietor, Geo. Dement, lost her life, supposedly suffocated while asleep in her room in the second story. Several other persons were injured, including two laborers who were badly burned.—Ashland T. all go.
