### Why Time is Opportune.

The past few weeks The Examiner has endeavored to point out why the time was opportune for Lake county to undertake to secure a part of the government reclamation money in this county. We showed that the chances were favorable for a reduction to be made in the expenditure on the Klamath Basin project and the money expended some place in Oregon where conditions showed to be favorable, also that the Maheur project was hanging fire. Both these items furnished a basis for Lake county to work on. Now to show that we were not wrong: Mr. F. H. Newell of the Reclamation service has announced that the money to be spent in the Klamath Basin would probably be cut down from \$4,500,000 to \$2,000,000, thus leaving \$2,500,000 that Lake county had just as well have, and only for the asking, as not. There, too, is the Maheur project, that has been abandoned altogether. Another large sum of government money laid on the shelf to await the request of some enterprising county to ask for its expenditure within its border. If this isn't an opportunity for Lake county it never had one, nor never will. Another thing, the government is not going to force it upon us. Unless we ask for it and show that we have lands to irrigate, and that its expenditure here is really desired and would be money well spent. Lake will die with the dry rot before we will get a cent of it. Lake county also has the best prospects for a railroad now that it ever had and to nail both these good things at once requires only to "strike while the iron is hot."

The fact that there is a crew of surveyors at work between The Dalles and Portland on the north bank of the Columbia, which is believed to be a Northern Pacific crew, and the further fact that Hill has purchased terminal grounds in Portland, gives a tint of the right color to our railroad article last week.

The Japs are acting foolish over their displeasure at being compelled by the peace terms to forego the pleasure of killing Russians. They blame the United States for depriving them of their pleasure, and are trying to force the Mikado to null the treaty.

Governor Folk of Missouri and his staff of Presidential boomers are now on their way to Portland to visit the Fair, where Folk's 1905 presidential campaign will be launched on the sea of Democracy.

It is now believed that C. E. Lytle, builder of the Columbia Southern railroad, and president since Harri-man bought the road, will invest in the Great Southern and undertake to extend the road south from Dufer.

Hezekiah Butterworth, the author of many books and editor of the Youth's Companion, died at his home at Warren, Rhode Island Tuesday.

The Eugene Guard takes about the same view of the railroad situation in Eastern Oregon that The Examiner does.

It is said that Lux and Miller have disposed of all their land in Nevada to the Pacific Live Stock Co. of San Francisco.

Very often a man's respect for gray hairs keeps him out of serious trouble.

### The Southern Oregon State Normal School.

The first term of the school year will open Sept. 15. The citizens of Ashland have furnished the necessary financial aid to tide the school over Referendum hold-up. The present outlook indicates the largest enrollment of students in the history of this institution. 36-2

Address Pres. B. F. Mulkey for the new catalogue.

### Are You Engaged?

Engaged people should remember, that, after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. O., says: "For years, my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor, and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once, and finally made her entirely well. She is now strong and healthy." Lee Beall, druggist, sells and guarantees them, at 50c a bottle.

### Sidewalk Needs Repair.

The sidewalk on Malastreet, south of the Odd Fellows' Hall, is in a terrible condition, and should be repaired before school starts. Little children skipping along, as is children's nature to do, especially after being housed in a school room all day, will get many a fall on the old rickety walk. Boards are gone in many places and broken in places, the scraggy ends projecting up, and nails are standing up from half an inch to an inch above boards. It requires the full attention of a sober, grown person to walk along without falling, or at least, stubbing the toes out of their shoes and knocking the heels off.

It looks like the residents down that way would get so angry they would go out and build a new sidewalk in front of their respective homes, no more than they would be required to do if the city council took action in the matter. Some people blame the incumbents of a "thanky job" like councilmen, who seldom get their salary, for their derelictness of duty in ordering them to fix up sidewalks, etc, for their own protection.

WANTED—BY CHICAGO MANUFACTURING House, person of trustworthiness and somewhat familiar with local territory as assistant branch office Salary \$18 paid weekly. Permanent position.
