

IS THERE A DIFFERENCE?

WE SAY YES: There is as much difference in qualities of goods as there is in people.

If you are a judge of Human Nature you can judge between men—but you cannot look into the quality of goods without testing and comparing.

We ask you to test and compare our goods and prices with those of other stores. It will cost you nothing to find out the quality of our goods. You are at liberty to ask for your MONEY BACK if our goods fail to give entire satisfaction. Isn't that fair?

At present we are closing out our line of winter goods at reduced prices. You may find some very desirable BARGAINS among our stock and a small cash investment will mean a saving of DOLLARS.

Some party or parties with more nerve than brains entered Frank Evans' cellar a few days ago and stole a case of eggs and a ham. While the eggs had been on hand for some time, it is a safe conclusion that they were not nearly so rotten as the paroliers. —Silver Bow Standard.

Frank Evans' store at Silver Bow, Nevada, was broken into recently. Fortunately, however, for Frank—not the burglar—nothing of importance was stolen except a basket of eggs, presumably some Frank took along with him when he left Lakeview to start in business with.

From the appearances, and judging from statements of the Klamath Falls papers and the political announcements in The Examiner, there will be but one officer elected in Klamath county and one in Lake. Klamath office seekers aspire to the county judgeship, while other offices go begging. While in Lake county no one wants any office except county clerk. **LATER.**—One candidate for Sheriff,

Good goods, and prices not in any instance, more than we would be willing to pay if you were selling and we were buying, are the principles upon which we expect to succeed.

Our goods are as well worth the money we ask for them, as goods you buy from any catalogue house in San Francisco are. We are ready to prove this, and anxious to meet you for this purpose. We were a month buying our stock. We searched the city to get exactly what we wanted and would take nothing else. The price had to be right, and we got the full benefit of cash payments. We can, and will treat you as well as you can be treated in buying ANYWHERE. If

Everything from the very small hat to the elaborately trimmed picture hat is in vogue, one reads in the February Delinestor. The small felt hat trimmed with a voluminous plume, and placed far back on the left side, or quite at the back of the high collar, has achieved distinct success. The use of ostrich plumes has run into extravagance. Almost every hat shown bears this trimming, which lends a soft becoming touch to the face. Paradise plumes, egret and large wings are also extensively used. Novel but beautiful is a hat fashioned of cloth of gold. It is rather large, with high crown, and wide brim flaring at the left side. The frame is covered with the finest cloth. Around the crown are large roses of brown silk shading to yellow, with a bow of transparent gold braid secures the brim edge to the crown at the left side. Ostrich plumes in deep brown, shading to deep cream, are softly arranged against the flared brim.

It is about time that those thinking of running for office this spring were getting their names before the people. Announce yourselves and give the voters a chance to select the man they want for the different offices. We have three announcements of candidates for county clerk and one for the office of sheriff. No man ever expects to get into office without using printers' ink and if a little is good, more is better.

No man ought to be ashamed to announce the fact through the papers that he is a candidate for office. If he is, he ought to be equally ashamed, to ask the people to vote for him.

There is a bunch of horses on the high hills above town. Nearly every day, they can be seen from town come out on the north side of the peak, where the snow is probably shallowest and dig around for grass. The whole bunch will probably stay there till they starve to death unless some one breaks a trail out through the deep snow and drives them down. It would be a humane act on the part of the owner, or any one, for that matter, to break a trail to the animals and deliver them up from their snowy peril.
