LAKEVIEW, OREGON, APR. 26, 1906.

SAN FRANCISCO.

The great conflagration which has befallen San Francisco is one of the most awful catastrophes of historic times. While the loss of life has not been so great as has resulted from some other historical conflagrations, yet the suffering of the people and destruction of property exceeds anything recorded in ancient or modern history. A magnificent city with splendid buildings, containing a population of more than 400,000 people, completely destroyed is a national calamity. But the California spirit of progress and development will soon assert itself and a new and greater city will be built on the ruins of the old more beautiful and substantial than ever before.

In this connection the following list of great fires in the United States is of interest:

New York City—Dec. 16, 1835, loss \$35,000,000. Pittsburg, Pa.—April 10, 1845, loss \$10,000,000. Sacramento, Calif.—Nov. 12, 1852, loss \$10,000,000. Chicago, Ill.—Oct. 8, 1871, loss, \$168,000,000. Boston, Mass.—Nov. 9, 1872, loss \$75,000,000. Baltimore, Md.—Feb. 7, 1904, loss, 35,000,000.

The property of San Francisco was insured for \$250,000,000, and the insurance companies with magnanimous liberality have announced that every loss covered by insurance will be promptly paid in full. This action of the insurance companies will not only prevent any fear of panic in business affairs, but will insure the prompt rebuilding of the city.

The opportunity will present itself the coming summer for the people of Lakeview to do themselves proud in the way of entertaining 250 of Uncle Sam's brave boys from the Vancouver barracks. A letter to Mr. Chas. Moore which appears in this issue announces the purpose of the commander of the barracks there to march 250 of his soldiers through this county some time during the summer. It now behoves our people to make ready for their reception and show to Uncle Sam that the stranger may enter our gates and partake of our bountiful hospitality and feast his hungry eyes upon our superb scenery. No little pains should be spared to prepare a welcome for these boys in blue such as they may regard as one of the warmest and most cordial they will have received on their trip across the state. This is an opportunity that few towns the importance of ours seldom enjoy and we should make the best of it. A committee should be appointed at once to communicate with the Commander and furnish him with the information he desires and extend to him the welcome he deserves for his heed of our existence.

As an aftermath of the great conflagration in California the zealous news rustlers started a smallpox rumor that spread over the county like wild fire. The associated press, however, deny that smallpox is raging in the ruined city. The rumor was an absurd one in the first place, as it was started five days after the earthquake, which was impossible, unless the disease had been scattered before the panic occurred.

The known enormous wealth of Oil King Rockefeller and the confusion resulting from over-taxed telegraph wires is responsible for the mistake in the amount of Mr. Rockefeller's donation to the stricken of San Francisco. First reports gave the amount \$1,000,000, but later and more authentic dispatches place the amount at \$100,000.

A meeting of the business men should be called at once for the purpose of building a telegraph line to Klamath Falls. The investment would be a good one, besides paying 10 to 15 per cent interest, good telegraph line would be a great satisfaction to the people and its value to them in times of need would be inestimable.

The people of the whole country are interested in the amount Rockefeller has donated to the sufferers of San Francisco, and the amount is of very little note to Mr. Rockefeller himself. He simply names the sum and charges it up to the users of oil, to be repaid to him in installments of possibly a half cent per gallon.

The Harney County News of Burns, offered the voters of Harney county a year's subscription if they would vote for Jonathan Bourne Jr., for U. S. Senator on April 20th. How many of these very cheap votes Mr. Bourne received we have not learned.

THE TELEGRAPH LINE.

The telegraph line from here to Reno is like the old fire engine we used to have here. It looked good to have a fire engine and it answered the purpose so long as no one had any use for it, but the minute a fire broke out the cussed engine would go wrong; and that's the way with the telegraph line, the minute anything happens outside and the people here want to hear the news or if anything occurs here that outsiders want to hear about, the old spider web fails.

Everybody is sore about the uncertainty of the line, but no one attaches any blame to Mr. Burke, operator at this end, as they know that he has done his best with the material back of him. He is a first class operator and with a decent line would give good service.

There is something wrong in the construction of the line in some way. There have been various charges made against the management; absolute incompetency, indifference to the interests of the people who support the line, attempts to hold-up and various other things have been said, none of which we can vouch for, but we can say that the service is rotten and not worth three bits to the country. If the management pursues a grafting policy and attempts to hold-up the people at every opportunity or if it is bought off on certain occasions another line should be built to some point and placed under management whose principles are above price, and if incompetency is the fault the people here should make some move to cause the defect to be remedied.

What the people of Lakeview and Lake county want is an efficient telegraph service, and the way to get it is the methods pursued by our business men in other things; put their heads together and make a start and never let up till something is accomplished. In the last few years four telephone systems have been commenced and finished and those that are finished are as serviceable as any in Oregon or any where else; they are perfect and those that have only reached the commencement stage have begun in a way that assures the same degree of perfection that attaches to completed systems. With success and prosperity on every hand no one can look upon the erection of a good telephone line to Klamath Falls in any other light than if undertaken it will be carried through and successfully.

There is to be a telephone line built to Bly this summer and \$4,000 more would put a telegraph line to Klamath Falls.

The boquet Mr. Bourne wore in his buttonhole was an attraction to the Burns news. It says: "The News will be found working to the last for God's emblem, the chrysanthemum, and the loyal heart under it."

The late assurance of the extension of the N-C-O. railroad toward Lakeview and the great number of people who are seeking opportunity for the investment of capital in this county are coincidents.

It is the talk now that Roosevelt will almost be compelled to be a candidate for president in 1908, to satisfy the clamor of the people.

The Central Oregonian has been enlarged to a seven column paper and now assumes the importance of grown people.

Ashland Normal Notes.

Last Monday evening a number of our students went to Medford to hear Fredrick Wardle, the great exponent of Shakespeare, deliver his "Merchant of Venice." Some of the young folks went on the train, some on the bus and some in private rigs. Those who were: Prof. and Mrs. Mulkey, Misses Sherwood, Carter, Kaiser, Rippey, McCune, Williams, Jarvis, Robinson, Story, Minear, Heeson and Osburn. Messrs Anderson, Wright, Herndon, Smith, Peterson, Pollard.

Last Tuesday Miss Silsby and Miss Bryant and Miss Campbell started for San Francisco to take in a part of the opera season there.

The enterprise chorus practises choruses every Monday morning during Chapel period. They have some excellent choruses they are preparing for commencement, June 13th.

Chapel Topics. Friday "True Courtesy" by Prof. Mulkey; Tuesday Prof. Van Scoy read a paper "To the Senior class," which was an able paper, full of good advice and encouragement to those who graduate this year. Wednesday, Prof. Mulkey gave an address on the value of good expression, to which every one listened with interest. On Thursday just a recapitulation of the San Francisco horror, and words of sympathy for the stricken city.

NO TWO MEN ARE ALIKE

There may be a hundred men in this city who have arms the same length as yours—but there is not one other man in the whole county who is the same as yourself in all other proportions.

It is simply an impossibility to get a perfect fitting suit by buying ready-to-wear clothes.

We will make a suit to your measure for \$20.

You pay that much, or nearly that much for every hand-me-down suit you buy, custom-made clothes—overcoats—are turned out by the thousand. They are cut and sewed by machinery.

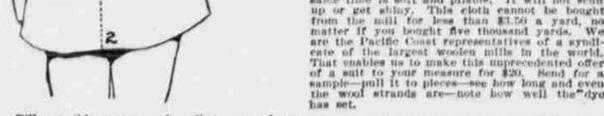

That is why you have bought suits heretofore that but their lack of business before you had worn them half a day.

We will make a suit to your measure—for your exclusive wear—that will fit you because it was built for you, and to one else for \$20. We guarantee the cloth to be an all-wool cheviot and the lining to be new and genuine—just off the loom—latest patterns—hand-picked—every seam hand-sewed with silk—lined with imported Venetian cloth.

The background of the pattern is a deep gray, with an almost imperceptible overline or check. The color of this fabric does not show dirt easily, does not wrinkle and has taken the dye so well that the garment looks like new until it is all worn out. The wool used in weaving this fabric was selected with unusual care. There is no short wool in the fabric and no shoddy. The cloth has no fine a weave that it presents a fairly hard surface, and at the same time is soft and pliable. It will not scuff up or get shiny. This cloth cannot be bought from the mill for less than \$3.50 a yard, no matter if you bought five thousand yards. We are the Pacific Coast representatives of a syndicate of the largest woolen mills in the world. That enables us to make this unprecedented offer of a suit to your measure for \$20. Send for a sample—pull it to pieces—see how long and even the wool strands are—note how well the dye has set.

Fill out this coupon and mail to us and we will send you a sample of the cloth. We guarantee that the sample is actually cut from the very bolt of cloth from which we make the suit. When you visit Portland, come in and verify this on your own assertion we make. If you wish, ask some Portland friend to tell you about the reputation and standing of the Columbia Woolen Mills Co.

It is the simplest thing in the world to have some friend take your measure. We will send you a tape measure free, and instructions how to take a measure for a suit of clothes. Be sure and send for this sample. If you get a suit from this offer, you will be wearing a garment the pattern of which local dealers cannot possibly get in stock before another year. The pattern of our \$20 suit will be sold next year at the least (by other tailors).
