A Fishing Party.

Editor Examiner :-Some of us about 40 Adel people rounded up a lot of angle worms and started up Deep Creek to beguile the shiny beauties from the waters of

said Deep Creek.

J. N. Givan took the lead followed along singing at the top of his voice and not noticing a big rock that Dutch Charley had left in the upper side of the road he ran his car slap up against the rock. Then the fun began, the horses snorted and reared and Jim whispered to them in a gentle voice that could be heard for about four miles. The troops that came after had some difficulty in getting over some big plous words Jim left lying in the road. But in due time we ar-

rived on the fishing grounds and then there is a hurry to see who would be the sest to land a whale. Willes Mrs. Powne was going around a ter set of willows thinking to be o reach the creek, Jake Mesd from his wagon seat clear over he haders heads and started for with such speed and force

the up willows and cotten the roots. Jake did not e but went headlong into running water, it was like tue launching of a big battle ship. When Jake hit the creek the waters parted leaving the creek bed dry and Mrs. Powne gathered nearly a basket full of fish before the waters closed up the gap, but meantime Jake was going down stream at a rapid gate. About the time he reached the falls Checo and Homer Morris was coming up the road to join our fishing party but seeing Jake going over the falls looking and acting so much like a devil fish that they took the back track with a whoop. Jack Barry followed them for ten miles but could not overtake them. It is said that they were headed off out on the desert at Mule springs by Jim Barry, and brought back to Plush.

But to get back to our party; after Jake was fished out of the creek we went to work to catch other fish. Those that fished above where Jake had fairly good luck but those that went below did not get a bite, there has not been a live fish seen in the lower end of the creek since. Jack Johnson put his hook in the mouths of some of the finny tribe and showed them what he knew about dentistry and I do not think it painless dentistry either.

Well having caught what we thought would make a pretty good feast (not much more than a ton) we started some fires, put on pans of grease and about the time the grease got real hot Mrs. Priday fell into one of the pans and then there was a fish afloat. But we got matters straightened, cooked our fish and had a jolly good time.

E. H. Lofftus carried off the priz creek and went straight across the hills home. We all got home safe. We thank you Mr. Editor for being so soliceous regarding our sports.

## You're Funny, Waldo.

Why not celebrate the anniversary of our Independence day at Silver Lake this year? We can have a good celebration here if every one will get in and do his part. It has been two years since we celebrated and why not. keep the money at home instead of going a hundred miles to some other place which takes a goodly sum to pay expenses of such a trip. The Christmas Lake people would like to have some place to go to enjoy themselves. Silver Lake would be the most convenient point. A good many have manifested a desire for a celebration; we could have a good ball game, some foot races and other sports without bleeding the people for large donations for big purses. -Silver Lake Oregonian. ## WOMEN AS POLITICIANS.

Colorado Congressman Resigned Because He Owed His Election to Ballot Box Stuffing by Women.

Before giving ballots to women in our own state-or before imposing the duty by a troop of cavalry. Jim was going of voting upon them, as others would put it-isn't it-wise to see how other states have fared which have woman suffrage?

Wyoming has had woman suffrage for thirty-five years. Its area to 97,890 square miles, and its people are scartered thinly over that area. The principal sources of wealth are mining and ranching. The ranchmen naturally live far from their neighbors, and the

Cheyenne, the capital of Wyoming, has a population of less than 12,000. In Chevenne there are twenty-five licensed gambling houses, and saloons are as numerous as any other kind of stores, and it has been officially stated that not single act of legislation aimed at the betterment of the human race has been passed in Wyoming through woman's tract called the hill of Christie.

General Thompson, who managed the Democratic campaign in Wyoming in 1892, said, "The women's vote is the easiest thing in the world to get and the easiest thing to keep and the

of any element in politics." After six spoken of by the man. It was an age months' residence in Wyoming divorce of superstition in a district more than may be obtained for eleven reasons! Can any one claim that Wyoming has been bettered by women's votes?

Has Utah's woman's vote kept that state from electing men to represent it in Washington whom the good women of the country have asked the government to reject?

This the ghost of an English soldier," said was demanded and granted on the counsel, and that question and complea that woman had an especial interest in the education of her children. The school committee campaigns are frequently contested as hotly as those Gaelic,-London Standard. for governor or mayor.

Their best record for voting in Boston, the capital of the state, was made in 1888, when 20,252 registered. The reason was because a religious issue had been raised-mostly by women; men try to avoid such issues-and both Protestant and Roman Catholic organizations were formed to get out the women to vote. The worth of caudidates was lost sight of

Next year there was no religious issue, and in 1891 the women who registered were only 3,000, of whom 1,000 did not vote. The number varies from year to year, but is so small that little attention is paid to it.

But there is one state

Where Women Have Done Something, and that is Colorado. in motion. Finally they arranged disturbances at the polls to frighten timid voters away and give opportunity to stuff the ballot boxes and "monkey" with the count.

These things they not only plotted, but they did, and when Mr. Shafroth was put in possession of the facts he refused to retain a seat in congress procured in that way.

As a sample of the purification of the ballot at the hands of woman read the testimony of Mrs. Beatrice Muhleman, formerly a clerk in the legislature. She says that she, Miss Alma Beswick and a man named Granger procured (evidently a polite word for stole 125 official ballots of precinct 1 of District F. They took these ballots to a hotel room, pulled down the shades, closed the blinds and locked the door.

Then Miss Beswick took two of these ballots and marked them to indicate straight Republican votes and one for each of the minor parties. Having thus or the enlargement of your own shown her impartiality, she made Democratic votes of all the rest. The ballots were then numbered to correspond races. Argument For Wide Tires.

A bill is proposed before the Virginia legislature to place an extra tax on wagons loaded with wood, tanbark, railroad ties and other heavy drafts, to be paid into the fund for road repairs. The idea is that such hauling destroys the roads, says the Good Roads Magazine, but is it not a better plan to institute a graded wide tire ordinance, such as experience has caused to be adopted in other states. women themselves to vote on. OLD TIME LALAL METHODS.

When the Evidence of Chasts Sufficed to Hang Men.

The testimony of a ghost would not now count for much in a court of law, but the day has been when it has sufficed to hang a man. There was a ghostly accuser in a case with which the readers of Scott are familiar. Soon after the "45" an English soldler wandering near Braemar met a violent death. Years passed and then came a story of a communication from another world.

A farm servant declared that in the night a spirit had appeared to him declaring itself to be the ghost of the soldier, whose bones, it is said, lay still unburied. The story of the highlander came to the ears of an anti-Jacobite, who caus ed the matter to be brought to trial before the court of judiciary. Edinburgh. There the tale was corroborated by a woman who had seen a naked figure enter the place on the night but it happened that the principal witness spoke only Gaelic, "Now," said the counsel for the defense, "in what language did the ghost speak?" NAMING A TOWN.

How Abilene Came to Be Selected by Mrs. Hersey.

Abilene was named by the wife of With her husband she had come to central Kansas in the spring of 1857. They lived in a log house on the west until 1860. Then C. H. Thompson, who had moved to the county from Leaven-Hersey's and laid out a town.

"Call the town 'Abilene,' " said she. "It means 'City of the Plains,' and that exactly describes the location."

So Abilene it was, and in the fight for the county seat, wherein it contested with Newport, Smoky Hill and Union City, all long since passed away, has filed notice of intention to make good fortune attended it, and the new town became the county capital for for the SINW14, NISW1, Sec. 30, T. 37 the 378 dwellers then in Dickinson county.-Kansas City Star.

Fleshmaking Food,

Cream grael, according to an emipent English authority, is the ideal nourishment for thin folk. A teacupful taken at night immediately before retiring is said to give marvelous results. To be at its best it must be perfectly made, then thinned with sweet cream. Taken in that condition and warm, it is agreeable as well as fattening and produces just that sense of satisfied hunger essential to ideal rest. It is claimed that perseverance in the treatment yields such apparent results that the cheeks can be seen to expand from day to day.

The Pepper Vine.

The pepper vine grows best in a wooded valley where there is plenty of moisture and abundant foliage to protect it from the heat of the sun. It is given a rude sort of cultivation. The growers plant it, keeping the grass from its roots, and when the tree near which it is planted has no lower branches strings or poles are placed in proper position to enable the vine to climb the tree. It needs no further at-
