Ashland Normal Notes.
 Miss Bertha Walker of Etna, Siski-
 youn Co., entered school Monday
 and will take special work the remainder
 of the term.
 The past week has been a busy one
 for the Y. M. C. A. girls. On Satur-
 day night they gave an entertainment,
 and the proceeds of which went to the
 bus benefit fund.

The program which consisted of
 twelve excellent numbers of reading
 and vocal and instrumental solos and
 duets, was carried out very success-
 fully, altho the attendance was not as
 large as the entertainment deserved.
 Miss Francis Gates, the State Secre-
 tary of the Y. M. C. A. having arrived
 on Monday the girls decided to give a
 Turkish reception in her honor on
 Tuesday evening. This also was a
 very enjoyable affair and was appre-
 ciated by all who attended.

Final examination in book-keeping
 will be held Friday afternoon.
 Last Friday afternoon the girls,
 armed with Sapolio and goldstut,
 mops, brooms etc., made the dirt fly
 from out the new building, while the
 boys with rakes and hoes made good
 work of cleaning up the campus.

Special mention should be made of
 and especial credit given to those
 boys who succeeded in denuding the
 trees of the great masses of mistletoe
 which has been so long accumulating.
 Pres. Mulkey made a trip to Cottage
 Grove last Friday, returning Sunday.
 On Saturday evening, May 12th,
 Prof. Mulkey will deliver an address
 at an entertainment at Central Point.
 The Normal chorus club will furnish
 several select numbers for the occa-
 sion.

Prof. A. J. Hanby of Central Point

 gave us a very interesting address on
 "The value of an education," in

A MUD SICK DOCTOR.
**Physician's Suggestion to Improve
 an Ohio County's Roads.**
 In Morrow county, O., we are very
 poorly provided with pike roads, says
 Dr. D. B. Virtue of Iberia, O., in the
 Auto Advocate and Country Roads.
 Outside of the incorporated villages
 there are perhaps ten or twelve miles
 of pike and some indifferent gravel
 roads. Mostly the roads are earth
 roads, which in many months are
 equivalent to mortar beds. However
 the number of people who advocate
 good roads is steadily increasing, so
 that the enemies of good roads now
 say, "Something of the kind will be
 done sooner or later." They hope that
 it will be later on account of an in-
 crease in taxation which would neces-
 sarily follow. My idea of what should
 be done here (Morrow county) is some-
 thing as follows:
 In this township—in fact, all over
 this county—there is an abundance of
 sandstone of the kind commonly
 spoken of as Heron grit, also a good supply
 of fair quality gravel. Now, if the
 roads were well graded and ditched
 with good large culverts where cul-
 verts are needed and an earth track
 constructed at one side and a broken
 stone and gravel track at the other, we
 would have good roads comparatively
 cheap. Of course this sandstone and
 gravel road should be well rolled as it
 is laid down and when finished only
 slightly higher than the earth track.
 I am well acquainted with the lime-
 stone pike roads built in recent years
 in two adjoining counties—Marion and
 Crawford—and know that most of
 them are built too high and too thin
 and are not rolled. Being loose, they
 rut immediately. Being high, it is not
 easy to drive from one track to an-
 other, and they spread easily. And be-
 ing thin I fear they will not stand
 service well.

As to cost, I believe good sandstone
 and gravel roads can be built in this
 region for \$1,500 per mile. I think this
 should be borne by the adjoining prop-
 erty owners, the township, the county
 and the state, each paying 25 per cent
 of cost, and then maintained by the
 township. As to the United States gov-
 ernment paying a part, let the govern-
 ment pay one-half the cost of con-
 structing good roads of double width
 about twenty feet between points of
 military importance.

In conclusion, as a mud sick country
 doctor, I should rejoice to see the roads
 improved by "any old plan."
Autos as Aids to Good Roads.
 A recent English periodical finds that
 the automobile is doing much to im-
 prove the character of the rural roads
 and that people having desirable coun-
 try places for sale or lease have less
 difficulty now than formerly in dispos-
 ing of them. The auto has made Eng-
 lish highways fully 50 per cent better
 than formerly, and the improvement
 continues. The good roads division of
 our department of agriculture claims
 that what is doing for England in this
 direction is also doing for us, says the
 New York correspondent of the Pitts-
 burgh Dispatch. It has been noticed,
 for instance, that substantially all the
 roads leading out of the large cities of
 the country are today in good order.
 This is particularly true of the eastern
 and northern central states. From the
 Alleghenies to the Mississippi the coun-
 try roads in many counties are in ex-
 ceptionally fine condition. The farm-
 ers are paying more attention to this
 subject than ever before, not only un-
 der the spur of the owners of autos,
 but on their own account. They have
 been educated to understand that good
 roads will help them to get to market.
 A farmer living ten miles from his
 county seat in the middle west and
 reckoning the distance by the time it
 takes to drive it is able under the im-
 proving highway conditions to reach
 town in almost half the time formerly
 consumed. The practical value of this
 change he is not long in seeing.

Test of Oiling a Roadway.
 The half mile of oiled road on the
 avenue facing the State Agricultural
 college at Manhattan, Kan., has with-
 stood the cold weather satisfactorily so
 far, says the Kansas City Star. In a
 few places the residuum oil did not
 penetrate the required six inches, and
 these places will need further working.
 The work was done last September and
 required 4,400 gallons of oil, at 14
 cents a gallon at the well. The freight
 was about the same, making the total
 cost about \$140. The experiment seems
 to justify the claims made for it by its
 supporters. It is now said that Man-
 hattan horsemen will oil the half mile
 drive in the city park the coming
 spring.

Stone Roads For a Texas District.
 Macadam streets and pikes are now
 being built in Plano, Tex., which is
 in the "black wax" soil dis-
 trict, says a Plano special dispatch to
 the St. Louis Post-Dispatch. The ex-
 ample was set by the Commercial club,
 which built two miles of pike. Now the
 citizens have subscribed money for
 macadamizing the principal streets of
 the town. When that is accomplished
 the pikes will be taken up again, and
 it is expected that between ten and
 twelve miles will be built within a
 short while.

Interstate Road.
 An interstate highway is planned to
 extend from the border of British Col-
 umbia through Washington, Oregon
 and California to the Mexican bound-
 ary, says the Good Roads Magazine.
 It is estimated that this road can be
 constructed at an average cost of
 \$5,000 per mile. King county, Wash.,
 has already come forward with the
 amount necessary to build its portion,
 which is made available during the
 next five years, and if other counties
 act as promptly the road will be com-
 pleted by 1911.

 G. W. Fouts, Postmaster at Riv-

 robbed of all comfort, according to
 his letter which says: "For 20 years

 Electric Bitters, which cured me and
 have kept me well for 11 years."

A Heavy Load to Carry,
 Along with dyspepsia comes nervous-
 ness and general ill-health. Why? Be-
 cause a disordered stomach does not per-
 mit the food to be properly digested, and
 its products assimilated by the system.
 The food is charged with poisons which
 come from the disordered digestion, and
 in turn the poisons are not fed on good,
 red blood, and we see symptoms of nerv-
 ousness, dizziness and general break-
 down. It is not hard work, nor over phys-
 ical exertion that does it, but poor stom-
 ach work. When the poor blood the
 body is not protected against the attack
 of germs of grip, tracheitis and consump-
 tion. Fortify the body at once with Dr.
 Pierce's Golden Medical Discovery—a
 rare combination of native medicinal
 drugs without a particle of alcohol or
 dangerous habit-forming drugs.
 A little book of extracts, from promi-
 nent medical authorities extolling every
 ingredient contained in Dr. Pierce's
 Golden Medical Discovery will be mailed
 free to any address on request by postal
 card or letter. Address Dr. R. V. Pierce,
 Buffalo, N. Y.

Many years of active practice convinced
 Dr. Pierce of the value of many native
 roots as medicinal agents and he went to
 great expense, both in time and in money,
 to perfect his own peculiar processes for
 tonic, alterative and rebuilding agents.
 The enormous popularity of "Golden
 Medical Discovery" is due both to its
 scientific compounding and to the actual
 medicinal value of its ingredients. The
 publication of the names of the ingredi-
 ents on the wrapper of every bottle sold,
 gives full assurance of its non-alcoholic
 character and removes all objection to
 its use of an unknown or secret remedy.
 It is not a patent medicine nor a secret
 one either. This fact puts it in a class
 all by itself, leaving an open wrapper
 bottle wrapper The Badge of Honesty, in
 the full list of its ingredients.
 The "Golden Medical Discovery" cures,
 weak stomach, indigestion, or dyspepsia,
 torpid liver and biliousness, ulceration of
 stomach and bowels and all catarrhal af-
 fections no matter what parts or organs
 may be affected with it. Dr. Pierce's
 Pleasant Pills are the original Little
 Liver pills, first put up 40 years ago. They
 regulate and invigorate stomach, liver
 and bowels. Much imitated but never
 equaled. Sugar-coated and easy to take
 as candy. One to three a dose.
