Anna M. Nelson & Co.

One of the biggest schemes for advertising Oregon has been undertaken in Portland by Phillip Bates publisher of Oregon's Great agricultural Monthly the Pacific Northwest. The proposition is nothing less than the taking of 33 young ladies, one from each county of the state to the Jamestown Exposition which will open May 15th at Jamestown, Virginia. The Exposition is to commemorate the first settlement of the English in the United States which took place in 1607. This historical event in the history of our country is one which gives opportunity for a wonderful exploitation of the great strides which have taken place in the past 300 years and the Jamestown Exposition, from an educational standpoint, will no doubt prove an exceptional undertaking along these lines. One farmers' daughter from each county in Oregon will be taken by Mr. Bates. She will carry a large amount of literature for general distribution along the lines of travel which it is expected our boards of Trade will furnish.

The method of choosing our candidate rests wholly with the farmers' daughters on our county. They are all entitled to compete for the honor. It is a simple proposition depending on the number of subscriptions sent in by the candidates. The cost of the paper is 50 cents a year and from our knowledge is fully worth a dollar. All expenses will be paid and the estimated cost of the trip is over \$10,000. It will prove a wonderful advertisement for our county as Mr. Bates makes no charge for the work he will do for us and we trust his efforts to make Oregon better known throughout the United States will receive the support of every one in our county.
