LAKEVIEW, OREGON, JUNE 28, 1906.

BRO. KOOZER AND THE MINER.

At last New Pine Creek has a newspaper. The Pine Creek Miner was issued from there last Thursday. This venture has been talked of more or less for five or six years, but no definite steps had ever been taken until a couple of months ago when R. E. Koozer took his coat off and went to work at it. Now that the paper is launched, everybody wishes Mr. Koozer success. He is a Lake county raised boy, and like all other boys who have grown up here and entered upon business careers in the midst of his friends, has the good will of the whole people. While Mr. Koozer has not had so very much experience in newspaper work, he got his start in The Examiner office, and every step taken was in the right direction for a successful newspaper man. He learned very rapidly and soon gained the knowledge of newspaper work that inspired him to make the venture in our neighbor town. He has the good will of The Examiner, and to the end that he may succeed, we will divide spaces with him. During the time he was employed in this office he took a liking to the business, and grasped every opportunity to fit himself for just such an emergency as has turned up.

The first issue of the Miner is only an apology for what it is to be, but, as stated in its columns, the paper for the regular issue in full size failed to reach there in time, probably owing to difficulties experienced by all San Francisco firms to promptly fill orders since the earthquake and fire. This week, however, we expect to see the paper come out in 8-page form. Though a small paper, being only 4 columns, it is sufficient to meet the present demands of the place, and we presume as the town grows and the publisher's experience widens any shortage will be supplied.

Present conditions at Pine Creek suggest to us that the field is none too large for the proper support of a newspaper, but we must acknowledge that the enthusiasm shown by the business interests there is individually sufficient to insure a living patronage, and if the mines turn out as indications promise, and the town offers inducements for the establishment of their businesses there cannot be any doubt about the wisdom of the venture.

The Miner is a newsy little paper; its advertisements are well and neatly gotten up, and it broke ground with a sensible and promising salutatory, in which is advocated principles and a policy, if adhered to and carried out by the publisher, is certain to make the paper an important part of the town of New Pine Creek.

The insurance companies of San Francisco are still in hot water. The saying "between the devil and the deep sea," applies fittingly to their case. If they pay all claims, as they should, their finances are reduced to an uncomfortable surplus, and if they don't their reputation is similarly affected, and they are assured that they will be excluded from nearly every other state. The companies are classed in two lots. The "six-bit companies" and the "dollar-for-dollar companies." The latter set bear a much pleasanter name than the former, but their methods of escaping full payment of claims is said to give little, if any better satisfaction than the others.

The Klamath Falls papers protests vigorously the charges made that smallpox exists, in Klamath Falls. They make a big roar about newspapers spreading the news, but neither of the papers of that town charges the other with any part of the "crime." There has been little said about the matter over this way, Lake county people having absolute faith in the Klamath Falls health officials to stamp out the disease in the shortest possible time and allow the least possible spread, which it seems they have done, as soon as the matter was brought to their knowledge. The Klamath Falls papers will learn some day that it is much better to suppress the disease than the report of its existence.

The \$25,000 appropriation bill for the annual traveling expenses of the president is having rough sailing through congress. It is a little hard to see how \$25,000 can be judiciously spent every year for short and limited trips. A man could walk to Paisley in a day and only be out 50 cents for his dinner at Bryan's, or if he owned some of those fine government horses he could make the trip between meals and live on his regular salary when he got there.

Adolph Weber, the boy murderer of Auburn, Calif., who murdered his entire family and burned the dwelling over their bodies to conceal his crime, in 1904, must hang for his deeds. The Supreme Court of the state of California rendered a decision on June 21, confirming the decision of the lower court, which in January 1905, found Weber guilty of murder in the first degree.

From Klamath Falls.

Miss Edna Houston of this city and Miss Snelling of Lakeview arrived here Saturday. The young ladies have been attending St. Mary's Academy in Portland. Miss Snelling continuing on to her home in Lakeview.

Klamath Falls is to have a daily paper—so we are told, with F. P. Cronemiller as the guiding spirit. We extend the glad hand to Brother Cronemiller, but believe he is somewhat premature.

Dr. Demorest has disposed of his Main street property and purchased realty in Merrill, to which place he expects to move after July 4th.

Last week Horace Dunlap purchased about 80 head of cattle from Howard Van Valkenburg, the consideration being \$19.25 per head. The cattle were in fine condition for this time of the year.—Klamath Falls Republican.

Opening of the Crow Reserve.

Billings, Montana, June 1906. The opening of the Crow Indian Reservation commenced here Thursday, June 14, registration having been commenced on that day. The registration is being conducted by Chief Clerk Lewis of the General Land Office and six assistants. Several thousand persons registered Thursday, Friday and Saturday and great crowds are looked for again next week. Registration will continue until June 28th and probably 20,000 people will come to Billings for that purpose during the last week. After the registration the lands will be disposed of under the drawing system, drawing commencing here July 2d.

Missouri Farm for Sale.

A man at Tiffin, Missouri, has one of the best ranches in the state, on which he raised last year, 60 bushels of corn to the acre and other crops in proportion, good five-room dwelling, good barn, with springs in the barn lot, 160 acres of farm land, 40 acres of farm and pasture land, 80 acres of timber land, situated a short distance from railroad, good climate and in first class settlement.

Land all around him sells for \$25 to \$60 per acre. He offers to sell his farm for \$25 per acre for the timber land and \$40 per acre for the farm land, or would consider a trade for property in Lake county. We have a plat of this farm at this office. Write the Examiner for particulars.

West Side News.

J. W. Maxwell, Walter Paxton and John Mulkey in company with a couple of strangers were down on Dry creek Tuesday.

Most of the West Siders are in the hills these days getting out their winter's wood.

George Stevens is busily engaged overhauling the haying machinery at the XL ranch.

Mrs. F. W. Hutchins spent several days in town the first of the week.

The coyotes have held two chicken rodeos at Wm. Carter's this week.

A couple of prospectors wended their way to the Dry creek hills the first of the week.

The jack rabbits, once so prominent on the West Side, seems to be a thing of the past. One can travel through the sage brush all day now and scarcely see a rabbit, thank fortune.

One of the prospectors who spent the winter and spring on Dry Creek has been quite sick of late, but is not convalescent.

Reward for Horses

I will pay \$5.00 Reward for the delivery of any and all unbroken horses found in fields or outside in Lake County, South of the desert, or in Modoc county, California, branded with an old horseshoe and a fresh triangle brand underneath, on both jaws. The horseshoe placed on the jaws the same as in my advertisement in this paper, and triangle so as to cover up the bar, on both jaws.

To be delivered at Lakeview. W. W. BROWN.

Last week The Examiner stated that Prof. Willits and daughter, Docia had gone to Klamath Falls. They only went as far as Bly, where they phoned to Mr. Willits' brother at the Falls, and found out that smallpox was in that town, and as he was going after a piano he had bought in Portland, to be shipped to Klamath Falls, which had not yet arrived, he concluded to return home and wait a while. He stated that there were several cases of smallpox at Klamath Falls but that the authorities thought they had all the cases sufficiently quarantined to prevent a further spread. It seems that had it not been for the carelessness of one of the doctors of the town in acting promptly when he knew that smallpox existed there, and notifying the authorities, there would have been no spread at all. This doctor was aware that a case of the disease existed at a certain "red light" house, but kept the matter quiet until by mere accident the authorities heard of it and quarantined the place, but not until several cases were developed in the ditch camps.

CHANDLER--FIELD.

We understand that a wedding was to have taken place last evening. Two of Lakeview's very popular young people, Miss Otilie Field and George Chandler, were to be joined in matrimony. Miss Field is the daughter of J. S. Field and is a very popular young lady.

Mr. Chandler is the son of S. B. Chandler, the wealthy sheep and land owner of Crooked Creek valley. Young Mr. Chandler is now engaged in clerking in the Ahlstrom Bros. store.

Both young people have many friends who wish them the greatest happiness.

NO TWO MEN ARE ALIKE

There may be a hundred men in this city who have arms the same length as yours—but there is not one other man in the whole county who is the same as yourself in all other proportions. It is simply an impossibility to get a perfect fitting suit by buying ready-to-wear clothes.

We will make a suit to your measure for \$20. You pay that much, or nearly that much for every hand-me-down suit you buy.

Custom-made clothes—store clothes—are torn out by the thousands. They are out and sewed by machinery. That is why you have bought suits heretofore that had their look of newness before you had worn them half a day.

We will make a suit to your measure—for your exclusive wear—that will fit you because it was built for you, and no one else—for \$20. We guarantee the cloth to be an all-wool cloth—the cloth is new and strong—just off the loom—laid pattern—hand-picked, every seam hand-sewed with silk—lined with imported Venetian cloth.

We have selected several patterns, any of which we will make up to your measure for \$20. Unless you express some preference we will mail you a sample of a late English overcoat pattern. This pattern is so new that it will be sold by tailors next year as the "latest."

The background of the pattern is a deep gray, with an almost imperceptible outline of check. The color does not wrinkle and has taken the dye so well that the garment looks like new until it is all worn out. The wool used in weaving this garment was selected with unusual care. There is no short wool in the fabric and no shoddy. The cloth has so fine a weave that some time is soft and pliable. It will not scuff up or get shabby. This cloth cannot be bought from the mill for less than \$3.50 a yard, so after if you bought five hundred yards, we are the Pacific Coast representatives of a syndicate of the largest woolen mills in the world. That enables us to make this unprecedented offer of a suit to your measure for \$20. Send for a sample—fill it in please—see how long and even the wool strands are—note how well the dye has set.

Fill out this coupon and mail to us and we will send you a sample of the cloth. We guarantee that the sample is actually cut from the very bit of cloth from which we make the suit. When you visit Portland, come in and verify this or any assertion we make. If you wish, ask some Portland friend to tell you about the reputation and standing of the Columbia Woolen Mills Co.

It is the simplest thing in the world to have some friend take your measure. We will send you a tape measure free, and instructions how to take a measure for a suit of clothes. Be sure and send for this sample. If you get a suit from this offer, you will be wearing a garment the pattern of which local dealers cannot possibly get in stock before another year. The pattern of our \$20 suit will be sold next year at the latest (if other tailors).
