Entered at the Post Office at Lakeview, Ore., as Second-Class Matter.
TERMS: One Year, \$2.00
Six Months, \$1.00
Three Months, \$0.50
LAKEVIEW, OREGON, JULY 5, 1906.

Roosevelt is disrupting the Republican party, say those would be leaders who never had force of character enough to disrupt anything. Well, if the Republican party can be disrupted by the enforcement of law for rich and poor alike, it ought to be disrupted. When a poor man must serve his term in prison for stealing ten dollars and the trust magnate go entirely unpunished though he steals millions, something needs disrupting. Roosevelt purposes to establish an era of equality, in which all men shall stand upon the same footing before the law, and if the plutocrats do not like it they can get out of the party. The party that nominated and elected Roosevelt is made up chiefly of honest men, not of plutocrats, and when the party has been disrupted and all the anti-Roosevelt men have gone over to the Democracy, there will be enough Republicans left to elect a Republican President.—Oregonian.

A boy came into The Examiner office one day last week and asked for a left-handed monkey wrench for a certain party here in town. The office force was to buy to explain that he was on a phantom errand, and sent him away. Presently he came back and asked for our quad splitter. There is no such a thing about a print shop, but boys are frequently sent to borrow one with the result that he is either loaded down with scrap iron to lug about town or sent running from place to place in search of the article, and never finds it. A boy who goes on these errands scarcely bites the second time, and while he is furnishing amusement for some older lads who, no doubt, have been through the mills, is learning the ways of the world, with the consolation that some day he may play even on some of the coming generation.

Matters in the Mitchell trial for the killing of Creffield, has taken what is feared by Mitchell's friends as a serious turn. Both his sisters have turned against him and the causes for which Mitchell slayed the holy roller are likely to not be brought out strong enough to create the sympathy that was expected to go so far toward his acquittal. If Mitchell is convicted he will have his own sisters to thank for it, say his friends. Holy Rollerism is revived in Seattle, and all the followers of the false prophet are still holding out the belief that he will return, in spirit, if not in body. When they modify their belief to the spirit idea, their fanatical delusions will undoubtedly produce the longed-for spirit.

One of the best times that Lakeview ever showed its visitors has been had this week. The exercises were of a feature new and amusing to all the spectators, and nothing seemed tiresome to the crowd. The orchestra furnished music in the absence of a band, which was highly appreciated by all. Every one speaking of the time they had expressed themselves as being well pleased.

Wm. Selby and wife came down from Summer Lake, arriving here Monday, to take in the Fourth and to visit Mrs. Selby's parents, Mr. and Mrs. Yokam. She will remain here till after haying, while her husband works through haying on the Brattain ranch at Paisley.

The Paris woman who predicted in January that San Francisco would soon meet with a great calamity, and then guessed again after her predictions came true on April 18th, that the city would be completely wiped off the earth by a tidal wave on June 29, has lost her laurels.

Harry Thaw, the murderer of Stanford White, in New York, has been tried by the coroner's jury and bound over to the grand jury on a murder charge. The insanity plea is likely to fail in effect.

A. L. Craig, general passenger agent of the O. R. & N. Co., has severed his connections with that Company, to accept the position of passenger traffic manager of the Northern Pacific with headquarters at St. Paul.

The Jury to try the case of George Mitchell, the slayer of Creffield, the holy roller, was secured on the 25th of last month, after three days of examining talesmen.

Considerable money has changed hands during the races so far, and the betting keeps up. Good races are expected the last days of the meet.

Chairman Shouts of the Panama canal commission believes the canal will be finished in eight years.

Baptist Association.

The following proceedings of the Baptist Association recently held at Pine Creek was contributed to the Pine Creek Minor by Rev. A. F. Simmons:

The thirty-third annual session of the Eastern Baptist association of Oregon and California closed Sunday, June 24th. It met with the first Baptist church of Goose Lake, at New Pine Creek, Oregon. Messengers were in attendance from Lake City, Silver Lake, Lakeview and the 1st and 2nd churches of Goose Lake. Klamath Falls was represented by letter only. The reports from the various points of the field shows a very promising outlook for our Baptist cause. Our meetings were well attended at every service. A revival spirit was with us from the beginning. We had the very best attendance and respect shown to us from every one. Elder H. Smith was chosen Mod. To succeed himself and presided over the body during its session. Bro. T. B. Vernon was elected clerk. Arrangements were made to secure Elder C. P. Bailey as our missionary on this associational field, to begin work October 1. Reports from the churches show a condition of growth, especially the first church of Goose Lake and the Lakeview church, from which were reported 50 baptisms during the year. Everything seems to indicate the dawn of a forward move in religious work. The next session will be held with the Lake City church of Surprise Valley, Thursday, before the 2d Sunday in June, 1907 and we can only hope their session will be of the same nature as ours, viz: Blessed of God and honored of men.

On the whole our session was said by all to have been one of the very best that has ever been held in this Associational field. We can only say: Blessed be the name of our God who doeth all things well.

Bielers sells good Lunch Goods.

Bidwell Indian School.
The Ft. Bidwell Indian school will close on Wednesday, July 25, with appropriate exercises.

The program for the exercises is out, and the superintendent invites the public to attend, also to be present at the inspection of the buildings and grounds at 9:12 o'clock on the morning of July 25.

At 2 o'clock a ball game will be pulled off and an entertainment at 8 in the evening.

Following is the program for the entertainment:

| Violin Solo | 24 Darkies |
| Cake Walk | Song, Home Sweet Home |
| School. | |

Bielers sells good Shoe Dressing.

Mr. Cross, the stage agent arrived here last Wednesday, preparatory to taking charge of the stage routes here on the first of July. He had quite a number of new stage coaches shipped in, some of which he took on to Lakeview and other points north. Mr. Cross has the mail contracts over about all the lines in this part of the county. He has the contracts from Madeline to Alturas and Lakeview, from Alturas to Cedarville, from the railroad to Ft. Bidwell and from Lakeview to points north of there. Some of the coaches are built for four and six horses and one or two for eight. This looks as if it was expected that a great deal of business would be done over the lines this year.—Alturas Republican.

Bielers sells good Dry Goods.

C. C. Harris, while talking about the effect of the forest reserve at The Examiner office Monday stated that if the government "monkeyed" with him on the wood proposition and undertook to make him clear off land around where he got wood, he would put in an electric light and heating plant and cut out the wood business. He has 100 inches of water with a thousand foot fall, pouring over the high rim above the house, that will furnish him with all the light and heat he can use. He says he'll "do her too."

Bielers sells good Spices.

Mr. and Mrs. A. W. Manning expect soon to leave Lake county for Spokane, Washington. Mr. Manning has not yet decided what he will engage in, in his new location.

Hobos Coming North.

The N. C. O. has been employing quite a number of men on its extension and now that men are scarce, the problem is not easy of solution.

When men are employed at Reno, they with their effects, are given transportation to Madeline. Such a man's belongings usually consists of a pipe with the strength of Hercules, a plug of ancient tobacco, and a small roll of blankets. This is where the tramp shines by imitation. He comes, he sees, and is quick to grasp the opportunity to bum a ride. He gathers up a few old barley sacks and rolls and wraps them in a small piece of canvas so as to resemble a bed. With this junk swung onto his back he appears at the employment agency at Reno and asks for work at Madeline. To his delight he is offered the work and given a pass over the road. He rides in a car jeweled with a number of other gin soaked, tobacco-seasoned, blossom-nosed, members of the fraternity; and he rejoiceth exceedingly. Upon arriving at Madeline he throws his bunch of burlap at the depot and strikes out to bum some grub, with never a thought of working for the railroad, as he agreed.

From reports we learn that quite a number of such rolls of mock bedding now grace the depot grounds at Madeline, and that a large number of such adventurers are in the vicinity, while a number of them are drifting this way.—Alturas Republican.

If the country south of us fills up with a lot of hobos, we are sure to get some of them. Every farmer, and everybody else, should watch out for those kind and make it as difficult for them to secure "grub without work" as possible. There will be plenty of work this summer and the man who is traveling hunting work, ten chances to one he wouldn't work if he had a chance at the best wages. The man who is able to work and won't has no claim on the country for a living and should not be assisted in his vagrancy by the generosity of Lake county people.

Bielers sells good Agate ware.

Too Timid.
A young lady visiting in town dropped into one of our stores last Saturday and said, "it is my desire to obtain a pair of circular elastic appendages capable of being contracted and expanded by means of oscillating burnished steel appliances, that sparkle like particles of gold set with Alaska diamonds and which are utilized for keeping in position the habiliments of the lower extremities, which inate delicacy forbids me to mention." It is said that "Jack" handed out a pair of common garters and fainted.—Merrill Record.

(The Merrill boys are too timid. Why if that had been one of the Foxy Grandpa's that shine behind the counters in Lakeview he wouldn't have fainted at all.)

Bielers sells good Gum.

Klamath News.

From the Record.)
Foreman Ira McCall was in town Saturday from the Gerber-McKendree sheep camp. He expects to start for Lakeview in a few days with the ewes of the bunch and upon his return will take the others of the band to Sacramento market.

Last week Horace Dunlap purchased about 80 head of cattle from Hom Howard Vanvalkenburg the consideration being \$19.25 per head. The cattle was in fine condition for this time of year.

Chas. Horton, the Bonanza cattle man, and sister-in-law Miss Callahan, passed through town Monday enroute to Montague.

Lewis Gerber arrived in town Monday after an absence of several weeks.

After July 8 no Sunday trains will be run on the Klamath Lake railroad. This was the order posted in this city Tuesday, by General Manager E. T. Abbot, who was here on that day. As soon as the change was made known he was besieged with protests, but he was inexorable and stated that the change was made on the direct order of Mr. Weyerhaeuser and would go into effect on that date.—Klamath Falls Republican.

We all love birds, but few know how to care for them properly. Every one owning a bird will therefore be interested in a book containing over 150 engravings and a lithographic plate showing all the different kinds of fancy canaries in their natural colors. It gives full information in regard to song and fancy canaries, and how to breed them for profit. Hints on the treatment and breeding of all kinds of cage birds, with descriptions of their diseases and the remedies needed to cure them. All about parrots, and how to teach them to talk. Instructions for building and stocking an aviary. The most complete book of the kind ever published, irrespective of price. Mailed to any address on receipt of 15 cts. by the Associated Fanciers, 400 N. 3d St., Philadelphia, Pa.

NO TWO MEN ARE ALIKE

There may be a hundred men in this city who have arms the same length as yours—but there is not one other man in the whole county who is the same as yourself in all other proportions.

It is simply an impossibility to get a perfect fitting suit by buying ready-to-wear clothes.

We will make a suit to your measure for \$20.

You pay that much, or nearly that much for every hand-me-down suit you buy.

Custom-made clothes—store clothes—are turned out by the thousand. They are cut and sewed by machinery.

That is why you have bought suits heretofore that did not fit you because they were made for the average man.

We will make a suit to your measure—for your exclusive wear—that will fit you because it was built for you, and no one else—for \$20.

We guarantee the cloth to be an all-wool cloth—the cloth is new and vigorous—just off the loom—latest patterns—hand padded—every seam hand-sewed with silk—lined with imported Venetian cloth.

We have selected several patterns, any of which we will make up to your measure for \$25. Unless you express some preference we will mail you a sample of a late English overline pattern. This pattern is so new that it will be sold by tailors next year as the "latest."

The background of the pattern is a deep gray, with an almost imperceptible overline or check. The color of this fabric does not show dark easily, does not wrinkle and has taken the dye so well that the garment looks like new until it is all worn out. The wool used in weaving this garment was selected with unusual care. There is no short wool in the fabric and so shoddy. This cloth cannot be bought from the mill for less than \$1.50 a yard, no matter if you bought the thousand yards. We are the Pacific Coast representatives of a syndicate of the largest woolen mills in the world. That enables us to make this unprecedented offer of a suit to your measure for \$20. Send for a sample pull it to pieces—see how long and even the wool strands are—note how well the dye has set.

Fill out this coupon and mail to us and we will send you a sample of the cloth. We guarantee that the sample is actually cut from the very bolt of cloth from which we make the suit. When you visit Portland, come in and verify this or any assertion we make. If you wish, ask some Portland friend to tell you about the reputation and standing of the Columbia Woolen Mills Co.

It is the simplest thing in the world to have some friend take your measure. We will send you a tape measure free, and instructions how to take a measure for a suit of clothes.

Be sure and send for this sample. If you get a suit from this offer, you will be wearing a garment the pattern of which local dealers cannot possibly get in stock before another year. The pattern of our \$20 suit will be sold next year as the latest (by other tailors).

Columbia Woolen Mills Co., Portland, Or.

Please send me free, sample of late pattern English overline goods, from which you agree to make a suit to measure for \$20. Also send me, free, a pocket tape measure and blank, and instructions for taking measures. This does not obligate me to buy a suit unless I wish.
