GOOD ORDER CLUB.

Plan of a Neighborhood to Keep a Elock Clean,

The efforts of Kansas City's mayor for a clean city are to be re-enforced by at least one local organization, says the Kansas City Star. A good order einb is organizing in the block on Cherry street, between Thirteenth and Fourteeuth. Oscar Sachs, insurance agent and householder in the block, is the organizer.

Mr. Sachs has long been interested in the clean city project. He has naturally kept his premises clean of loose papers, and he has urged children in L. P. CONN the neighborhood to keep things in order. He recently addressed this letter to every householder in the block;

Dear Friend and Neighbor Our new mayor. Mr. Beardsley, and the city offi-cials make every effect to make our city a clear city, a city in which to live shall be a pleasure. To accomplish this they need the co-operation of all well meaning citizens who have the welfare of our city OFFICE Day Building.

theart.
Let us start the new, neighbors, in ar block on Cherry street, between Thirsenile and Fourieenth streets, and do our name to accomplish the above named purpose-namely, to keep our block clean and free from papers and all other refuse that heretofore has been carelessly thrown on street or swept by the wind in our

Let us pick up every piece of paper that s equally necessary to you. The 'up to date man' will provide street, but burn it up or keep on ash pile or in surbage can until it can be properly removed. By such means we will set our other follow citizens a good example and make Kunsas City a greater and a model

P. S.-Kindle hand this letter to all ten-

"I have great hopes for my 'clean up club,"" said Mr. Sachs, "I have for many years been attentive in a small way to the work of keeping my own personal part of Kansas City clean. Now there is an additional incentive. Today I glanced down the alley back of my house. It was clean and more orderly than it had been for years. It was cleaned by the city-swept by the policy of the new mayor. The sight encouraged me. I think my neighbors and I should make a special effort to assist the city administration in this admirable work of making a clean

SUBURBAN BETTERMENT.

Indertaklags For an improvement Society to Contemplate,

Local history is to be recorded by a town improvement society, notable sites are to be marked and interesting as well as beautiful architectural legacles from the past preserved. The school and its corroundings are to be beautified, and the churches, as semipublic structures, should exemplify civic virtue in the outward aspect of their property. The fixtures of the streets-their name signs, guideposts, the lighting apparatus, the trolley pole, the town bulletin board-all these may well enlist the society's enthusiasm, for there are artistic designs to be secured Prize competitions may be inaugurated to arouse the dormant interest the ability to design artistically, and in some cases—as in that of the troi ley and light pole-a design has now happily been already made, and there is need only that the proper apparatus be secured. Finally there are the pri vate houses with their gardens, these giving to the town their most persist ent characteristic. The society has no right to intrude upon the home, but many homes will be comprised within the direct influence of its membership, and it may yet more broadly exercise some persuasiveness

This is a long list of undertakings which it would be entirely desirable for the improvement society to contemplate. It comprises the undertakings that are best worth while, and, offering scope for every conceivable interest in the membership, it ought to leave no energy for a misdirected zeal in cleaning streets, inviting skyscrapers, mowing the lovely growth on rural roadsides, magnifying the railroad's civic prominence, tearing up good board walks, cutting down trees on the "business" streets and doing various other unwise things through loyalty to a city instead of to a town ideal .-American Homes and Gardens,

Progress Made In Louisville,

The efforts of the Commercial club and of the local members of the American Civic association to arouse interest in a more beautiful and picturesque Louisville are meeting with success. The club arranged a series of lectures accompanied by stereopticon views on the work that has been done in other cities, which are being given in the Male High school building. These views were taken mostly in Dayton, O., and the vast improvement in the appearance of the town is shown by the "before and after" method. One picture shows a desolate yard of trodden ground and the next a beautiful flower garden which has sprung into life through the agency of a little plowing and sowing connected with the ever ready help of nature. School buildings with beautiful vines and plants were shown, and the object was to arouse a strong desire in Louisville to have as many and as pretty flowers and shrubbery as any city in the country. Few attended these lectures and saw the scenery of Dayton without a feeling of Jealousy.

Power of Example.

Clean up the street in front of your residence or place of business and your neighbor will do likewise, says the Memphis News-Scimitar. There is nothing more true than the old adage, "One improvement begets another."

DIED SUDDENLY

OF HEART DISEASE.

How frequently does a head line similar to the above greet us in the new papers. The rush, push and strengousness of the American people has a strong tendency to leaf up to valvular and other fleethers. regular action, palpitation, dizziness smothered sen-abions and other distress

regular action, palpitation, dizziness, smothered sensations and other distressing symptoms.

Three of the prominent ingredients of which Dr. Pierce's Golden Medical Discovery is made are recommended by some of the leading writers on Materia Medical for the cure of just such cases. Golden Seal root, for instance, is said by the UNITED STATES DISPENSATORY, a standard authority, "to impart tone and increased power to the heart's action." Numerous other leading authorities represent Golden Seal as an unsurpassed tonic for the muscular system in general, and as the heart is almost wholly composed of muscular tissue, it naturally follows that it must be greatly strengthened by this superb, general tonic. But probably the most important ingredient of "Golden Medical Discovery" so far as its marvelous cures of valvular and other affections of the heart are concerned, is Stone root, or Collinsomia Can., Prof. Wm. Paine, author of Palne's Epitomy of Medicine, says of it:

"In not long since, had a patient who was so much oppressed with valvular disease of the heart that his friends were obliged to carry him up-stairs. He, however, gradually recovered under the influence of Collinsonia (medicinal principle extracted from Stone rood, and is now attending to his business. Herotofore physicians knew of no remedy for the removal of so distressing and so dangerous a malady. With them it was all guess—work, and it fearfully warned the afflicted that death was near at hand. Collinsonia unquestionably affords relief in such cases, and in most instances effects a cure."

Stone root is also recommended by Drs. Hale and Ellingwood of Chicago, for

such cases, and in most instances effects a cure."

Stone root is also recommended by Drs. Hale and Ellingwood, of Chicago, for valvular and other diseases of the heart. The latter says: "It is a heart tonic of direct and permanent influence."

"Golden Medical Discovery," not only cures serious heart affections, but is a most efficient general tonic and invigorator, strengthening the stomach, invigorating the liver, regulating the bowels and curing catarrhal affections in all parts of the system.
