The Illinois Central
maintains unequalled service from the West to the East and South. Making close connections with trains of all transcontinental lines, passengers are given their choice of routes to Chicago, Louisville, Memphis and New Orleans, and through these points to the far east.

Prospective travelers desiring information as to the lowest rates and best routes are invited to correspond with the following representatives.

B. H. Trumbull, Commercial Agent, 142 Third St., Portland, Ore.
J. C. Lindsey, Trav. Passenger Agent, 142 Third St., Portland, Ore.

Popular and Picturesque.

The only thing necessary to make the Denver and Rio Grande the most popular, as it has ever been known the most pleasant and most picturesque way to cross the continent, has come about. This is the establishment of through sleeping car service.

In connection with the O. R. & N. a through Pullman Standard Sleeper is now run from Portland to Denver, leaving Portland at 8.15 p. m., arriving at Salt Lake at 8.40 a. m. the second morning, leaving Salt Lake at 3.50 p. m. and arriving at Denver 4.20 p. m. the following day. This schedule gives passengers seven hours stop-over in Salt Lake, affording an opportunity to visit the Mormon Capital as well as a day light ride through the grand scenery in the world.

For reservation in this car and for illustrated booklets picturing the scenery contiguous to the Denver & Rio Grande, proving it to be the "Scenic Line of the World," write to W. C. McBride, General Agent, 124 Third street, Portland.

If You are not Particular

don't travel over the Illinois Central, as any old road will do you and we don't want your patronage; but if you are particular and want the best and mean to have it, ask the ticket agent to route you via the ILLINOIS CENTRAL, the road that runs through solid vestibule trains between St. Paul, Omaha, Chicago, St. Louis, Memphis, and New Orleans.

No additional charge is made for a seat in our reclining chair cars which are fitted with lavatories and smoking rooms, and have a porter in attendance.

Rates via the ILLINOIS CENTRAL are the lowest and we will be glad to quote them in connection with any transcontinental line.

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c. size; Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

Announcement.
To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. Cheney & Co., Toledo, O.

Sold by Druggists, 75c.

PLANNING A HANDY BARN

In the accompanying barn plan shall occupy one side of the barn, but may be turned to suit convenience. The plan allows stable for cows, 25 by 13, passage, 5 by 13; horse stalls (four), 20 by 13. As you enter the barn a stairway at the right takes you to the

loft. Next comes the carriage room, 6 by 22 (stairway is three feet wide), then the grain room, opposite the passage and equally convenient to horses and cows, 5 by 9; next the harness room, 7 1/2 by 9. The harness room should have a closet for fancy driving harness, robes, blankets, etc. A wash stand would also be convenient. Low but not less than an implement room, 12 1/2 by 9, which every farmer should have. Here may be stored a number of small implements, wire from the weather. This room may have a work bench—should have if you have a shop. A driveway ten feet wide runs the entire length of the barn.

It will be seen that I have planned for lots of daylight. When the universe is brimful of it it seems too bad to shut it out. It is sanitary, too, says a Rural New Yorker correspondent, commenting upon this barn plan, submitted by himself. By all means lay the floor under the carriages. By keeping them on the ground you save much shrinking of rims and expansion of blacksmith's bills. As to cost, if one can get his frame out for \$200 and will work hard he ought to build a barn 32 by 50 for \$800 and have something left. Discharge your carpenters when the frame is up if you are at all handy with tools. Putting in windows, building doors, etc., isn't such an undertak- ing as you might think. Make the barn warm, light and airy, but not drafty.

Faith in Cattle.
We expect to see better things in the beef cattle industry, but we are not counting on the settlement of the range country to help bring them about. We do expect that the development of the sheep industry on ranges and farms and the attractions of the hog business on the farms will cut into the production of cattle to such an extent as to have a beneficial effect on prices. In some sections sheep have almost replaced cattle. If the ranges are to produce fewer cattle then the farms must produce more or the supply decrease. It is doubtful whether the farms are producing more cattle, however. Certainly they are selling calves quite freely. And equally certain is the tendency in the corn belt to raise fewer cattle and depend on the range for supplies. If all these conditions continue the country will inevitably come to a cattle shortage.—National Stockman.

This handsome Shorthorn bull, Whitehall Marshall, was champion at Kansas City and Springfield in 1906 and is owned by G. F. Harding of Wisconsin.

Well Ordered Pastures.
A well ordered farm should have a hog pasture, two for the cows and colts and one for the calves. If there are a few sheep they may run with the cows. If much of a flock, they need a separate lot. Often the calves and hogs use the same pasture. This will do, but it is not desirable. It is better, though not necessary, to have the cows and colts separated. The playfulness of colts is apt to distress the calves.—Kimball's Dairy Farmer.

An Object Lesson.
To prove that a harness will move a load if the start is slow and steady, but will not move it if started with a jerk an exchange suggests the following proceeding: Hitch a piece of ordinary twine to a weight of about twenty pounds. Pull the cord slowly and steadily. The weight will move. Now try to move it by applying the force with a quick jerk. The cord breaks and the weight is not moved.
