Popular and Picturesque. The only thing necessary to make the Denver and Rio Grande the most popular, as it has ever been known the most pleasant and most picturesque way to cross the continent, has come about. This is the establishment of through sleeping car service. In connection with the O. R. & N. a through Pullman Standard Sleeper is now run from Portland to Denver, leaving Portland at 8.15 p. m., arriving at Salt Lake at 8.40 a. m. the second morning, leaving Salt Lake at 3.50 p. m. and arriving at Denver 4.20 p. m. the following day. This schedule gives passengers seven hours stop-over in Salt Lake, affording an opportunity to visit the Mormon Capital as well as a day light ride through the grandest scenery in the world. For reservation in this car and for illustrated booklets picturing the scenery contiguous to the Denver & Rio Grande, proving it to be the "Scenic Line of the World," write to W. C. McBride, General Agent, 124 Third street, Portland.

If You are not Particular don't travel over the Illinois Central, as any old road will do you and we don't want your patronage; but if you are particular and want the best and mean to have it, ask the ticket agent to route you via the ILLINOIS CENTRAL, the road that runs through solid vestibule trains between St. Paul, Omaha, Chicago, St. Louis, Memphis, and New Orleans. No additional charge is made for a seat in our reclining chair cars which are fitted with lavatories and smoking rooms, and have a porter in attendance. Rates via the ILLINOIS CENTRAL are the lowest and we will be glad to quote them in connection with any transcontinental line. B. H. Trumbull, Commercial Agent, 142 Third Street, Portland Ore. J. C. Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

GULLIBILITY OF WOMEN.

Ask Mrs. Chadwick What She Thinks About Their Susceptibility to the Wiles of Sharpers.

Women naturally are rather sensitive about being officially or otherwise classed with idiots and criminals. Equally naturally they resent the implication that they are particularly gullible and hence easily susceptible to sharpers who would play upon their highly organized nervous temperaments. In a recent attack upon the patent medicine business, it was implied that women are the victims of patent medicine advertisers, because they are so much more gullible than men. Well, perhaps they are more easily fooled, but we doubt if Mrs. Chadwick, if she were asked her opinion, would say so. As a matter of fact, women with their wonderful intuitions are apt to be pretty good judges of what is so and what is not so.

For this reason, women are not likely to be long imposed upon by misrepresentations concerning patent medicines or anything else, and when a patent medicine business has steadily grown for thirty-eight years it necessarily means that it has won the confidence of the women as well as of the men who have been and are its grateful patrons. Such a business as that described here is conducted by Dr. Ray V. Pierce of Buffalo, whose name is a synonym for honesty and honor in the business and professional world. Dr. Pierce has a great establishment in Buffalo, which is one of the chief points of interest to visitors in that city. It consists of a large laboratory for the manufacture of the medicines which bear his name and a hospital in connection therewith for the treatment of various ailments. This hospital is taxed to its full capacity at all times by patients who come from all parts of the country for treatment by the large staff of graduated specialists. In the laboratory the famous Dr. Pierce remedies are compounded from pure roots, herbs and barks of known properties and for special purposes. The charge was recently made that alcohol was the principal ingredient of these medicines. The journal which made that baseless charge was promptly sued for \$200,000 damages. An immediate retraction was the result.

Dr. Pierce is not only one of the principal manufacturers of patent medicines in the world but he is also one of the largest advertisers. He knows that the essence of dealing with the public is to let the public know that you have something which it wants, which it needs. But Dr. Pierce also knows that truth and honor must be the basis of all business and he permits no misrepresentations in any department of his business, not even in the advertising. Thousands of men and women have found the truth of this statement in their dealings with Dr. Pierce, a large part of whose business is conducted by correspondence. The charge has been made that this feature of the patent medicine business is a fake, as well as other features, that letters from patients do not receive attention from physicians, that they are made the subject of flippant comment by clerks who read them and prescribe remedies. This charge is absolutely untrue so far as Dr. Pierce's business is concerned. He employs a large number of highly trained physicians and surgeons for this work and they give quite as careful attention to all cases coming to them as does the private practitioner. All letters are treated with the utmost confidence and are not subject to miscellaneous inspection. The proprietary remedies are not prescribed for all patients, but prescriptions are given just as any doctor would give them. And the names and addresses of patients are not sold to others for sending out circulars.

In short, Dr. Pierce's business is what it is because Dr. Pierce has always done just what he advertises to do and because his medicines are just what they are advertised to be.

Every Landowner Should Help Beautify the Highways.

Attention should not be confined to the traveled roadway to the total neglect of the roadside, says the Auto Advocate. The importance of beautifying the unused margins of the road allowance is a matter which should be impressed upon every landowner. However good the road, it does not fully serve its purpose if the roadside is a tangled mass of weeds, brush, rubbish and tin cans. A farm usually partakes of the condition of the road leading to it, and the state of the roadside is apt to be an index to character of the farmer. Rural England owes much of its beauty not only to its good roads, but also to the well kept roadsides, the magnificent trees and beautiful hedges. It is a power that creates a love of country and an unflinching patriotism. Grade and level the roadside as well as the road. Establish a good sod. Keep down the weeds. Let the fences be neat and tasteful. Plant groups of trees and shrubbery. Utilize any springs available near the road to make drinking places for horses and cattle. In doing all this preserve nature at her best, making the most of natural advantages.

The roadsides cannot, need not, be converted into lawns, but they need not be the unsightly emblems of chaos that we so frequently find them. In building our roads the original beauty of nature is destroyed, and we owe it to ourselves to make such atonement as we can by restoring a certain amount of order and ornament.

Road Improvement For Poor Towns. The board of supervisors of Sullivan county, N. Y., are urging an amendment of the state highway law by which towns of less than \$1,000,000 valuation will receive from the state an amount of money for highway improvement equal to the amount raised in the town instead of 50 per cent, as under the present law. This, it is claimed, would help the poorer towns to improve their roads without unduly burdening them.
