

Lake County Examiner

VOL. XXVII.

LAKEVIEW, LAKE COUNTY, OREGON, THURSDAY, SEPT. 20, 1906.

NO. 38.

BIG STOCK SALES HERE LAST WEEK.

Swanson Leaves \$150,000 For Sheep And Cattle.

STOCK, LAKE COUNTY'S WEALTH

Several Thousand Head of Sheep
And Cattle Leave for
the Market.

The following recent sales of Lake County cattle and sheep have been made since the last issue of The Examiner: C. Swanson purchased the 70 beef cattle, numbering in the neighborhood of 1000 to 1200 head. This and, together with the 77 and Cressler cattle, numbering about 1800 head, mentioned in The Examiner last week, makes Mr. Swanson about 3000 head of beef in Lake county this trip. Besides these, he purchased a bunch in Langella valley. Mr. Swanson also bought 30,000 mutton sheep. He left for the west Sunday morning.

Phil Lynch sold 1500 lambs to Swanson. Mr. Swanson said of the price paid: "They were exceptionally fine lambs, and Mr. Lynch sold them to me so very, very cheap". In speaking of the beef cattle purchased by Swanson he said they were the best cattle in the country; no other large bunches like them anywhere.

Holbrook Bros. bought the Boydston bucks, and L. G. Thomas the Chandler bucks, the two bunches numbering about 60 head.

Holbrook Bros. have left, one band of 2355, ewes which they will continue to run.

Holbrook Brothers sold 1800 mixed lambs to M. A. Lesbos, the Reno buyer, at \$2.50 per head.

Henry Newell sold about 300 choice wether lambs to Mr. Lesbos for \$2.50. Pete Grob also sold about 300 mixed lambs at \$2.50 to Mr. Lesbos.

W. U. Scott, L. Adams and J. J. Fleming, of Eagleville, have been here several days past, gathering and starting their sheep, purchased in this county earlier in the season, also buying other bands.

Perry McDaniels purchased the 300 ewes of Wayman Withers, advertised for sale in The Examiner a couple of weeks ago, paying \$3.50 per head for them.

We are reliably informed that C. Swanson left \$150,000 in Lake county on his trip here, paid for cattle and sheep.

H. L. Chandler and Boydston Bros. have sold all their sheep, lambs at \$2.35 per head and older sheep at 3.50.

Wm. Bradford sold his lambs, numbering about 500 head to Geo. Fitzgerald.

Wilcox Brothers sold 1800 yearling ewes for \$1 per head. Mr. Lesbos made this purchase.

Mrs. Anna Follett.

The following was taken from the Pine Creek Miner, regarding the illness and death of Mrs. Arthur Follett, of Pine Creek briefly mentioned in The Examiner last week:

Anna Follett, nee Easter was born in 1882 in an Eastern State, coming to New Pine Creek late in the 90's.

While here her affections were bestowed upon Arthur Follett, the oldest son of our townsman A. E. Follett, and Sept. 13, 1901 their two hearts were united together in the bonds of holy matrimony. The golden links were never severed until the hand of cold death rapped at their door. The Creator provided for their welfare by blessing this union with two golden haired babes, Mabel aged 4 and Chester aged 2.

Decensed was taken suddenly ill about two weeks ago with a complication of diseases, and until a short time prior to her death, her condition was not considered critical, but when the dreaded typhoid got the victim within its fatal clutches death was the only relief.

There was quite a rush for the land office the first of the week, incident to the opening to entry of several townships of land in the northern part of the county. Several rigs loaded with people from Paisley Tuesday night, arriving here about 4 o'clock Wednesday morning.

Activity in the Mining Districts.

W. A. Massingill went to the Lost Cabin mining district Monday to oversee the assessment work on the Ft. Warner Mining Co.'s claims.

Most all the interest has centered now on working out assessment, as the time for this work is short and so many of the claimants have pooled their interests and a certain amount of work has to be done to hold the claims. Labor is very scarce, thus making it difficult to secure sufficient help to do the required work. A shaft 4 x 6 feet square and 10 feet deep is required on each claim. To those outsiders who are somewhat pessimistic about the new mines and expect the \$20 gold pieces to come rolling out of a well developed mine with a thousand foot shaft, the next day after its discovery, will no doubt be somewhat disappointed with the slow progress being made in the new district occasioned by the necessary assessment work. Mr. Massingill tells us that his company intends to take three of the best claims in their group and develop them as soon as the assessment work is done on the whole lot.

Mr. C. W. McClain who passed through Lakeview last week with his family on their way to Eugene from Burns, informed us that he had visited all the so-called desert mines, those at Denio, and others of the same character, and finds them similar in formation. He believes the outlook for the porphyry dike mines is as bright on the surface as the ledge croppings.

While in the well defined ledge you have the ore corralled, it may play out at any time. With the porphyry surface more rock must be worked, but different from the ledge ore, it all carries gold in more or less quantities, and has the same chance of running into a rich, well-defined ledge that the ledge croppings has when diggin is reached.

Rev. Sanford Snyder.

Rev. Sanford Snyder preached his farewell sermon in Lakeview last Sunday evening. Long before the time for services to begin the congregation began pouring in, and by church time the house was well filled. Every one was well pleased with the sermon and as his closing remarks were heard the congregation, more than ever, began to feel anxious about the future of this charge. Not doubting, of course, that the presiding Elder would do a good part by Lakeview, but as Rev. Snyder said of his own future, a certain knowledge of ones future welfare was more gratifying than fondest hope and explicit faith. He had faith in the Oregon conference taking care of him and was willing to abide by that faith, yet, at the same time, there was bound to be anxiety and a degree of unrest until the appointments were made. Rev. Snyder has filled this charge well and ably; he has made many friends, and while his strict discipline and high regard for frankness in speech and truthfulness in action has cut to the quick in some places, where real honesty and truthfulness seeks its reward his actions have been upheld. If he has made any mistake it was not an error of the heart. If he has criticized unjustly, such criticism came from an honest and well-meaning heart. The report of the last years' work, published in this issue, shows that Rev. Snyder leaves the church in an excellent condition, and that his two years work in Lakeview has resulted in good.

Monday morning both Rev. Snyder of this place and his son, Rev. Fred Snyder of the Paisley M. E. church departed with their families for Portland to attend the annual M. E. Conference to be held there the last week in September.

Another Timber Land Rush.

Another big rush for timber land is on. A large amount of land in this district that was withdrawn from entry some time since is to be restored next week, and a large number of timber land locators are now on their way to the land office at Lakeview.

It is said numerous schemes are being worked in connection therewith.

One report is that one enterprising locator telegraphed out from Lakeview that the land in question had again been withdrawn from entry, in order that he might gain time in which to locate applicants for claims.

—Klamath Falls Daily Herald.

UPRISING IN CUBA STIRS AMERICANS

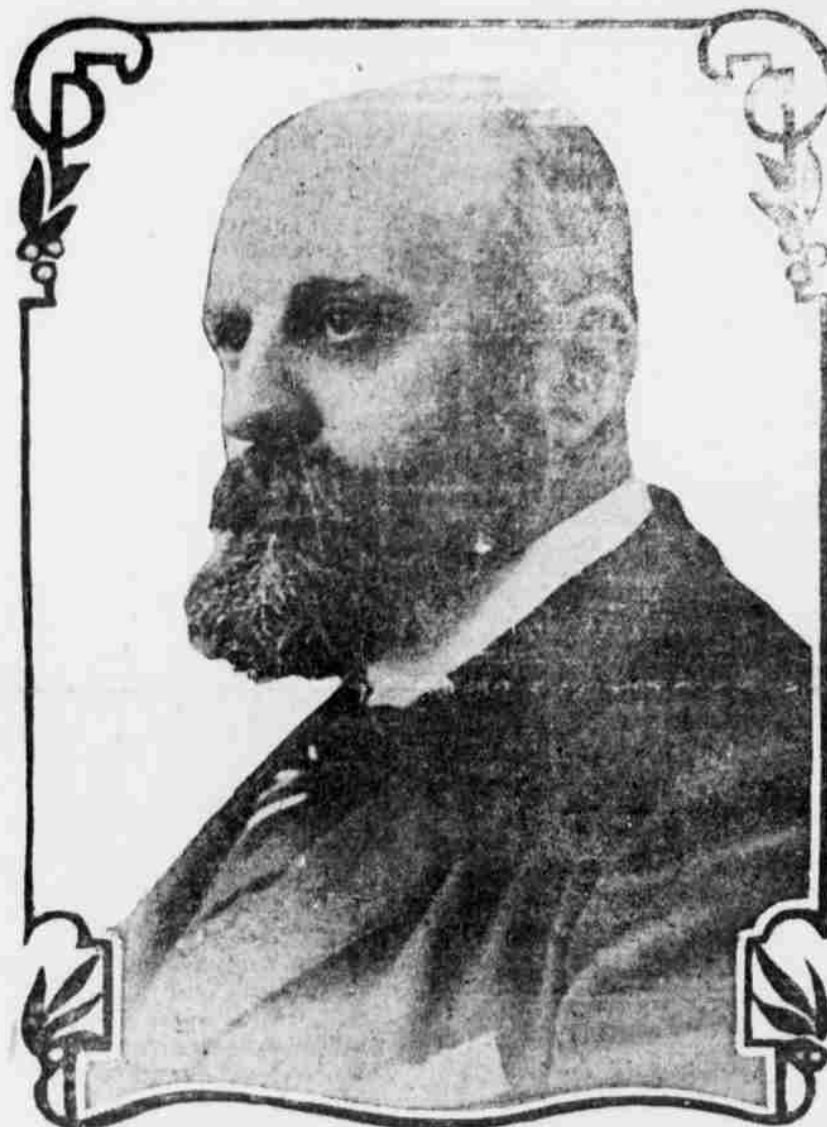

President Roosevelt Sends Letters to President of the New Government.

The island of Cuba is in a state of war. Government officials of the United States are most apprehensive of the result. After a protracted conference with Secretary of State Bacon and Secretary of the Navy Bonaparte, President Roosevelt addressed an important communication to Cuba and arranged to send Mr. Taft and Mr. Bacon to that island on Saturday to make a through investigation of conditions there and lend their influence to restore peace.

The communication was addressed

States, Senor Quesada.

It is an impassioned plea to Cuba to realize her responsibility as a self-governing Republic and to restore peace on the island. Attention is called in no uncertain language to the responsibility which the United States bears to the island and the certainty that that responsibility will necessarily be exercised, should peace not be preserved. The President says he has certain information that the peace of the island is menaced and American property has been destroyed to the Cuban Minister to the United

PRINCE PAUL DOLGOROUKOFF.

Prince Paul Dolgoroukoff was vice president of the dispersed Russian Douma, and when the last meeting of this first parliament of the czar's empire was held in Viborg, Finland, he was chosen chairman of the permanent executive committee. This committee was selected after the order for the dispersal of the body had been given, but it at once put itself in touch with organizations favoring popular liberty and arranged for the publication of the manifesto issued by the outlawed parliament. It is continuing this work.

Pastor's Report of Church.

Report of Pastor of Methodist Episcopal Church of Lakeview.
Dear Brethren:—The following report is a summary of work of the Methodist Episcopal Church of Lakeview charge, for the past two Conference years, beginning Oct. 1st, 1904, ending Sept. 10th, 1906.

Received by letter and otherwise, 37. Withdrawn 2. Died, 5. Dismissed by certificate and otherwise 18. Total 25 Net gain in membership 12.

Sermons preached and other services (not including the Sunday School) 340. Money raised for all purposes including Pastors salary, Church and Sunday School expenses, payment of outstanding debts, and building and improvements, \$2,808. In closing this my last report I wish to record my gratitude to Our Heavenly Father for blessings received. And my thanks to the Membership of the church for sympathy and help. To the generous friends of the church for liberal support. To the press for many favors received. Especially do I wish to emphasize the earnestness and efficiency of your Board of Stewards, and your Ladies Aid Society, both of which against many odds and difficulties have patiently and persistently toiled on—and won.

Praying that prosperity and blessing may be yours in the years to come, and trusting that no unpleasant memories may mar the harmony of these years of toil and service, I remain your brother in the Gospel, Sanford Snyder, Lakeview Oregon, Sept 16th, 1906.

The Misses Ivy and Nellie Cleland came over from Plush Tuesday.

Chicago Physicians Here.

A party of five Chicago gentlemen visited Lakeview last week, remaining here a whole week taking in the beautiful scenery and enjoying the fine hunting and fishing. They were well pleased with their weeks sport and say they will come again next Summer and bring with them, several other Chicagoans and spend a month hunting and fishing. Four of the party are prominent physicians of Chicago, and one of them enjoys a practice amounting to \$150,000 a year, while the others are also very prominent in their profession.

They were directed to come here by Dr. Dalys' brother who lives in Chicago, and were not sorry that they availed themselves of the opportunity to spend a week in Lake county. They came by way of Reno, and returned the same way, going to San Francisco before returning to Chicago. They were a jolly good crowd and made many friends while here, who will be glad to see them next year when they come again.

Lake county is becoming known all over the United States as one of the most picturesque and enjoyable spots in the West for Eastern Millionaires and pleasure seekers to spend a months vacation, and each year adds to its popularity as such. It behooves residents of Lake county to never miss a chance to secure a crowd of pleasure seekers in order that Lake county as a wondrous world and pleasure resort may not lose its standing among other western resorts. The crowd consisted of A. C. Stealey, Geo. L. A. Dale, W. Riley, A. W. Brothy and S. L. Stearns.

Verdict of Guilty in Forest Reserve Cases.

At the opening of the Federal Court, yesterday morning, a verdict of guilty in the Blue Mountain forest reserve case was read. State Senator Franklin P. Mays, ex-Representative Willard N. Jones and George Sorenson, guilty of conspiracy to defraud the Government out of its public lands, as charged in the indictment. There was no recommendation for mercy. In the absence of W. D. Fenton attorney for Defendant Mays, who left on the early train for Seaside M. L. Pipes, of council for Defendant Jones, obtained a stay of sentence in the cases of all the defendants until the necessary proceedings on appeal can be perfected and the matter of pronouncing sentence was continued for the term.

It has been ascertained that three ballots were taken before a verdict was reached. Juror Robert N. Lovelace, a farmer, residing near Rainier, the Columbia County, voting to acquit on the first two ballots, while the other eleven stood solidly for conviction.

After the first ballot Lovelace is said to have offered to change to conviction providing the others would join him in a recommendation for clemency, which was refused, and on the final ballot he gave in and sided with the majority in an unconditional verdict of guilty.

The case involved by indictment No. 2911 will be next on the program for trial, and is scheduled to begin about October 15, at which time Judge Hunt will be here to preside, and Mr. Heney will also return and conduct the prosecution. This will be the last land-fraud case that Judge Hunt is likely to preside over for some time, as he announced yesterday that Circuit Judge Gilbert had assured him that he would, at Judge Hunt's request, endeavor to secure somebody else in future.

Indictment No. 2911, which was returned February 10, 1905 charges Winlock W. Steiwer, Hamilton H. Hendricks, Clarence B. Zachary, Adebret C. Zachary, Charles A. Watson, Clyde E. Glass, Binger Hermann, John H. Hall, Edwin Mays, Franklin P. Mays, Clark E. Loomis, and Edward D. Stratford with a violation of section 5440, Revised Statutes, in having conspired to commit an offense against the United States by preventing and obstructing free passage over certain public lands, in townships 5, 6, and 7, south, ranges 19 and 20 east, through the maintenance of an illegal inclosure formed out of a line of illegal homestead entries.

This is known as the Butte Creek Land, Livestock & Lumber Company case, and is considered one of the most important of any yet heard. It is expected that from two to three weeks will be occupied in the trial.

The United States Circuit Court of Appeals will meet on Monday next. Circuit Judges Morrow and Ross and Circuit Court Clerk Frank D. Monckton joined Judge Gilbert here last Wednesday.

The last official act performed by Judge Hunt yesterday afternoon previous to his departure for Montana in the evening was to allow the appeal in the case of Charles Nickel, the Medford editor who was convicted July 27 on a charge of conspiracy to suborn perjury and sentenced to 13 months in the Government prison on McNeal's Island. Judge O'Day his attorney, obtained a writ of error in the case, returnable before the Circuit Court of appeals, and Nickel furnished a new bond on appeal in the sum of \$8000, with David H. Miller, Isaiah L. Hamilton and William I. Vawter as sureties.

Montana Mining Men.

T. C. Blair, a mining engineer from Butte, Montana, and W. Y. Miller of Paisley, passed through Lakeview last week on their return from the Windy Hollow, or Lost Cabin mining district. Mr. Blair has had several years' experience in the mines up in Montana, and says the new strike on the desert near this place has every appearance of developing into a rich mine.

A number of Paisley people, among them W. Y. Miller, C. L. Withers, W. H. Tucker and others, will incorporate their claims in a stock company and put a limited amount of stock on the market, for the purpose of development. It is said that Miller owns one of the best claims in the district.

J. C. Oliver and Robt. Nelson were over from the West Side yesterday.

EDUCATORS VIS- IT LAKEVIEW

Annual Institute One of Greatest Importance.

TALKS ON HIGHER EDUCATION

Speakers Dwell on the Future Possibilities of Lake County's Agricultural Resources.

State Superintendent J. H. Ackerman, President E. D. Ressler of the Monmouth Normal and President P. L. Campbell of the State University at Eugene, arrived in Lakeview Monday evening, as has been formerly announced that they would, by The Examiner.

Mr. Ressler and Mr. Campbell addressed the audience at the hall that evening, and made a good impression.

Both gentlemen are recognized as among the state's ablest instructors and on educational work their opinion is above par.

So impressed were the gentlemen with Eastern Oregon's future, after having traveled across what has been known as the "Oregon Desert", comprising so great a portion of the eastern half of the state that in former years it has been considered a vast waste which rendered this portion of the state unimportant, they dwelt forcibly upon the opportunities, now open for the development of Eastern Oregon. Mr. Campbell has made agriculture a part of his study, and "dry land farming" in Eastern Oregon appeals to him as a most prosperous pursuit. He believes that instead of Eastern Oregon being nothing but a cattle country, as it has always been termed, that it will become the great wheat growing portion of the state. Experiments have proven that such is not only possible, but probable. He did not hesitate to say that the "Oregon Desert" would excel the lower and damper Willamette valley in farm products, especially wheat. While his talk was not lacking in the least from an educational standpoint, what he said of the possibilities of our section of the state was welcomed by his hearers, coming as it does at a time when the strife for recognition of Eastern Oregon by the world as a likely producer, is at its height.

Mr. Ackerman's talk Tuesday evening was well received and the assistance rendered by these three gentlemen to the annual teachers' institute was of such importance that its effect will be lasting. Their demonstration of the urgent needs, varied and numerous, of education—a better and higher education—could not fail to make a lasting impression. Even the adoption of our new Primary nominating law was made to furnish a demand for the education of the coming voter, and the proof offered was conclusive.

The nomination and election of every officer, county, state, and even United States Senators given into the hands of the voter, makes it imperative that the highest education possible is necessary to insure the best results from the new law.

In addition to the speaking, the first evening Mrs. Dyer favored the audience with two beautiful vocal solos, with piano accompaniment by Miss Emily Ayres.

The visitors left Wednesday evening in order to reach Klamath Falls to hold the institute there.

Mr. Ackerman spoke to the audience Tuesday evening on the subject of public schools, their place in the rank of the worlds progress, demonstrating that the public school should follow and not lead. He made plain every point to show that it was the demand for branches of study that caused their adoption, and that it has ever been so.

Mr. Ackerman emphasized the need of high schools, and prophesied that ere long every county in the state would have its high school. Mr. Ackerman's speech was good and to the point throughout, and we are sorry that we have not the space to give it in full, as his argument in favor of high schools was exactly in line with the Examiner's pleas to the voters of
