Instead of Miss Naana Forbes who had been engaged to teach the 6th and 7th grades, Miss Lettie Masterson, of Independence will take these grades. Print shop Devils.

There has been a question as to whether or not there are any "sho devils". Women generally are strong in their contention that there are none and up to the time a newspaper man's wife enters the office to help in getting out the paper, very few of them are recorded as opposing the fair sex in their contention. But when a female takes the place of the "devil" in a print shop, whether it be the man's wife or some other female, the question of whether or not there are "sho devils", comes to him in a more forcible manner. The following item from the North Pacific Rural Spirit solves the problem in about as mild a manner as the female apprentice in a print shop could expect: "We published a letter last week on the dairy situation from our friend U. S. Montadon, of St. Maries, Idaho, but we fear his friends would not recognize his signature after our "devilish" got through with it. We are sorry, but such things will happen sometimes."
