LAKEVIEW, OREGON, SEPT. 27, 1906.

OUR PUBLIC SCHOOLS.

Never before were the people of Lakeview and Lake county more imbued with the knowledge of the real value of good schools. The fact has not only been brought home to them by experience, but it has been a subject which our State Superintendent and the presidents of two of Oregon's most prominent educational institutions, all of whom visited Lakeview recently, emphasized in their speeches to the people of this city. Good schools are the best advertisement a community or town can have. It is a natural question for intending settlers to ask: "Do they have good schools there?" Of the hundreds of letters received at this office for information about the country we cannot call to mind a single one from a man of family, but that started out with the "what kind of schools have you?" It is a deciding question with any family, we don't care where they are coming from or what the object of their coming is. It is the first thing in the minds of parents of children seeking a new location.

While Lakeview has the name of maintaining as good schools as any place, there is no stopping place in the progress of educational matters. Our schools have advanced within the past two years from the common school course to a three years high school course. Five teachers are now employed and the twelfth grade is taught yet, with this, a further advancement to the regular four years' high school course is one that every resident of the county should look forward to and strive to reach at no distant future date. Other counties in Oregon are building high schools, and they do not regard them as an expense, but an asset of the county. The matter of cost to any one individual is never taken into consideration. With an assessed value of over \$4,000,000, the property of Lake county could pay a tax sufficient to build a first-class high school with a levy of one mill for a very few years.

HOLY ROLLERS GO FREE.

The case of the Holy Rollers, well known in the West as a result of the development in the methods of that sect, in the past few months, brings to light a peculiarity in the laws in different States. Esther Mitchell, who killed her brother in Seattle this summer and Mrs. Creffield, who is a wife of the dead Holy Roller, who is as deep in the crime as her girl companion, held their residence in Oregon before the commission of the crime, and under the law, Oregon is responsible for these women, if they are lunatics, and Washington if they are criminals.

A commission was appointed by the Washington authorities to examine into the sanity of the two women. This commission reported both women subjects for the lunatic asylum. The authorities, it seems were willing to thus dispose of their unwelcome and exceedingly disagreeable visitors. Oregon, no difference what her opinion is, must accept the verdict of Washington. The crime was not committed in Oregon and therefore Oregon cannot have a voice in the guilt or innocence of two very dangerous people who are to be sent to this state. It is true they are to be confined in the asylum, but if it should appear that the women are sane the next day after their acceptance at the asylum, they cannot be held at that institution, and will be turned loose on an innocent people who, from the actions of the women in the immediate past, have reasons for being alarmed at their liberty and grave apprehensions as to the safety of many Oregon homes. Washington is not wholly without grounds for complaint, as these people came from Oregon, where their actions were the cause of all the trouble and no restraint was put upon them in this state. Oregon may yet have an opportunity to deal legally with them, and if such opportunity should present itself a method should be adopted that will put an end to the whole thing for all time to come.

A MATTER OF HEALTH

ROYAL BAKING POWDER

Absolutely Pure A Cream of Tartar Powder, free from alum or phosphatic acid HAS NO SUBSTITUTE

The reducing of range privileges and the consequent efforts of stockmen, in the Blue Mountain forest reserve, to secure more range by entering land under the various forms, most all being prohibited within the reserve except mineral locations which many are resorting to, is giving the rangers and supervisors considerable trouble. The Supervisor has made public a recommendation he intends to send to the department, to the effect that he will cut the range privileges 50 per cent. next year to what they are this year. He also says that if the examination of applications for patents to mining claims continue to take up his time he will have to detail a man for that purpose next year. This reduction will drive many thousands of sheep and cattle off the range, and naturally they will find their way to the slaughter pens. If this condition of affairs keeps up for a few years the West will not be able to fill the demand for beef and mutton.

The story of the bank robbery in Rainier on Labor Day, when cashier VanAnker was found bound and gagged and the First National Bank of Rainier relieved of about \$2600, has been sifted down to facts implicating the cashier and he has been arrested for the deed. Van Anker was lured to Portland by detectives working on the case and underwent a severe "sweating," while he admitted losing heavily at poker, he denied stoutly that the money belonged to the bank, and reiterated his first story that two masked men entered the bank on Labor Day while he was at work and took the money, bound and gagged him and escaped. Several hours elapsed between the time of the alleged holdup and the discovery of the cashier.

Reward for Horses

I will pay \$5.00 Reward for the delivery of any and all unbroken horses found in fields or outside in Lake County, South of the desert, or in Modoc county, California, branded with an old horseshoe and a fresh triangle brand underneath, on both jaws. The horseshoe placed on the jaws the same as in my advertisement in this paper, and triangle so as to cover up the bar, on both jaws. To be delivered at Lakeview. W. W. BROWN.

NO TWO MEN ARE ALIKE

There may be a hundred men in this city who have arms the same length as yours—but there is not one other man in the whole county who is the same as yourself in all other proportions.

It is simply an impossibility to get a perfect fitting suit by buying ready-to-wear clothes.

We will make a suit to your measure for \$20.

You pay that much, or nearly that much for every hand-me-down suit you buy.

Custom-made clothes—store clothes—are turned out by the thousand. They are cut and sewed by machinery.

That is why you have bought suits heretofore that lost their look of usefulness before you had worn them half a day.

We will make a suit to your measure—for your exclusive wear—that will fit you because it was built for you, and no one else—for \$20.

We guarantee the cloth to be an all-wool cloth—the cloth is new and vigorous—just off the loom—the latest patterns—hand-padded—every seam hand-sewed with silk-lined with imported Venetian cloth.

We have selected several patterns, any of which we will make up to your measure for \$20. Unless you express some preference we will mail you a sample of a late English overline pattern.

This pattern is so new that it will be sold by tailors next year as the "latest."

The background of the pattern is a deep gray, with an almost imperceptible overline or check. The color of this fabric does not show dust easily, does not wrinkle and has taken the dye so well that the garment looks like new until it is all worn out.

The wool used in weaving this garment was selected with unusual care. There is no short wool in the fabric and no shoddy. The cloth has so fine a weave that it presents a fairly hard surface, and at the same time is soft and pliable. It will not scuff up or get shabby. This cloth cannot be bought from the mill for less than \$3.50 a yard, no matter if you bought five thousand yards. We are the Pacific Coast representative of a syndicate of the largest woolen mills in the world.

That enables us to make this unprecedented offer of a suit to your measure for \$20. Send for a sample—pull it to pieces—see how long and even the wool strands are—note how well the "dye" has set.

Fill out this coupon and mail to us and we will send you a sample of the cloth. We guarantee that the sample is actually cut from the very bolt of cloth from which we make the suit. When you visit Portland, come in and verify this or any assertion we make. If you wish, ask some Portland friend to tell you about the reputation and standing of the Columbia Woolen Mills Co.

It is the simplest thing in the world to have some friend take your measure. We will send you a tape measure free, and instructions how to take a measure for a suit of clothes.

Be sure and send for this sample. If you get a suit from this offer, you will be wearing a garment the pattern of which local dealers cannot possibly get in stock before another year. The pattern of our \$20 suit will be sold next year as the latest (by other tailors).
