LAKEVIEW, OREGON, OCT. 4, 1906

Bro. Stanley of the Cedarville Record, in his eagerness to give the news last week, laid himself open to severe criticism for publishing a little item stating that certain men in Warner Valley had been arrested for stealing cattle and brought to Lakeview. The thing is so absurd that we will not repeat what the Record said, will say that nothing of the kind occurred. Cattle stealing is a very serious charge and a man who has always been honest and upright, and known to have been so by everybody in the country, is sure to feel when such things are published about him, even though he knows that the paper would believe it for a minute.

Nearly every night for over a week there has been drunken Indians prowling about the streets. It is pretty certain that the Indians get whiskey from the Chinamen, but no evidence can be produced to prove it, and Mr. Indian cannot be made to tell, and the task of getting to the bottom of the matter is a difficult one. Extraordinary methods might be employed which would show up the culprit. It will go on, no doubt, until some night one of these drunken Indians will commit a terrible crime.

There was 140 timber land filings in the Lakeview land district during the month of September, the local land officials have been crowded with work, and besides a large amount of official business the office has been overrun with inquiries about lands in this district. Thousands of people write to the land office for information, thinking, no doubt, that they are the only one who have written, and in many cases complain because they do not receive an answer by return mail.

Hill Back of New Road
In eastern railroad circles the Idaho, Montana & California railroad, which is now about ready to begin construction, is said to be a Hill project set on foot to evade Harriman territory in California and the Southwest. It is reported that the surveys are practically complete, and that grading will begin in a few days, says the Journal. The company has opened an office at Caldwell, Idaho, which place has raised a bonus of \$40,000. Secretary E. E. Springer is quoted as saying the route has been surveyed and contracts will be let at once for grading. It is expected to have the line completed from its Montana terminus to Winnemucca by the end of 1907. Additional color has been given the rumor of Hill interest in the road by the fact that Northern Pacific surveying parties were at work on the final survey from the Snake River to Winnemucca. Close observers believe they see a family resemblance between this railroad project and the Deschutes River line that is being projected by W. F. Nelson and Seattle associates, under the name of the Oregon Trunk Line. This road has been surveyed to Madras, in the Willow Creek Basin, about 120 miles from the mouth of the Deschutes, and practically all of the rights of way have been secured. Some work on the grade has been done at the lower end of the line, and a small force is kept at work to protect the right of way from interlopers.

The engineers employed by Mr. Nelson have run preliminary lines through to Lakeview, and are also pointing their instruments toward the Klamath County. It is believed their intention is to invade Central Oregon with a railroad that will fork at Madras, one line going to the Klamath Basin and the other to Lakeview to connect with an extension that has been surveyed from the California, Nevada & Oregon road from Madeline northward to the capital of Lake County, which point is the center of a rich and productive region now 100 miles from rail-transportation.

NO TWO MEN ARE ALIKE POINTED PARAGRAPHS

There may be a hundred men in this city who have arms the same length as yours—but there is not one other man in the whole county who is the same as yourself in all other proportions.

It is simply an impossibility to get a perfect fitting suit by buying ready-to-wear clothes.

We will make a suit to your measure for \$20. You pay that much, or nearly that much for every hand-me-down suit you buy.

Custom-made clothes—store clothes—are turned out by the thousand. They are out and sewed by machinery.
That is why you have bought suits heretofore that lost their look of newness before you had worn them half a day.
We will make a suit to your measure—for your exclusive wear—that will fit you because it was built for you, and no one else—for \$20. We guarantee the cloth to be an all-wool shirting—the cloth is new, and vigorous—just off the loom—latest patterns—hand-padded—every seam hand-sewed with silk-lined with imported Venetian cloth.
We have selected several patterns, any of which we will make up to your measure for \$20, unless you express some preference we will mail you a sample of a late English overline pattern. This pattern is so new that it will be sold by tailors next year as the "latest."
The background of the pattern is a deep gray, with an almost imperceptible overline or check. The color of this fabric does not show dirt easily, does not wrinkle and has taken the dye so well that the garment looks like new until it is all worn out. The wool used in wearing this garment was selected with unusual care. There is no short wool in the fabric and no shoddy. The cloth has so fine a weave that it presents a fairly hard surface, and at the same time is soft and pliable. It will not snuff up or get shaly. This cloth cannot be bought from the mill for less than \$3.50 a yard, no matter if you bought five thousand yards. We are the Pacific Coast representative of a special case of the largest woolen mills in the world. That enables us to make this unprecedented offer of a suit to your measure for \$20. Send for a sample—pull it to pieces—see how long and even the wool strands are—note how well the dye has set.
Columbia Woolen Mills Co., Portland, Or.
Please send me free, sample of late pattern English overline goods, from which you agree to make a suit to measure for \$20. Also send me, free, a pocket tape measure and blank, and instructions for taking measures. This does not obligate me to buy a suit unless I wish.
Name _____
Address _____

Fill out this coupon and mail to us and we will send you a sample of the cloth. We guarantee that the sample is actually cut from the very bolt of cloth from which we make the suit. When you visit Portland, come in and verify this of your assertion we make. If you wish, ask some Portland friend to tell you about the reputation and standing of the Columbia Woolen Mills Co.
It is the simplest thing in the world to have your friend take your measure. We will send you a tape measure free, and instructions how to take a measure for a suit of clothes.
Be sure and send for this sample. If you get a suit from this offer, you will be wearing a garment the pattern of which local dealers cannot possibly get in stock before another year. The pattern of our \$20 suit will be sold next year as the latest (by other tailors).
