The entertainment to be given by Miss Hall and Miss Snelling for the benefit of their rooms on the 22d, is looked forward to with great pleasure by those who are acquainted with the ability of the ladies in putting on entertainments, especially in drilling children. It is an assured success, and a large crowd is expected, and amply provided for.

The cantata, to be given by Miss Miller's choral class next Monday evening, is said to be a very beautiful affair. It has been given quite recently in several valley towns, and when given in Medford was highly eulogized by the papers of that city. Miss Miller is thoroughly competent to put on a play of this sort and a splendid production is looked forward to. The hall is now in good condition, new seats and a new stove have been put in and will be very cozy for the several entertainments to be held there during the holidays.

We understand that there is a family in Warner canyon that is in destitute circumstances. The man is said to be in the last stages of consumption and there are eight children, the two larger boys of the family are cutting wood and trying to support the family, but the row is a hard one. A subscription was taken up at the M. E. Church last Sunday night for their relief. We did not learn the family's name but it matters not what their name, if they are in need, they should receive attention from the more fortunate people of the neighborhood.

### ELECTRIC ROAD FOR LAKEVIEW.

was over to Lakeview. While there the Goose Lake scheme was heard of, investigated and practically decided on. But Carroll was a hard nut to crack. He had the situation well in hand and in a fair position to dictate terms. So a campaign of waiting was decided on, so far as the rail ad was concerned. But the Goose Lake irrigation enterprise was to go ahead. C. H. McKendree, of Bonanza, who was really the man who brought the proposition to the attention of the capitalists, was authorized to go ahead and get
