

ured of Lung Trouble.
 "It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 138 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds. Thousands of persons are benefited every year. Guaranteed at Lee Beal's drug store, 50c and \$1.00. Trial bottle free."

The Story of a Medicine.
 Its name—"Golden Medical Discovery"—was suggested by one of its most important and valuable ingredients—Golden Seal root.
 Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.
 A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts, physicians and writers on hygiene, who recommend them as the very best remedies for the diseases for which "Golden Medical Discovery" is advised.
 A little book of these endorsements has been compiled by Dr. E. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompanied with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on coughs, and all those wasting affections which, if not promptly and properly treated, are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It will cure the affections that lead up to consumption, if taken in time.

Timber Land Notice.
 United States Land Office, Lakeview, Oregon, December 1, 1907.
 Notice is hereby given that in compliance with the provisions of the act of Congress of June 3d, 1878, entitled "An act for the sale of timber lands in the States of California, Oregon, Nevada, and Washington Territory," as extended to all Public Land States by act of August 4, 1892, Sanford O. Pease, of Summer Lake, County of Lake, State of Oregon, has this day filed in this office his sworn statement No. 3419, for the purchase of the E½ SE¼ Sec. 26 E½ NE¼ of Section No. 35, in Township No. 37, S, Range No. 19 E., W. COMPOUND INTEREST
 The trouble with most advertisers is that they expect immediate returns of large proportions. One prominent advertiser illustrates the principle of advertising in this way:
 "The money expended for advertising is the same as if placed at interest. The profits from the advertising are virtually the interest on the investment."
 "The sums spent for advertising are properly chargeable to capital account because the resulting good will is something that has value, which, if the advertising has been properly done, can usually be sold for the face value of the investment."
 "Just as the quickest way to increase invested wealth is by compounding the interest, just so the quickest way to realize results from advertising is to compound the returns."—Advertising Experience.
 Advertisers get good returns on the amount invested in our columns. We reach the people.

WHERE LABOR STANDS.
Declaration of Principles of the American Federation.
 The American Federation of Labor in recent session at Minneapolis endorsed the following declaration of principles:
 In furtherance of our claim—namely, that our principles comprise the fullest and highest scope of human activity and from time to time will be enhanced and advanced in accordance with the demands to satisfy human needs and desires—we recommend the following as a partial statement at this time of the economic demands of the American Federation of Labor:
 Free schools, free text books and compulsory education.
 Abolition of all forms of involuntary servitude except for punishment of crime. Unrelenting protest against the injunction process in labor disputes.
 A workday of not more than eight hours in the twenty-four hours in a day.
 A strict recognition of not more than eight hours per day on all federal, state or municipal work and at not less than the prevailing per diem wage rate of the class of employment in the vicinity where work is performed.
 Release from employment one day in seven.
 The abolition of the contract system on public work.
 The municipal ownership of public utilities.
 The abolition of the sweatshop system.
 Sanitary inspection of factory, workshop, mine and home.
 Liability of employers for injury to body or loss of life.
 The nationalization of telegraph and telephone.
 The passage of anti child labor laws in states where they do not exist and rigid defense of them where they have been enacted into law.
 Woman suffrage coequal with man suffrage.
 Initiative, referendum, imperative mandate and right of recall.
 Suitable and plentiful playgrounds for children in all cities.
 Continued agitation for the public bath system in all cities.
 Qualifications to permits to build of all cities and towns that there shall be bathroom and bathroom attachments in all houses or compartments used for habitation.
 We favor a system of finance whereby money shall be issued exclusively by the government, with such regulations and restrictions as will protect it from manipulation by the banking interests for their own private gain.

TO FIGHT UNION LABOR.
 Steel Trust Will Attempt to Build Gary on Open Shop Plan.
 The United States Steel corporation, which has started to build an \$80,000,000 steel plant and town at Gary, Ind., has given notice that the work is to be done on the open shop plan, says Lulu Grant in the Chicago Record-Herald. Little work beyond the grading has yet been done, but it is likely that there will be numerous labor troubles before the new city is built. The structural ironworkers have started the trouble by calling off their men in the plants of the Illinois Steel company at South Chicago, Buffington and Joliet because the company has employed nonunion ironworkers at Gary and is working them nine hours a day.
 Frank M. Ryan, president of the Bridge and Structural Ironworkers' association, says the company has violated its verbal agreement with the union in the course it has adopted. While the ironworkers never had any written agreement with the Illinois Steel company, they have had an understanding since the lockout in 1900. This understanding has been that the steel company would pay the same scale and grant the same working conditions as are granted by outside contractors. This policy has been carried on for six years, the men working for the steel company getting an advance in wages every time the union established a new scale. Because of this arrangement the men employed by the steel company have been permitted to work sometimes when there was a strike on outside contractors.
 The ironworkers' union extends its jurisdiction to a radius of fifty miles from Chicago, so that the new town of Gary comes inside that limit. Most of the Chicago building trades unions do not pretend to have jurisdiction outside of Cook county, while many of them claim jurisdiction only inside the city limits. It is probable that trades like the carpenters, bricklayers and others who do not seek control outside the county will not attempt to force the Chicago wage scale in Gary, but all of them will object to increasing the hours of labor so close to the city. The eight hour day has been so long recognized in the building trades in Chicago that the unions will naturally fight against any encroachments on it. The employers who are fighting the unions are watching developments at Gary, as, if the town can be built on the open shop plan—which means with nonunion labor—it will do a good deal toward furthering the open shop campaign.

Referendum Vote in Louisiana.
 In Louisiana at the November election there was a referendum vote on twelve constitutional amendments. Eleven of the proposed measures were adopted and one was defeated. Male and female factory inspectors are provided for, as also are popular election of tax assessors and collectors for New Orleans and payment of back salaries for public schoolteachers. The vote in favor of these changes was about seven to one. On the other hand, a proposed exemption from taxation was defeated by a seven to one vote. Who says that the voters don't discriminate?
