LAKEVIEW, OREGON, FEB. 7, 1907.

AN ALL WISE PUBLISHER.

Last weeks Silver Lake Oregonian undertakes to give lessons in printing. For the benefit of readers of The Examiner who never see that "Silver Lake Oregonian" we can say that it is a little patent outside affair owned by a fellow who never seen inside of any other print shop, only as a "pleasant caller," and we hardly know what he followed before he became too fat to work and was given a county snap by the good and sympathizing people of Lake County and also a government job which worked in nicely with his newspaper. Mr. W. (abbreviated as he suggests) however, is a pretty good fellow; a good many people like him very well, and while he condones his own offenses of charging \$15 for a 4 line land notice, consolidated with others, which gives him \$3.75 per line for 10 insertions while the Examiner gets only 25 cents per line for five insertions, or in other words he charges the same class of people 7 1/2 times as much as the Examiner does in this case, yet he assumes to be the guardian of the people's pocket books.—Look out "dear people."

The W. of the S. L. O. (should be slow) gives an example of how type should be set, which example displays his absolute ignorance of the printing business.

The object intended by the law authorizing the sale of lands for taxes in publishing the descriptions, is to give legal notice to the party whose land is to be sold and also to give a legal and absolute description of the lands to the public who is expected to purchase the lands. Descriptions of lands in deeds and mortgages and everything of that character are written out in full, so that there can be no mistake or misconstruction.

The fact is, the publishers of the Silver Lake paper nor the party jointly responsible with them in the publication of the editorial roast contained in that sheet last week, know absolutely nothing about the printing business and have about as little conception of a legal notice, and such advice is worse than worthless.

We know nothing of graft; never had a taste of it; never had a U. S. commissionership, or anything of the sort attached to our newspaper business; always worked for our nickies, but if the W. of the S. L. O. (w) smells graft it is not necessary for him to have a very strong sense of smell. Look around your own bungalow, Bro. W., maybe the disagreeable odor you complain of originates closer home than you suspect.

IF YOU WANT CASH

FOR YOUR REAL ESTATE OR BUSINESS

I CAN GET IT

No Matter What Your Property is Worth, or in What Town, City, State or Territory it is Located

If I did not have the ability and facilities to sell your property, I certainly could not afford to pay for this advertisement. This "ad" (like all my other "ads") is practically sure to place on my list a number of new properties, and I am just as sure to sell these properties and make enough money in commissions to pay for the cost of these "ads," and make a good profit besides. That is why I have so large a real estate business today.

Why not put your property among the number that will be sold as a result of these "ads?"

I will not only sell it—some time—but will be able to sell it quickly. I am a specialist in quick sales. I have the most complete and up to date equipment. I have branch offices throughout the country and a field force of men to find buyers.

I do not handle all lines usually carried by the ordinary real estate agents. I MUST SELL real estate—and lots of it—or go out of business. I can assure you I am not going out of business. On the contrary, I expect to find, at the close of the year, that property as I did the past year, but it will first be necessary for me to "list" more property. I want to list YOURS and SELL it. It doesn't matter whether you have a farm, a home without any land, or a business; it doesn't matter what it is worth, or where it is located. If you will fill out the blank letter of inquiry below and mail it to me today, I will tell you how and why I can quickly convert the property into cash, and will give you my complete plan

FREE OF CHARGE

and terms for handling it. The information I will give you will be of great value to you, even if you should not sell. You had better write today before you forget it. If you want to buy any kind of a Farm, House, or Business, in any part of the country, tell me your requirements. I will guarantee to fill them promptly and satisfactorily.

Portland was visited by a sleet storm last week, which did immense damage. Following a heavy rain, as it did, the streets were a glare of ice, and the sleet and ice accumulated on trees, telephone, lights and telegraph wires so that they were smashed to the ground. The storm lasted for two days, and all the shrubbery and ornamental trees were greatly damaged. For a fancy name the Portland papers called it a "silver storm" if it had been a golden storm, Portland would have been ruined.

The knowledge that Oregon has a legislature in session causes one to peruse the papers for news concerning it; but so far so little has been accomplished further than the introduction of a large number of bills in both houses, that only disappointment follows the search. But few bills have passed, and those are of minor importance to the state at large, and discussion on other pending bills is dry reading, especially when it is set out in the headlines that the defeat of the measure is almost inevitable.

There is a bill up for enactment into law by the legislature which, if it becomes a law, is intended to eliminate the scab among sheep of Oregon, and thus cause the quarantine against Oregon sheep to be raised. The bill makes dipping at stated times, and all times in case of scab, compulsory under the supervision of one clothed with authority by the bill. It is thought that if the provisions of the bill are carried out the scab will be entirely cleared up within two years.

The Spokane Spokesman-Review is endeavoring to have a new state created out of portions of Idaho and Washington to be called Lincoln. A good sized chunk of Oregon will be sacrificed in the deal. For the loss of that part of Idaho known as the Panhandle, which is to be a part of the state, Idaho is to be compensated with a slice of northeastern Oregon. The creation of new states out of old ones is no easy matter, but the promoters of this scheme may, eventually, succeed.

The high water is not a local occurrence. Everywhere in Oregon and California that can be heard from is having the same experience. Papers from the Willamette valley express great fears lest the rivers overflow and great damage will result. They have already passed the highwater mark, and the downpour of rain continues. Factories and mills along the rivers have closed down on account of the back water rendering useless the water power.

Klamath county people have been contemplating the construction of a \$75,000 court house by the issuance of bonds. Their hopes were shattered a few days ago when Attorney General Crawford informed Representative Merriman that the legislature had no authority to permit Klamath county to issue bonds in excess of \$5,000, which is the limit of indebtedness. The state constitution places in each county.

Cedarville Record.—"The Lakeview Examiner is in a peck of trouble because a division of Lake County is being agitated. We don't know any thing about the Oregon laws regarding county division, but if they are like California's the Examiner editor can go to bed and sleep soundly for Lake county will remain intact.
(We slept.)

Farnk Burns a young man well known in this and Warner valley, died recently at Winhamucca, Nevada. Frank was raised in this county and worked at buccaroing most of his life since old enough to ride a horse. He was the son of Mr. and Mrs. J. H. Burns of Warner valley. We did not learn the particulars of his demise.
