 LAKEVIEW, OREGON, FEB. 14, 1907.

The Herald was in error last week when it said that the fire plugs were filled with sand, as a result of the breaking of the water main. We are authoritatively informed that at no time was there any sand or other obstruction in any of the fire plugs or pipes leading to them. The water running into the tank, from which the fire mains are supplied, was shut off the evening before the large main up the canyon broke, consequently, it was impossible for sand or gravel to have gotten into the pipes or fire plugs. At no time during the freshet was the towns' protection from fire hampered in the least as a result of the freshet or its effects.

The Alturas Republican says that John Wall was in that town last week and "interviewed Clerk Smith". Clerk Smith, you know, is the fellow who issues marriage license to the swains of Modoc. Now looky here, Bro. Republican, that's about a 4-times-a-year report, and John's Lakeview friends are onto it, so don't try to throw that kind of stuff down us any more. It is believed that John wouldn't have the prettiest woman on earth; and then another thing, too, she wouldn't have John either and everybody believes he has quit trying.

The bill to repeal the timber & stone act has been favorably reported in Congress, with Senator Fulton's amendment, providing for the sale of timber from the lands to the highest bidder, with preference given the small bidder, and 25 per cent. of the proceeds of the sale to go to the county in which the timber is situated. Governor Chamberlain has wired a strong message to the Oregon delegation opposing the measure, and the legislature will act accordingly. All western Senators and Representatives are expected to oppose the bill.

H. L. Holgate, of Klamath Falls, who has been on a business visit to Willamette valley points, returns to his home, and informs the Klamath Falls Herald that while at Salem he learned that the Deschutes county bill was introduced by Representative Merriman, by request, for the purpose of having it in a safe place, in the hands of an unfavorable committee, who are expected to either report unfavorably upon it or postpone action indefinitely.

John D. Rockefeller proposes giving \$32,000,000 worth of income-bearing securities to the board of general education. The money will be used for general educational purposes throughout the country. This sum, added to a previous endowment by Mr. Rockefeller, makes a total of \$43,000,000 for educational purposes.

The Portland Oregonian states that the recent thaw came in the nick of time to save thousands of stock from starving to death in Eastern Oregon. Eastern Oregon usually applies to all that portion of the state lying east of the Cascade mountains, but this report does not, by any means, apply to this portion of Eastern Oregon, for the winter has been an ideal one for both range stock and those being fed. All were in fine condition, and feed is plentiful. A great many cattle, sheep and horses have wintered on the range, and are fat.

If there is any way to prevent fruit trees from blooming for a while, that method should be resorted to, as these warm spring days are likely to cause the early varieties to bloom, and the frosts that invariably come a little later will catch the fruit. The fine weather is acceptable, as it allows farmers to do their plowing and get their grain in the ground early, but a very long spell of the kind of weather we are having now is dangerous to the fruit crop, unless the trees can be kept back for a while.

The man Kelley, who killed Deputy Sheriff Stout at Susanville, mentioned in The Examiner last week, has been charged with murder. It was brought out in the preliminary examination that the mans insanity was caused by an extended sprae while he was in Reno. The effect of such insanity on the case will be determined in his trial.

Rather queer; the Silver Lake Oregonian bitterly opposed the county division scheme at first, but since its editor returned from a visit to Bend that paper comes out in a strong editorial in favor of the new county.

Did you ever realize that planting advertising is like planting fruit trees? You couldn't expect a whole wagon load of apples the first year. Neither would you tear the tree up by the roots at the end of the season if that wagon load of fruit were not forthcoming. Yet you run a big ad., and expect a carload of sale, and just because you didn't do as much as your neighbor over in the other orchard, who has been tending his trees for years, you yank your advertisement out of the paper and say "Advertising doesn't pay." We wouldn't expect you to get married to advertising the first time you made its acquaintance, any more than we expect you to marry the first girl who winked at you on the street.—Benton County Republican

Neighbors got Fooled.
 "I was literally coughing myself to death, and had become too weak to leave my bed; and neighbor predicted that I would never leave it alive; but they got fooled, for thanks be to God, I was induced to try Dr. King's New Discovery. It took just four one dollar bottles to completely cure the cough and restore me to good sound health," writes Mrs. Eva Uncapher, of Govertown, Stak Co., Ind. This King of cough and cold cure and healer of throat and lungs, is guaranteed by Lee Beall Druggist, 50c. and \$1.00. Trial bottle free.

IF YOU WANT CASH

FOR YOUR REAL ESTATE OR BUSINESS
 I CAN GET IT

No Matter What Your Property is Worth, or in What Town, City, State or Territory it is Located

If I did not have the ability and facilities to sell your property, I certainly could not afford to pay for this advertisement. This "ad" (like all my other "ads") is practically sure to place on my list a number of new properties, and I am just as sure to sell these properties and make enough money in commissions to pay for the cost of these "ads," and make a good profit besides. That is why I have so large a real estate business today.

Why not put your property among the number that will be sold as a result of these "ads"?

I will not only sell it—some time—but will be able to sell it quickly. I am a specialist in quick sales. I have the most complete and up to date equipment. I have branch offices throughout the country and a field force of men to find buyers.

I do not handle all lines usually carried by the ordinary real estate agents. I MUST SELL real estate—and lots of it—go out of business. I can assure you I am not going out of business. On the contrary, I expect to find, at the close of the year, that I have sold twice as many properties as I did the past year, but it will first be necessary for me to "list" more property. I want to list YOURS and SELL it. It doesn't matter whether you have a farm, a home without any land, or a business; it doesn't matter what it is worth, or where it is located. If you will fill out the blank letter of inquiry below and mail it to me today, I will tell you how and why I can quickly convert the property into cash, and will give you my complete plan

FREE OF CHARGE

and terms for handling it. The information I will give you will be of great value to you, even if you should not sell. You had better write today before you forget it. If you want to buy any kind of a Farm, House, or Business, in any part of the country, tell me your requirements. I will guarantee to fill them promptly and satisfactorily.
