W. C. Laird is wanting to get hold of a good jack. Some time ago he lost a good one in a rather peculiar manner; it was a sort of murder case. Maje Fine had a jack and it got into a field with Laird's jack. The two animals engaged in a deadly combat, as jacks will, with the result that Laird's jack was killed. The Fine jack bit the ear off another jack belonging to Ed. Laird, which was running in the same field.

The Cedarville Record fears the fruit crop in Surprise valley will be damaged as a result of the early budding out of the trees. So far as we have heard, no fruit trees put out their buds in this county during the warm spell, hence the frosts that come later in the spring will not hurt the fruit unless, however, another warm spell occurs, which may bring the trees out before the frosty season has passed. This is not thought hardly likely now, as the weather is colder and occasional snowfalls will tend to keep the trees from budding out until it is time for them.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J.
