LAKEVIEW, OREGON, MAR 14. 1907,

Criminals and the Law.

In order that Abe Reuf, the San Francisco grafter, might make use of the new law passed by the California legislature, which gives criminals the right to choose the judge before whom they shall be tried, Reuf's attorney, Henry Ach, has resorted to inconceivable metho is to secure delay in the trial until the new statute will be in force, which will be 60 days from the date of its passage. Ach prepared a very conning writ of error and in order to have it signed be took Judge Hebbard over the highball route until his mental capacity was so deranged as to be susceptible to the will of the conning attorney. The next procedure was to bide Ruef, and when the case was called in Judge Dunne's court Ruef could not be found, and was declared by the judge a fugitive from justice and his \$50,000 bonds forfeited. A bench warrant was issued for Ruefs arrest and placed in Sheriff O'Neills' hands, and O'Neill being a friend of Ruefs the criminal could not be found.

That the wealthy criminal or the villian with sufficient power behind him to secure the "best in the profession." is practically immune from justice is evidenced by the manipulations of courts of justice in many noted trials of late years. A number of these cases might be named which would include the McKinley-Ware-Puter case; the Benson-Hyde case; the Iroquois Theator case. The Iroquois Theator of Chicago was barned four years ago and hundreds of lives were lost, the proprietor is now on trial for manslaughter and legal obstacles are continually blocking the way of justice; and many other cases that have been afforded immunity, and although con- was to have brought a railroad to that siderable sympathy for the defendant town in a short time. There is no system of education too high or too worthy, but it is not beyond good reasoning to conclude that the people of the state may grow in the belief that their energy would be as effective if expended on educational institutions more of a local nature and better suited to the convenience of a greater number of beneficiaries.

The rumor gained a place in the papers that S. A. D. Puter and Henry Meldrum would escape punishment in return for evidence furnished in the Hermann trial, but District Attorney Bristol brands the rumor as without foundation and rediculous.

Usually, as communities get older, the public roads get better. This is only accomplished by the continual expenditure of money on them. It is not so with the counties of Lake, and Klamath, in Oregon, and Modoc in California, however, as the roads continue to get worse every year. Whether this condition exists in other counties not mentioned, we do not know, and it is of no material difference, to the people of this place, but in the three counties mentioned, the matter of good roads is of great importanec to all the people of the district. There is but one way to have good roads, and that is to work them at seasons of the year when road work is possible and the most good can be accomplished. If the amount of money appropriated for road work is not sufficient, it is very easy to cause laws to be enacted by which ample funds may be procured to put the roads in a passable condition at all times of the year, and it should be ty, Oregon.

This "ad" (like all my other "ads") is practically sure to place on my list a number of new properties, and I am just as sure to sell these properties and make enough money in commissions to pay for the cost of these "ads," and make a good profit besides. That is why I have so large a real estate business today. Why not put your property among the number that will be sold as a result of these

I do not handle all lines usually carried by the ordinary real estate agents. I MUST SELL real estate—and lots of it— or go out of business. I can assure you I am not going out of business. On the contrary, I expect to find at the close of the year, that
